

Traffic Signals in the Vale of Glamorgan

and how they can help you

SUMMER 2006

SEFYDLIAD
DEILLION CAERDYDD

CARDIFF INSTITUTE
FOR THE BLIND

Introduction

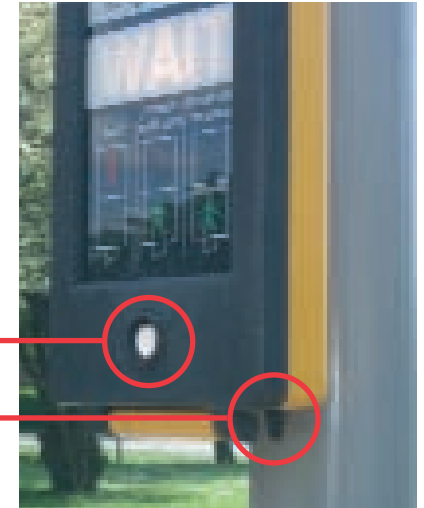

Welcome to this booklet, which gives blind and partially sighted people information about traffic signals in the Vale of Glamorgan. The Welsh language version is on the other side of this booklet.

This booklet has been produced by the Council's Highway Maintenance Division in partnership with the Cardiff Institute for the Blind. It tells you where the traffic signals are, alphabetically, by area. It also tells you which ones have bleeping sound signals and rotating touch cones.

The rotating touch cone is a small cone which sticks out underneath the wait box. First, press the push button in the middle of the Wait box. Then you should feel for the cone. It will start to turn when the green man light comes on and there may also be a bleeping sound signal. It is then safe to cross the road. Be careful. Listen for all traffic noise. Also, be aware that emergency vehicles may drive through red lights.

The push button

The rotating touch cone

Town	Site	Bleeping Sound Signal	Rotating Touch Cone
Barry	Barry Road - Dyfan Road	No	Yes
Barry	Broad Street - Powell Dyffryn Way	No	Yes
