

Dear sir/Madam, I am writing to object to the change
Of use of land from farm land to country park. Climate change is here and has brought
floods which we have
Seen in the last few days, a lot of farmland has been effected this land will not be to use
for some time, so to
Take away any farmland to me is not right. Also climate
Change is happening word wide and where people
Grow crops due to climate change these crops have failed
Making more people in this world without food.
The government is now going to charge farmers inheritance tax, the government says
that only about
500 farms a year, farmers are land rich but cash poor.
So a lot of farmers will have to sell land, so we will end
Up with less farms, less food so the prices will rise
And even more people will go hungry.

Miriam Lorraine Braddon
