MENTAL HEALTH AWARENESS

COVID-19 restrictions have impacted our usual engagement with the whole project workforce, on important issues such as Mental Health. To overcome these challenges, Bouygues UK collaborated with labour agency partner, Sphere Solutions, to create a video about Mental Health Awareness in Construction.

The Pencoedre High School site team and subcontractors watched the video whilst waiting for their COVID-19 test result on site.

It proved to be an effective way of engaging with our supply chain, to raise awareness of mental health and promote positive mental wellbeing.

I was very happy to work with Bouygues UK on this great initiative. Raising awareness around mental health is and always will be, incredibly important, especially in the construction industry.
