

This is the proposed vehicular route to and from the site for pupils & school users including ISG during the period of off site street work whilst School Lane is closed

Legend;

- Primary Route in / out of site;
- Off Site Works Under Separate Sec 50 notices;
- Sec 50 OOH Only 18:30-11:30
- Access/Egress to Site Works Phase 1 & Decant;
- Access/Egress to Site Works Phase 2 & 3;
- Large Cones to visually alert Drivers to adjacent walls /assets where highway is restricted
- Walk-All Large deliveries ensuring two way communications is provided utilising stop & go signs.

Title; 19.8.22 Proposed Access Routes Post VOG Highways On site Review

Consider the following easy wins during the course of the work locally;

1. Place large 'robust' cones adjacent to walls and other assets to highlight 'pinch-points'
2. Trim back verges to provide wider passing access on adopted sides of boundaries.
3. Trim bushes and trees to improve visibility for stakeholders
4. All cross-overs Provide 125mm x 150mm straight kerbs (no radius please) with dropper/transition kerbs to LA specification
5. Ensure any sign or asset is replaced prior to starting work i.e. School sign, streetlight. Lamp post number etc.
