The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASN006 - Llysworney - Llysworney Bypass

**Summary of Representation:** Support

**Representor ID and details:** 6666 David Lindley/Caron Lindley

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation

**Summary of Representation:** Object

**Representor ID and details:** 6666 David Lindley/Caron Lindley

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details** ASN010 - Land east of Station Road, East Aberthaw - Residential

**Summary of Representation:** Object

**Representor ID and details:** 6667 Mr & Mrs Matthew and Alexandra Lc

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Alternative Site Details** ASD49 - MG 2 (23) - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6676 Glandon Worthey

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASA46 - Land at Beach Road, Sully - Green Wedge - reduce designation

**Summary of Representation:** Object

**Representor ID and details:** 6678 Mrs F.M.Pearcey

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASN092 - Land East of Llangan - Gypsy and Traveller site

**Summary of Representation:** Support

**Representor ID and details:** 6678 Mrs F.M.Pearcey

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASA35 - The Stables, Corntown Road, Corntown - Green Wedge - reduce designation

**Summary of Representation:** Support

**Representor ID and details:** 6693 Paul Apreda

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASD48 - MG 6 (5) - Land at Upper Cosmeston Farm, Lavernock - Delete Site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6717**    Mrs Susan Lake

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASN047 - Land at Bridge Farm, Llanmaes - Residential**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6735**    Mrs Manu David

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation

**Summary of Representation:** Object

**Representor ID and details:** 6745 Mr Bryan Grice

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASN092 - Land East of Llangan - Gypsy and Traveller site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6747**    Mr Archibald Arkley

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details** ASN091 - Land at Beach Road, Sully - Residential

**Summary of Representation:** Object

**Representor ID and details:** 6749 Mrs Myra Prior

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Alternative Site Details**      **ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **6750**    Mrs Rosemary Grice

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation**Summary of Representation:** Object**Representor ID and details:** 6750 Mrs Rosemary Grice**Council's Response(s):**

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details** ASN026 - Land south west of Sigingstone - Residential

**Summary of Representation:** Support

**Representor ID and details:** 6759 Mr J.R.Nichols

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASN104 - Land north of Welsh St. Donats - Gypsy and Traveller site**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **6776**    Nick Craddock

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **6777**    Mr R L Jones

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6781** Vivienne and Gwilym Thomas

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6788 Catherine Thomas

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASD03 - MG 2 (44) - Land adjacent to St Brides Road, Wick - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6804 Christopher Green

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify the any site specific issues and infrastructure needs.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall plan strategy, are free from constraints and there deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities shall be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations.

Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASA46 - Land at Beach Road, Sully - Green Wedge - reduce designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **6818**    Louise Booker

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6818**    Louise Booker

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASD48 - MG 6 (5) - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6844 Mrs Jendy Hillier

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASN029 - Hayes Road Sully Employment Land - Mixed Use - Including Residential and Employment**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6849**    Debbie Levy

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASA33 - ABP Barry Docks - Green Wedge - reduce designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **6849**    Debbie Levy

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASD13 - MG 2 (6) - Land adjacent to Froglands Farm, Llantwit Major - Delete Site**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **6851**    Mr Phillip Taylor

**Council's Response(s):**

The representation objects to the deletion of a site included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP strategy and policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASD10 - MG 2 (7) - Land between new Northern Access Road and Eglwys Brewis Road - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6851 Mr Phillip Taylor

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation

**Summary of Representation:** Object

**Representor ID and details:** 6853 Dr Huw R Jenkins

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASD47 - MG 7 (4), MG 2 - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6859 Mrs R Allgeier

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details** ASD37 - MG 5 - Hayes Road, Sully Gypsy and Traveller Site - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6862 David Hobbs

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. **Summary of Representation:**    **Object**

**Representor ID and details:**    **6873**    Anne Arnott

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

---

**Alternative Site Details** ASD49 - MG 2 (23) - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6879 Miss I J Webber

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASD37 - MG 5 - Hayes Road, Sully Gypsy and Traveller Site - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6879 Miss I J Webber

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASN059 - Land South West of Weycock Cross - Residential**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6881**    Mr MJ Cruttenden

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASD49 - MG 2 (23) - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6890 Mr M.J.Batchelor

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6893 Mrs Victoria Morley

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASD36 - Land adjoining Cardiff Road, Barry - SINC 339 - Delete Sites of Importance for Nature Conservation 339

**Summary of Representation:** Object

**Representor ID and details:** 6893 Mrs Victoria Morley

**Council's Response(s):**

The representation objects to the deletion of a site included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP strategy and policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASA49 - Land at Penlan Road, Llandough - Special Landscape Area - reduce designation

**Summary of Representation:** Object

**Representor ID and details:** 6907 Raymond & Pauline Davis

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. The change relates to an amended Special Landscape Area boundary to reflect potential development proposals for the Former Quarry site at Leckwith Road, Llandough. A planning application (2013/00632/FUL) has since been considered for the site which has been granted approval and is currently under construction. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Special Landscape Area boundary under policy MG17 (6) is proposed. A consequential amendment to the Residential Settlement Boundary is also considered to be necessary as a result of the planning consent and Focused Change.

---

**Alternative Site Details** ASN057 - Land at Dyffryn Lane, St. Nicholas - Residential

**Summary of Representation:** Object

**Representor ID and details:** 6908 Sophie Teague Davies

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **6909**    Armorel Hamilton

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details** ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6911 Jeanette Phillips

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASN059 - Land South West of Weycock Cross - Residential**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6911**    Jeanette Phillips

**Council's Response(s):**

**Alternative Site Details** ASD36 - Land adjoining Cardiff Road, Barry - SINC 339 - Delete Sites of Importance for Nature Conservation 339

**Summary of Representation:** Object

**Representor ID and details:** 6912 Alan Phillips

**Council's Response(s):**

The representation objects to the deletion of a site included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP strategy and policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASD47 - MG 7 (4), MG 2 - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 6912 Alan Phillips

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **6925**    S Vaughan

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details**      **ASN007 - Land at Llandow - New Settlement**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6946**    Tina Angove

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **6956**    Dave Roberts

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Representor ID and details:** 6962 Sabrina Rind

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASN005 - Land at Upper Cosmeston Farm, Lavernock - Retail

**Summary of Representation:** Object

**Representor ID and details:** 6962 Sabrina Rind

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Representor ID and details:** 6966 Liam Perrott

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Representor ID and details:**    **6967**    Janet Small

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASA45 - Land at Upper Cosmeston Farm, Lavernock - Green Wedge - increase designation

**Summary of Representation:** Support

**Representor ID and details:** 6979 Austin Jeffery

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Council's Response(s):**

The representation objects to the deletion of a site included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP strategy and policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASA45 - Land at Upper Cosmeston Farm, Lavernock - Green Wedge - increase designation

**Summary of Representation:** Support

**Representor ID and details:** 6999 Hugh Skipper

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASN071 - Land north east of Weycock Cross, Barry - Residential**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **7003**    Neil Brookes

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details** ASN092 - Land East of Llangan - Gypsy and Traveller site

**Summary of Representation:** Support

**Representor ID and details:** 7006 David Edwards

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **7014**    Brenda Bowen Jones

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASN106 - Land west of Llangan - Gypsy and Traveller site**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **7017**    Mr Richard Morgan

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASN105 - Land north west of Llangan - Gypsy and Traveller site**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Alternative Site Details**      **ASN092 - Land East of Llangan - Gypsy and Traveller site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **7023**    Mr F.C.Franklin

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASN070 - Hayes Road, Sully - Community Use

**Summary of Representation:** Support

**Representor ID and details:** 7025 S.J.Wakefield

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASN091 - Land at Beach Road, Sully - Residential**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **7025**    S.J.Wakefield

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Representor ID and details:** 7026 Christian Williams

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Representor ID and details:** 7028 Mr John Tivy

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASN092 - Land East of Llangan - Gypsy and Traveller site

**Summary of Representation:** Support

**Representor ID and details:** 7028 Mr John Tivy

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASA45 - Land at Upper Cosmeston Farm, Lavernock - Green Wedge - increase designation

**Summary of Representation:** Support

**Representor ID and details:** 7028 Mr John Tivy

**Council's Response(s):**

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASA46 - Land at Beach Road, Sully - Green Wedge - reduce designation

**Summary of Representation:** Object

**Representor ID and details:** 7047 Keria Hall

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Summary of Representation:**    **Support**

**Representor ID and details:**    **7047**    Keria Hall

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASN070 - Hayes Road, Sully - Community Use**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **7049**    Catherine Thomas

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASN092 - Land East of Llangan - Gypsy and Traveller site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **7053**    Mr I King

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASA46 - Land at Beach Road, Sully - Green Wedge - reduce designation

**Summary of Representation:** Object

**Representor ID and details:** 7067 Mr Andrew Newman

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASN071 - Land north east of Weycock Cross, Barry - Residential**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **7067**    Mr Andrew Newman

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details** ASA33 - ABP Barry Docks - Green Wedge - reduce designation

**Summary of Representation:** Object

**Representor ID and details:** 7069 Mr Brian Newman

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASD49 - MG 2 (23) - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 7071 Mr Peter Chaffey

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.
