Alternative Sites Representations Register

July 2014

Introduction

The Alternative Sites Representations Register provides a copy of the duly made representations that were received by the Council during the Alternative Sites public consultation that took place in the six week period from Thursday 20th March to Thursday 1st May 2014.

Further information on this stage can be found in the [Alternative Sites Register](#) (March 2014) which lists all suggested 'alternative sites'.

How to Use this Document

The Alternative Sites Representations Register has been arranged into a number of volumes due to the size of the document.

These are **ordered by representation number** (which you may have previously received if you have been in correspondence with the Council regarding the LDP).

An index list of representors names, organisations (where applicable) and their ID numbers are provided below. If you do not know the ID number please search the below list of representors names and organisations to find the relevant representation number and corresponding volume number. When the volume is opened, bookmarks will appear on the left hand side which will direct you to the desired representation number.

Please note that every effort has been made to redact personal information such as addresses, signatures and other contact details.

The document provides a factual record of the representations received during the Alternative Sites public consultation. The Council has not yet considered these in detail and responses will be prepared to them as part of the Consultation Report prior to the Independent Examination of the LDP.

Should you require any further assistance, please contact the LDP Team on 01446 700111 or by Email: LDP@valeofglamorgan.gov.uk
