

Wordsworth Park

Proposed Play and environmental Improvements

Create informal wildlife area at the northern end of the park with spring bulbs, wildflowers and small groups of native trees

Upgrade the goal area with 1 or 2 goals with basketball nets & reinforced carpet surfacing. Consider moving goal area to increase area for games

Open up views of park by selectively thinning vegetation on the boundary

Youth shelter

New access gate in railings with new path

Plant ornamental trees at the southern end of the park

Existing play area

Existing play area is in poor condition with limited equipment. Opportunity to upgrade the play area with new equipment, safety surfacing, site furniture and improved access

Upgrade the entrance to including new gates, surfacing and signs. Vegetation to be cut back to allow improved views of the park and paths to be created to the play area.

Notes

The Vale of Glamorgan Council has secured funding of £75,000 to improve Wordsworth Park.

There are many opportunities here to upgrade the park. Subject to funding these include:

- Upgrade play area with new equipment, safety surfacing, access improvements, bins, picnic tables and seating.
- Move the existing goalposts and reinstate ground. Investigate potential for installing an additional set of goalposts.
- Create wildflower areas and enhance habitats to benefit wildlife, particularly at the northern end of the park
- Upgrade existing entrance to the park from Wordsworth Avenue with new gates and paths and opening up the tree canopy to allow more light and views of the park.

Are there any other improvements that you would like to see in this park?
