THE VALE OF GLAMORGAN COUNCIL

PLANNING COMMITTEE : **25 NOVEMBER 2020**

REPORT OF THE HEAD OF REGENERATION AND PLANNING

4. APPEALS

(a) Planning Appeals Received

LPA Reference No: 2020/00584/FUL
Appeal Method: Written Representations
Appeal Reference No: 20/3260491
Appellant: Mr. & Mrs. K. Armitage
Location: 15, Glastonbury Road, Sully
Proposal: Two storey side extension and single storey rear extension
Start Date: 7 October 2020

(b) Enforcement Appeals Received

None

(c) Planning Appeal Decisions

LPA Reference No: 2020/00064/FUL
Appeal Method: Written Representations
Appeal Reference No: 20/3253163
Appellant: Mr Kasif Ahmed
Location: Pen Y Garth Mansion, 2, Stanwell Road, Penarth
Proposal: Erection of enclosure above existing car parking spaces
Decision: Appeal Dismissed
Date: 13 October 2020
Inspector: H C Davies
Council Determination: Delegated

Summary

The main issue was considered to be the effect of the development on the character and appearance of the area, having regard to its location in the Penarth Conservation Area (CA).

The Inspector identified that the appeal site was a residential property which occupied a highly prominent space within the town centre and the CA. The proposal would however be seen in the context of the existing residential building which was not listed, but was recognised as making a positive contribution to the special architectural or historic interest of the CA in the Penarth Conservation Area Appraisal and Management Plan SPG 2011 (CAAM SPG).

The development would be a lightweight contemporary structure that would occupy an open part of the forecourt. Whilst it would not be unacceptably large in scale, given the use of steel for the frame along with aluminium glazing bars and translucent polycarbonate sheets for the roof, the Inspector identified that it would have an overtly utilitarian appearance at odds with its immediate residential setting. It would relate poorly to the predominantly red brick and slate exteriors of Pen y Garth Mansion and the traditional character of properties in Stanwell Road. Furthermore, the canopy would be sited up against mature trees and its appearance would diminish the amenity value of the trees and exacerbate the adverse effects identified.

Although the Inspector considered that the appeal site did not have an entirely undeveloped appearance, it was noted that the front boundary consisted of a low wall with railings and the structure would therefore be readily perceptible, particularly from Stanwell Road, an important thoroughfare within the CA. Due to its proximity to the footpath, the proposed canopy would be prominent in the street scene and appear as a discordant feature that would cause visual harm to the immediate area, with consequent adverse effects on the wider CA.

It was therefore concluded that the canopy proposal would be harmful to the character and appearance of the area, contrary to Policies MD2 and MD5 of the LDP and would also fail to preserve or enhance the character or appearance of the Penarth Conservation Area, contrary to Policies SP10 and MD8 and the CAMM SPG.

Other Matter

The Inspector noted that the purpose of the canopy was to protect parked cars from falling sap and debris from adjacent trees. It was not however considered that the highway and parking benefits put forward in support of the scheme were sufficient to outweigh the harm arising from its design and siting and the desirability of preserving or enhancing the character or appearance of the CA and the appeal was therefore dismissed.

LPA Reference No:	2020/00398/ADV
Appeal Method:	Written Representations
Appeal Reference No:	20/3257942
Appellant:	Elonex
Location:	New Broad Street Motors, Ty Verlon Industrial Estate, Cardiff Road, Barry
Proposal:	6.3m (w) x 3.15m (h) single digital 48 sign

Decision: Appeal Dismissed
Date: 19 October 2020
Inspector: R Jenkins
Council Determination: Delegated

Summary

The main issue was considered to be the effect of the proposed advertisement on visual amenity.

The Inspector identified that the appeal site was located along the A4055 Cardiff Road in Barry and the proposal sought express consent to erect a single 48 sheet digital advertising display that would measure approximately 6.3m by 3.15m, be internally illuminated and would be set approximately 2m above ground level.

Whilst the Inspector noted the presence of the commercial uses within the area, he considered that due to its scale, siting, form, function and overall design, the proposed advertisement would represent an overly prominent and visually intrusive advert that would be materially harmful to the character and appearance of the area. The illuminated advertisement would be larger than the existing signage within the immediate vicinity and sited on a prominent corner, forward of existing buildings and abutting the highway edge.

The Inspector considered the presence of the other advertisements located within the immediate and wider areas referred to within the appellant's evidence, but concluded that these consents generally related to replacement signage and were therefore materially different to the appeal proposal. He also considered that some of the examples provided also reinforced his overall concerns and did not justify the visual harm identified. Whilst noting the appellant's contention that a precedent had been set by previous schemes, the Inspector confirmed that he had considered the appeal on the basis of the well-established principle, that each case should be treated on its own particular merits.

It was therefore concluded that the proposed advertisement would cause material harm in respect of visual amenity, which could not be mitigated by the use of conditions and was not outweighed by economic or other positive benefits associated with the proposal. The Inspector therefore determined that the advertisement would conflict with Policy MD2 of the LDP and the advice set out in TAN 7: *Outdoor Advertisement Control* (1996) and that the appeal should be dismissed.

(d) Enforcement Appeal Decisions

None
