Scoping for Equality Impact

The Council is required to have due regard to the need to:

- eliminate unlawful discrimination, harassment and victimisation and other conduct that is prohibited by the Act
- advance equality of opportunity between people who share a relevant protected characteristic and those who do not
- foster good relations between people who share a protected characteristic and those who do not.

The Act explains that having due regard for advancing equality involves:

- removing or minimising disadvantages experienced by people due to their protected characteristics
- taking steps to meet the needs of people from protected groups where these are different from the needs of other people
- encouraging people with protected characteristics to participate in public life or in other activities where their participation is disproportionately low.

The protected characteristics are:

- Age
- Disability
- Gender reassignment
- Pregnancy and maternity
- Race
- Religion of belief
- Sex
- Sexual orientation

The duty also covers marriage and civil partnership¹ but only with regard to eliminating discrimination. And in Wales we also have to treat Welsh and English on an equal basis as well as promoting and facilitating the use of the Welsh language.
