

1. Introduction

The Performance and Development service forms part of the Resources Directorate. The directorate has a wide range of statutory duties and its primary role is to support transformational change, strategy development, performance management, business improvement, communications and customer relations.

1.1 About our Service – Performance and Development

The Performance and Development team provides a corporate approach to policy, performance management, business and corporate improvement, consultation/ engagement, communications, partnership working and equalities. The Customer Services arm of the team provides frontline access to all Council services and focuses on delivering customer service excellence. The team strives to provide a range of services in the most cost-effective and efficient way whilst transforming the way the Council works by using our skills, resources, and technology more innovatively. We also play a leading role in the delivery of the Reshaping Services agenda.

Our broad functions are:

- Supporting the development and implementation of the Council's corporate vision (in the form of the Corporate Plan)
- Improving the quality and consistency of performance management across all Council services
- Improving internal review, business processes and the management of services to deliver transformational change across the Council
- Producing effective communications internally to staff and externally to our citizens, key partners and regulators
- Ensuring the work of the Council conforms with Equalities legislation, including Welsh Language Standards
- Improving our partnership framework and working collaboratively through the Vale of Glamorgan Council Public Services Board and other associated mechanisms
- Undertaking effective engagement and consultation activities across the Vale
- Delivering services via the Corporate Contact Centre, face to face and by electronic means that includes undertaking any assessments and client monitoring
- Learning from complaints to improve services and better understand customer expectations.
- Overseeing Corporate Complaints Policy and process.

1.2 The Purpose of Our Service Plan

This plan identifies how we will contribute towards achieving the Council's vision – **'Strong communities with a bright future'**.

Our Service Plan outlines our key priorities for the next four years and how we will manage our resources to deliver them. The plan gives an overview of our service, what we aim to achieve, why this is important, how we will achieve it, how we will monitor progress and what success will look like.

It is important that as a Council we have shared values and our service is committed to delivering its priorities within the context of the Council's core values:

- **Ambitious:** Forward thinking, embracing new styles of working and investing in our future
- **Open:** Open to different ideas and being accountable for the decisions we take

- **Together:** Working together as a team that engages with our customers and partners, respects diversity and is committed to quality service
- **Proud:** Proud of the Vale of Glamorgan: proud to service our communities and to be part of the Vale of Glamorgan Council

Our Council's priorities are contained in the Corporate Plan 2016-20 and are expressed as well-being outcomes and objectives. These have been decided upon following consultation with key stakeholders including citizens of the Vale of Glamorgan. Our well-being outcomes and objectives are:

Well-Being Outcome	An Inclusive and Safe Vale	An Environmentally Responsible and Prosperous Vale	An Aspirational and Culturally Vibrant Vale	An Active and Healthy Vale
Well-Being Objective	Reducing poverty and social exclusion	Promoting regeneration, economic growth and employment.	Raising overall standards of achievement.	Encouraging and promoting active and healthy lifestyles.
Well-Being Objective	Providing decent homes and safe communities	Promoting sustainable development and protecting our environment.	Valuing culture and diversity	Safeguarding those who are vulnerable and promoting independent living.

The well-being objectives illustrate the contribution Council services will make to achieving the Well-being Goals for Wales. The Well-being Goals have been established to ensure that all relevant bodies in Wales are working towards the same vision as part of the Well-Being of Future Generations (Wales) Act 2015. The Act is about improving the social, economic, environmental and cultural well-being of Wales. The Act is intended to make public bodies think more about the long-term, work better with people and communities and each other, look to prevent problems and take a more joined-up approach. The contribution our service will make to the Well-being Goals is highlighted throughout our Service Plan.

1.3 Developing Our Plan

Our service plan is set for one financial year and is informed by and reflects the environment within which our service operates. As well as contributing to the well-being outcomes and objectives from our Corporate Plan, our service has taken the following into consideration when drafting our plan:

- The Performance and Development's Annual Self-Assessment, which provides an overall position statement for the year based on specific issues relating to performance, customer experience, and the use of resources (workforce, financial, ICT and assets);
- Priorities identified through our self-assessment and our Corporate Improvement Action Plan
- Our budget including planned service savings and efficiencies and the implementation of the Council's Reshaping Services Change Programme
- Requirements of the new Well-being of Future Generations Act, specifically those relating to corporate planning and Public Services Boards
- Planning in readiness for the Local Government Bill
- Requirements of the Welsh Language Standards
- Our contribution to the integrating social care and health agenda across Cardiff and the Vale, including the development of services to increase income generation
- Our Customer Relations Strategy and how we respond to changes in customer behaviour and expectations
- Requirements of "Delivering Digital inclusion: A strategic Framework for Wales"

1.4 How We Work - Sustainable Development

The Well-being of Future Generations (Wales) Act puts in place a 'sustainable development principle' which tells organisations how to go about meeting their duty under the Act:

"You must act in a manner which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs, by taking account of the sustainable development principle".

The sustainable development principle means considering how actions are taken to support continuous improvement by:

- Looking to the **long term** – for us this means planning for the future and taking a strategic approach to ensure services are sustainable and that we understand the future need and demand for services.
- Taking an **integrated** approach – for us this means thinking about the needs of our customers and working with our partners.
- **Involving** the population in decisions – for us this means engaging with our residents and customers, including the business community and ensuring that we are listening to a wide range of views to inform our thinking.
- Working in a **collaborative** way – for us this means recognising we can achieve more and deliver better services by working as part of a team, for example by working with the Third Sector, Town and Community Councils and neighbouring authorities.
- Understanding the root causes of issues and **preventing** them – for us this means being proactive in our thinking and understanding the need to tackle problems at source for example by undertaking needs assessments to inform our priorities.

In response our Corporate Plan 2016-20 has reflected on the ways of working ensuring that it is consistent with our approach to planning for the future. These considerations are also reflected in the actions we will take as a service to deliver the Council's priorities.

2. Our Corporate Plan Priorities for 2017-21

2.1 Corporate Plan Priorities

Over the next four years the Performance & Development Service will take the actions outlined below to contribute to the Corporate Well-being Outcomes and Objectives.

Appendix A contains the detailed plan which outlines the actions we will undertake in the coming year to deliver our Year 2 (2017/18) priorities for the Corporate Plan.

Appendix B outlines the 'enabling' actions we will undertake to maximise the use of our resources to enable us to deliver our priorities for the same year.

3.2. Managing Our Resources to Deliver Our Priorities

The following sets out how we will manage our resources to achieve the actions in our Service Plan and support our service.

Integrated Planning

We are committed to maximising the use of our resources so that we can deliver sustainable and cost effective services that best meet people's needs. For 2017-18, we have identified a series of 'enabling actions' that will support us to deliver our priorities for Year 2 of the Corporate Plan and contribute towards the Corporate Plan Well-being Outcomes.

This section provides a summary of these actions, outlining how we will use our resources (including our workforce, ICT, finance, assets and customer insight) and manage identified risks in order to deliver planned improvement.

Workforce Development

Key Service Statistics 2015/16						
Average headcount 2015/16	FTE 2015/16	Average days sick		Average days sickness per FTE	Turnover (no of leavers)	#itsaboutme completion rate (%)
		Long term	Short term			
70	64.60	6.15	3.21	9.36	10 (14.29%)	100

**These figures provide only an indicative reflection of the workforce due to recent changes made to the Council's structures.*

At December 2016, 100% of #itsaboutme appraisals had been completed. The only exemptions were due to long term sickness and maternity leave.

Performance has also improved in relation to overall sickness absence levels with the service reporting 6.86 days lost as at quarter 3 2016/17 which is an improvement on the figure of 8.39 days lost reported for quarter 3 during 2015/16. However, our performance still exceeds the directorate target of for 2016/17 of 4.35 days. Within the service long term sickness accounts for the majority of absence, as during quarter 3 2016/17 4.21 days were lost due to long term sickness compared to 2.65 days lost due to short term sickness. In line with corporate direction we will continue to review and strengthen the performance management and support arrangements in relation to sickness absence within the service.

At quarter 3 2016/17, staff turnover has decreased to 9.59% compared to 12.80% during the same period in 2015/16. Although turnover is above that of the whole Council at 8.13% we continue to focus our efforts on effective retention and succession planning mechanisms where appropriate. Within the service, voluntary leavers accounted for 6.85% of leavers with the remaining 2.74% being involuntary. Across the division turnover has remained relatively low as the majority of leavers tend to be from the Customer Relations Team, which is usually due to staff taking up opportunities elsewhere within the Council.

It is important for that we continue to maintain and develop the workforce to meet future service needs, both in terms of the numbers employed and the skills and competencies required of those employees. It remains a priority for the Performance and Development Service to continue to support staff development and succession planning despite the pressures of budget and staffing reductions.

The key issues impacting on the service are:

- The Performance and Development workforce has remained relatively static, with fairly low levels of turnover. Through continuing to focus our efforts on succession planning and encouraging the cross-skilling across teams we can continue to ensure there is resilience within the workforce.
- The age profile of staff is not a cause of concern for the service, as there is currently a good spread of age ranges across the division.
- Although we have built effective resilience within our teams, career progression remains relatively flat and that could impact on retention levels in the future. To mitigate this, the service encourages staff to get involved in continuous self-development opportunities through a variety of corporate initiatives, such as the Leadership Café to further enhance their skill set.
- Managing sickness absence rates continues to be an area of development across the division, and more so within Customer Relations team.

- There are no significant issues with recruitment to posts within the division, but we recognise the need to recruit more Welsh speakers.
- There continues to be the need to focus on developing skillsets within the division that enables us to effectively support the change management process of the Reshaping Services agenda.

Therefore, our key workforce development priorities for the coming year are:

- Building resilience in the service by focussing on up-skilling and developing flexibility in skill sets across all teams within service and encouraging self-development.
- Ensuring appropriate resourcing for Reshaping Services projects in order to achieve transformational change.
- Putting in place succession planning to address issues associated with reliance on small numbers of key staff through continuing to support trainee opportunities to ensure there is a pool of appropriately qualified and skilled staffed over the coming years.
- Working to develop a new culture that better supports the wider change programme (Reshaping Services agenda) and enables our staff to develop a renewed sense of corporate identity.
- Transferring expertise and skills in certain corporate areas such as consultation and engagement across the Council to build service capacity.
- Strengthening and extending shared working between C1V and the Health Board to provide a more integrated service for the public and better resilience.
- Continuing to effectively manage sickness absence in line with corporate policy.

ICT

In line with corporate direction we continue to use ICT to work smarter and more flexibly. Our significant projects for the coming year are:

- Continue to utilise home/agile working across the service, contributing to the Space Project
- Focusing on promoting sustainable ICT usage by using technology that uses less space and power
- Assess the telephony system in C1V and procure a replacement to ensure PSN and PCI compliance and a consistent customer experience of accessing services.
- Specify and procure a new performance management system, to inform performance processes and provide timely insight into the Council's performance to inform decision making.
- Contribute to development of the Council's corporate Digital Strategy.

Finance

The estimated base budget for our service area for 2017/18 is £2,912,000 and the planned improvement activities for 2017/18 focus on delivering the in-year savings identified for the service. However, over the following three years, we are also required to deliver further savings which are outlined below.

Scheme	2017/18 (£000)	2018/19 (£000)	Total (£000)
Reduction in Customer Service Representatives headcount as a result of more people using web and reduction in business hours	178	0	178
<i>Review of Other Corporate Services</i>	800	600	1,400
Total	978	600	1,578

Italicised figures indicate savings targets that have been set for the whole directorate in which this service area is based.

Assets

In line with the Corporate Strategy, we are focussing on ensuring the suitability and sufficiency of our assets to meet service and corporate objectives by targeting any underperforming assets, reducing the amount of accommodation used to deliver services, and identifying opportunities to provide multiple service delivery from an asset (co-location). Our key areas of focus for 2017/18 are:

- Delivery of phase 2 of the Space Project (Provincial House and Civic Offices), which will have a significant impact on staff movement over the coming year, with relocation of staff and reduction in the amount of accommodation used to deliver services.
- Application of new Community Asset Transfer guidance in conjunction with Estate colleagues to support various Reshaping Services projects including Town and Community Councils and the voluntary sector and income generation.

Procurement

In line with corporate guidance we are committed to promoting effective procurement using innovative, sustainable and modern practices to deliver value for money and contribute to the achievement of corporate well-being outcomes. Our significant projects for the coming year are:

- Procure a new performance system, to inform performance processes and provide timely insight into the Council's performance to inform decision making.
- Procure a replacement telephony system for the C1V.
- Development of a potential procurement project for tranche 3 of the Reshaping Services programme.

Consultation and Engagement

We proactively engage with our key stakeholders with a particular focus on our key partners, residents and internal client departments. Highlighted below are our planned activities for the coming year.

Consultation Activity Planned 2017/18	Brief Description of the Purpose of the Consultation
Draft Public Engagement Framework Consultation April/May 2017	Gather feedback on draft engagement framework (updated) in order to finalise and implement the framework and action plan.
Community Facilities Monies – Rhoose – Spring/Summer 2017	Project to determine local priorities for spending community facilities section 106 monies in Rhoose.
Budget Consultation November/ December 2017	This could be a standalone exercise or a combination of engagement exercises which will inform the budget proposals for 2018/19.
Let's Talk About Well-being	Further engagement on the PSB's Well-being assessment as the draft document is approved and progressed. Ongoing.
North Penarth Open Space Improvement Scheme	Further engagement to agree designs for upgrade of skate facilities at Cogan Recreation Ground. Date unknown.

Collaboration and Partnerships

We continue to explore and promote opportunities for working collaboratively locally and regionally in order to deliver improved services for customers and deliver savings. Highlighted below are our planned activities for the coming year.

Activity Planned 2017/18	Brief Description of the Purpose and intended outcomes from the Partnership/ Collaborative Activity	Governance Arrangements and Details of Partners
Work with the new Public Services Board (PSB) to develop and agree the PSB's wellbeing objectives set out in the Wellbeing Plan.	Establish and agree with the PSB a set of wellbeing objectives that are set out in the PSB's Wellbeing Plan as required by the Well-being of Future Generations Act.	The four statutory partners are the Fire Service, Council, Cardiff and Vale UHB and Natural Resources Wales
Implementation and monitoring of the Community Strategy Delivery Plan 2014-18	Delivery of the commitments within the delivery plan regarding preventing poverty, helping people into work and mitigating poverty.	Delivered through three PSB sub-groups: Poverty Alignment Group – Phil Evans is the SRO Improving Opportunities Board – Marcus Goldsworthy and Kay Martin (CAVC) are SROs Financial Inclusion Group - Hayley Selway is the SRO
Continue to develop joint services between Cardiff and Vale UHB Communications Hub and Contact One Vale (C1V).	Supporting the creation and delivery of Health and Social Care services to improve access to services, deliver improved outcomes for customers and reduce costs.	Governance is achieved through Integrated Health and Social Care Board as well as established service and project boards within the Council and Health Board.
Continue to focus on working with Joint Town and Community Councils and voluntary sector to deliver Reshaping projects.	Identify and progress opportunities to deliver Council services (including using its assets) differently.	Involves all Vale of Glamorgan Town and Community Councils and voluntary sector organisations.
Consider the implications and opportunities associated with the Local Government Reform agenda.	Develop an approach and potential proposals to further regional working in line with the developing agenda.	To be confirmed following the consultation on the white paper.

Scoring service risks	
Likelihood score	Refers to how likely it is that the risk will occur, that is, the probability of the risk happening. The scoring ranges between 1 and 4, with 1 being very unlikely, 2 - possible, 3 - probable and 4 being almost certain to happen or has already happened.
Impact score	Refers to what the impact would be if the risk occurred. Again the scoring ranges between 1 and 4, with 1 being low, 2 - medium, 3 - high and 4 being catastrophic. Impact would include things such as financial costs, public wellbeing, environmental/ social impact, damage to reputation, health and safety etc.
