Introduction

The Vale of Glamorgan Deposit Local Development Plan (LDP) was made available for public consultation from the 8th November 2013 until 5pm on the 20th December 2013.

In accordance with the Town and Country Planning (LDP) (Wales) Regulations 2005, the Council must now advertise any site allocation representations (Alternative Sites) that were suggested in the earlier Deposit LDP consultation as soon as reasonably practicable.

It is important to stress that the Alternative Sites are sites proposed by third parties that submitted representations during consultation on the Deposit LDP and are NOT Council proposed sites.

The six week Alternative Site public consultation will commence on Thursday 20th March 2014 and close on Thursday 1st May.

Representations in respect of the Alternative Sites should be received before the close of consultation at the following address:

LDP Team
Development Services
Vale of Glamorgan Council
Dock Office
Barry Docks
Barry
CF63 4RT

www.valeofglamorgan.gov.uk/ldp

LDP@valeofglamorgan.gov.uk

Representations received after this deadline will not be accepted.

It should also be noted that all representations made will be available for the public to view.

The process is necessary so that the Inspector can be confident that everyone affected has had the opportunity to comment before he/she makes a change to the Plan.

The purpose of the Alternative Sites Consultation

The purpose of this consultation is: -

- To enable the general public and interested parties to make representations to a site submitted as a representation to the Deposit LDP.
- To help assess whether any new sites should be included in the Local Development Plan as a result of representations made to the Deposit LDP.
- To enable the Inspector to be confident that everyone affected has had the opportunity to comment before he/she makes any recommended change to the LDP.
- To provide an opportunity for the Council to consider representations made to the Plan and the suggested Alternative Sites.

What is an Alternative Site?

Alternative sites are those sites proposed by representors during the Deposit Plan Consultation and are not Council proposed sites.

The Alternative Sites Register outlines the site allocation representations that were received from the public and other organisations during the Deposit Plan Consultation, which sought to either: -

- A. Add a new site for a specified land use to the Deposit LDP;
- B. Alter the boundaries or amend a site allocated in the Deposit LDP;
- C. Delete a site allocated in the Deposit LDP; or
- D. Amend the settlement boundary of the Deposit LDP.

Consequential Amendments to the LDP

Where a site allocation representation is seeking the allocation of a new site for a particular use or development or is seeking to amend the boundaries of a site allocated in the Plan, there may be consequential amendments required in other areas of the Plan.

For example an alternative site may have been submitted which proposes a new residential allocation which is outside the residential settlement boundary and is within a special landscape area proposed in the Deposit LDP.

Were the Inspector is of the opinion that a new site should be allocated, in addition to changing the allocation policy in the Plan, there would be consequential amendments required to the Settlement Boundary and Special Landscape Area Policies. These consequential changes **have not** been specifically included in the Register unless a representor has identified and submitted these individual consequential changes.

In order to identify the potential consequential amendments that may arise following the consideration of the site allocation representations, it is advisable to check the Deposit LDP and the Proposals Map.

Mapping and Identification of Alternative Sites

The Council has sought to identify the Alternative Sites, contained in the Register, on the basis of the information submitted by those individuals and organisations that have made representations to the Deposit LDP. In a limited number of cases, the suggested site changes to the LDP have not been made clear by the representor. The Council has made every reasonable effort to accurately identify the site; however where this has not been possible sites have been identified based on the limited information provided. A list of site allocation representations which suggest potential alternative sites but where the description is vague or where no site maps have been provided is shown at the end of the Alternative Sites Register.

The Representations Register

Prior to making a representation during the Alternative Sites Consultation, you may wish to view individual representations that were submitted in relation to specific sites. The **Representations Register** contains details of all the representations that were received during the consultation on the Deposit Draft Local Development Plan.

Each individual who made a representation during the consultation on the Deposit Draft Local Development Plan has been assigned a unique Representer Number. At the front of the Alternative Site Register there is a schedule, which identifies each Alternative Site and the Representer Number of those who made representations to respective sites.

To identify the representations relating to individual Alternative Sites:

- find the Alternative Site you are interested in the Alternative Site/Representer Index below
- identify the Representer Number(s) of those who made representations in relation to the Alternative Site
- locate the Representer Number(s) in the Representations Register and review the relevant representation.

What Happens Next?

All representations received during the consultation period will be considered at an Examination in Public held by an independent Planning Inspector, who will decide on any amendments that should be made to the Deposit Plan.

It is important to note that although the Council will inform the Inspector of its views on the issues raised through this consultation, only the Inspector is able to make changes to the Plan.

Further Advice

If you require any further advice or assistance in respect this or other LDP documents or wish to be placed on the Council's consultation database, please contact the Local Development Plan Team at:
