

Equality Impact Assessment

The Council has a duty to consider the needs and requirements of the community who are affected by our policies and procedures. This checklist has been developed to ensure that relevant groups are neither directly or indirectly discriminated against in the planning and delivery of Council services in compliance with legislation and good practice.

An impact assessment is a systematic way of finding out the impact of a policy or proposed policy on different groups. Officers are required to identify the likely outcomes/impacts that may result from introducing a policy/procedure.

Examples of groups that can be disadvantaged if their specific needs are not considered are women/parents/carers, people from different ethnic minorities, people with disabilities/impairments and Welsh speakers.

How should you assess impact?

1. Identifying the objectives of your policy and how it will work
2. Examining the data and research available
3. Assessing the likely impact on equality
4. Consulting people who are likely to be affected by your policy
5. Making arrangements to monitor and review your policy and its impact
6. Publishing the results of the assessment

It is the responsibility of the Head of Service or Operational Manager responsible for each policy to ensure that an assessment has been completed for the policy identified.

The form should be completed electronically and returned to the Equalities Section :
