The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASN091 - Land at Beach Road, Sully - Residential**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5315**    Laurence & Susan Thomas

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5325 José and Kathryn Constantino

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation

**Summary of Representation:** Object

**Representor ID and details:** 5364 D.B.Owen

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASD47 - MG 7 (4), MG 2 - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5380 Mrs Valerie Baker

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASD46 - MG 16 (12) – Bus Park and Ride at Cosmeston, Penarth - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5402 Carol Stingl

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5407**    Mr Michael Davies

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASN005 - Land at Upper Cosmeston Farm, Lavernock - Retail**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5407**    Mr Michael Davies

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Alternative Site Details**      **ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5415**    Mrs Victoria James

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation

**Summary of Representation:** Object

**Representor ID and details:** 5417 Mr Russell James

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details** ASN006 - Llysworney - Llysworney Bypass

**Summary of Representation:** Support

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASN092 - Land East of Llangan - Gypsy and Traveller site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5434**    Mrs Glenna Hilbourne

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation

**Summary of Representation:** Object

**Representor ID and details:** 5438 Ms M Sanson

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASN070 - Hayes Road, Sully - Community Use**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5466** Fay Jones

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASN091 - Land at Beach Road, Sully - Residential**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5466**    Fay Jones

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5492**    Mr & Mrs D.Lloyd

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASD46 - MG 16 (12) – Bus Park and Ride at Cosmeston, Penarth - Delete Site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5496**    Elizabeth Lyons

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation

**Summary of Representation:** Object

**Representor ID and details:** 5498 Mr & Mrs Hailes

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Representor ID and details:** 5538 Mrs Frances Davis

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5543**    Mrs J Gambling

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details**      **ASN007 - Land at Llandow - New Settlement****Summary of Representation:**    **Support****Representor ID and details:**    **5543**    Mrs J Gambling**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

---

**Alternative Site Details** ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5556 Thomas Allgeier

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASN091 - Land at Beach Road, Sully - Residential**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5563**    Mr A.J.Scott

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASD47 - MG 7 (4), MG 2 - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5563 Mr A.J.Scott

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation

**Summary of Representation:** Object

**Representor ID and details:** 5579 Valerie Morris

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

---

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation

**Summary of Representation:** Object

**Representor ID and details:** 5579 Valerie Morris

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASN070 - Hayes Road, Sully - Community Use

**Summary of Representation:** Support

**Representor ID and details:** 5592 Mr Richard Paton

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASA49 - Land at Penlan Road, Llandough - Special Landscape Area - reduce designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5601**    Barrie Avery

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. The change relates to an amended Special Landscape Area boundary to reflect potential development proposals for the Former Quarry site at Leckwith Road, Llandough. A planning application (2013/00632/FUL) has since been considered for the site which has been granted approval and is currently under construction. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Special Landscape Area boundary under policy MG17 (6) is proposed. A consequential amendment to the Residential Settlement Boundary is also considered to be necessary as a result of the planning consent and Focused Change.

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5608**    Sian Hilbourne

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation

**Summary of Representation:** Object

**Representor ID and details:** 5615 G.J.Davies

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

---

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation

**Summary of Representation:** Object

**Representor ID and details:** 5615 G.J.Davies

**Council's Response(s):**

**Alternative Site Details** ASD46 - MG 16 (12) – Bus Park and Ride at Cosmeston, Penarth - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5620 Carole Britton

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASD48 - MG 6 (5) - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5621 Mr J.Britton

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. **Alternative Site Details**      **ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5637**    Mrs Valerie Pugh

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation

**Summary of Representation:** Object

**Representor ID and details:** 5638 Mr David Pugh

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

---

**Alternative Site Details** ASA11 - Land to the west of Darren Farm, Cowbridge - Extend Housing Allocation

**Summary of Representation:** Object

**Alternative Site Details** ASN006 - Llysworney - Llysworney Bypass

**Summary of Representation:** Support

**Representor ID and details:** 5638 Mr David Pugh

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Summary of Representation:** Object

**Representor ID and details:** 5663 L. Tatham

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Alternative Site Details**      **ASN091 - Land at Beach Road, Sully - Residential**

**Alternative Site Details**      **ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5664**    Mr A Hobbs

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASN091 - Land at Beach Road, Sully - Residential**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5668**    Mr L.Bousie

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Alternative Site Details**      **ASD37 - MG 5 - Hayes Road, Sully Gypsy and Traveller Site - Delete Site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5668**    Mr L.Bousie

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASN092 - Land East of Llangan - Gypsy and Traveller site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5690**    Sully Travellers Action Group

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASN095 - Land North East of Ystradowen - Residential**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5695**    Elizabeth S Downes

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASN006 - Llysworney - Llysworney Bypass**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5695**    Elizabeth S Downes

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5704** C.R.V.Norris

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details**      **ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5728**    Lucy Hailes

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details**      **ASN007 - Land at Llandow - New Settlement**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5729**    L Meredith

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASD47 - MG 7 (4), MG 2 - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5766 David Bennett

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation****Summary of Representation:**    **Object****Representor ID and details:**    **5780**    Mr David Adams**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

---

**Alternative Site Details** ASD46 - MG 16 (12) – Bus Park and Ride at Cosmeston, Penarth - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5805 Mrs A Marcola

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASD47 - MG 7 (4), MG 2 - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5822 Mrs P.Thomas

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASN059 - Land South West of Weycock Cross - Residential**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5838**    Mr David Wilson

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Summary of Representation:** Support

**Representor ID and details:** 5841 Mr Bernard Francis

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5842**    Mr L.Moon

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASD48 - MG 6 (5) - Land at Upper Cosmeston Farm, Lavernock - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5842 Mr L.Moon

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASA45 - Land at Upper Cosmeston Farm, Lavernock - Green Wedge - increase designation

**Summary of Representation:** Support

**Representor ID and details:** 5846 Mrs Layla Wilson

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details**      **ASN059 - Land South West of Weycock Cross - Residential**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5848**    Una Gavin

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASA45 - Land at Upper Cosmeston Farm, Lavernock - Green Wedge - increase designation

**Summary of Representation:** Support

**Representor ID and details:** 5872 Cllr Kevin Mahoney

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5875 Lynee Arbourne

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASA46 - Land at Beach Road, Sully - Green Wedge - reduce designation

**Summary of Representation:** Object

**Representor ID and details:** 5887 Mr Michael Shepperdson

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

**Alternative Site Details** ASN091 - Land at Beach Road, Sully - Residential

**Summary of Representation:** Object

**Representor ID and details:** 5889 Mrs H.L.Clarke

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details**      **ASN092 - Land East of Llangan - Gypsy and Traveller site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5889**    Mrs H.L.Clarke

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

---

**Alternative Site Details**      **ASD40 - MG 2 (46) - Land west of Swanbridge Road, Sully - Delete Site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5892**    Mrs Mary Matthews

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. **Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASA20 - Land between Dinas Powys and Penarth - Green Wedge - increase designation

**Summary of Representation:** Support

**Representor ID and details:** 5893 DPFRAPEd

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

**Alternative Site Details** ASA47 - Land between Penarth and Dinas Powys - Green Wedge - reduce designation - remove site from designation

**Summary of Representation:** Object

It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details** ASD37 - MG 5 - Hayes Road, Sully Gypsy and Traveller Site - Delete Site

**Summary of Representation:** Support

**Representor ID and details:** 5918 Mr I.Barlow

**Council's Response(s):**

The representation supports the deletion of a development site or part of a development site included in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

**Alternative Site Details**      **ASA05 - Land to the west of Darren Farm, Cowbridge - Residential Settlement Boundary - extend designation**

**Summary of Representation:**    **Object**

**Representor ID and details:**    **5919** Margaret Hughes

**Council's Response(s):**

The representation objects to the inclusion of an alternative site not included within the Deposit LDP. Having considered all representations, evidence and the suggested amended site boundary a Focused Change to the Deposit LDP site allocation MG2 (20) has been proposed which accepts the need for the proposed change in part. The proposed Focused Change amends location of the proposed link road and the western site boundary for the residential allocation as it is considered necessary to facilitate the provision of the required highway infrastructure. Consequential changes to the Special Landscape Area and Residential Settlement Boundary are also required as part of the Focused Change. The proposed number of dwellings remains unchanged.

**Alternative Site Details**      **ASN092 - Land East of Llangan - Gypsy and Traveller site**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5930**    G.W.Dunn

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness and that the proposed change is not considered necessary to ensure that the LDP is sound.

---

**Alternative Site Details** ASD36 - Land adjoining Cardiff Road, Barry - SINC 339 - Delete Sites of Importance for Nature Conservation 339

**Summary of Representation:** Object

**Representor ID and details:** 5936 Mr Hugh Levick-Jones

**Council's Response(s):**

The representation objects to the deletion of a site included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP strategy and policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASA55 - ABP Barry Docks - Sand and Gravel Safeguarding - reduce designation to exclude site

**Summary of Representation:** Object

**Representor ID and details:** 5936 Mr Hugh Levick-Jones

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. No change is therefore considered necessary to ensure that the Plan is sound.

---

**Alternative Site Details** ASA46 - Land at Beach Road, Sully - Green Wedge - reduce designation

**Summary of Representation:** Object

**Representor ID and details:** 5936 Mr Hugh Levick-Jones

**Council's Response(s):**

The representation objects to the inclusion of an alternative site proposal not included in the Deposit LDP. This representation therefore is considered to be consistent with and in support of the Deposit LDP Strategy and Policies. **Alternative Site Details**      **ASN070 - Hayes Road, Sully - Community Use**

**Summary of Representation:**    **Support**

**Representor ID and details:**    **5936**    Mr Hugh Levick-Jones

**Council's Response(s):**

The representation supports the inclusion of a development site or part of a development site not identified in the Deposit LDP. In preparing the Deposit LDP, the Council has collated an extensive range of supporting evidence that demonstrates the employment and housing requirement over the LDP period, and has also identified the necessary infrastructure required to support this development. Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.

Additionally, the Council has consulted with relevant statutory organisations and infrastructure providers to identify any site specific issues and infrastructure needs. It is the Council's view that the sites allocated within the Deposit LDP are consistent with the overall Plan Strategy, are free from constraints and are deliverable within the plan period to enable the LDP to meet the identified housing and employment needs of the Vale of Glamorgan up to 2026. Furthermore, the LDP contains a suite of policies and supporting text that explains how development will be managed within areas of change, and the mechanisms by which the necessary infrastructure, services and facilities will be secured. This policy framework also includes the Council's requirements mitigating potential impacts of development in relation to enhancing and protecting the natural and built environment, provision of sustainable transport, community facilities, environmental assets and the careful management of development in rural locations. Consequently, it is considered that the LDP meets the tests of soundness without the need for a different approach (such as a new settlement) or the suggested alternative site to meet the evidenced need and ensure that the LDP is sound. Therefore, the proposed change is not considered necessary.
