

# Fferm Goch

## Proposed Play area Improvements

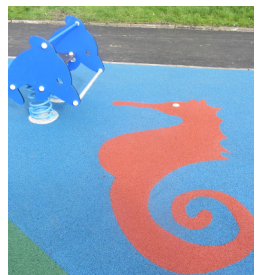

Existing Play equipment includes swings and a roundabout only

Aerial photograph

What kind of play equipment would you like in this area?

### Notes

The Vale of Glamorgan Council has secured funding through a Section 106 agreement with the developer of the Former Garden Centre at Fferm Goch, Llangan to improve facilities at the open space at Fferm Goch where there is limited play equipment at the moment.

### Issues to consider:

- Is this the right location for the play area?
- What type of equipment is required - timber or steel? Large multi unit or smaller items?
- What age group should the equipment be aimed at?
- Is there a problem with dog fouling and should the play area be fenced off with railings?
- Is there a specific theme or design required?
- How many new seats and bins are required? Should a picnic table be included perhaps?
- Should some tree and spring bulb Planting be included to improve the setting of the play area?
- Art elements could be introduced into the safety surfacing or another element of the scheme; do you have any ideas? Could something be done relating to the fact that the site is a Garden village that was once part of the Welsh Land Settlement movement?

Are there any other improvements that you would like to see here?

The Council invite the views and opinions of local residents to help develop enhancements for these areas which will make a significant and positive impact in the area.
