

## Community Care and Health

### Adult Placement Service

#### What do we do?

We arrange support and/or supported accommodation for vulnerable adults who are unable to live independently and who want to live in the community and in a family environment.

A team of specially recruited Host/Carer families (who can be single people, couples or families) offer Respite, Supported Holidays, Long-term supported accommodation and individually tailored support sessions.

#### Who is the service for?

Vulnerable people over the age of 18.

Referrals are accepted from Community Support Teams following an assessment of individual needs.

#### How can you find out more?

For further information about becoming a Host/Carer Family contact:
