To whom this may concern,

I am emailing regarding the planning application by L anG for the development of model farm.

As stated many times throughout this application we do not have the infrastructure for such a development.

If there is any obstruction on the Llantwit Barry road leading to Weycock cross the area is, as seen many times, total gridlock.

Secondly the Welsh government would be in breach of its own environmental policies and the Wellbeing of Future Generations Axt why don't L&G develop on a brownfield site such as Llandow

Thank you

Peter Davies
