What is a Sense of Play?

The Sense of Play project was set up and designed by professionals in the Vale of Glamorgan for pre school children with special or additional needs.

The sessions will run for a period of six weeks in the family home and will meet the individual needs of the child and family.

Sessions

- An hour spent with you and your child where you can experience new ideas and play activities together.
- Expanding and building positive relationships between parent and child through play.
- Sessions help parents to recognise the different stages of their child's development.
- Offer ideas, shared knowledge and information regarding children's development and play.

Having your say

We like to hear from parents/carers regarding the service that we provide. If you have any comments or concerns you would like us to know about please contact us. You can:

- Discuss this with the member of staff concerned on 01446 709269.

Equal Opportunities

We respect people of any race, religion, culture, age, sexuality, gender or ability.

Any person receiving our support will be treated equally and not be discriminated against.

Child Protection

We believe that all children have rights and particularly the right to be kept safe from neglect, emotional, physical and sexual abuse. We are committed to working with and supporting the whole family. However, the child's interests **MUST** come first.

Should a member of the team have any concerns about a child or young person, we have a duty to contact Children and Young People's Services and follow Vale of Glamorgan guidance and policies.

Concerns about children are written in a locked file and held at the project. You, as parents/carers, have a right to see this file.

Other Support

There are a range of other support services available which your sense of play trainer can give you information about.
