Clean Growth Innovation Network

Looking to develop your innovation knowledge & skills and develop clean growth plans? Interested in enhancing tender capabilities for public service contracts in Wales?

The Clean Growth Innovation Network (CGIN) programme will support businesses and third sector organisations to develop innovation plans, within a network of like-minded people from across the Vale of Glamorgan. Participating organisations will develop clean growth plans that could be eligible for Welsh Government innovation funding.

We're bringing businesses together from across the Vale of Glamorgan to collaboratively develop their circular economy understanding and innovation plans to support clean growth and contribute to Welsh Government's 'Net Zero Wales' ambitions.
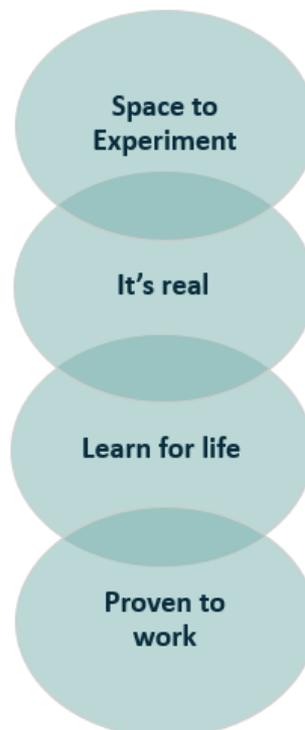

The 6-month programme will include

- Monthly workshops to develop innovation skills and build strong networks to support innovation plan development.
- R&D support from WRAP Cymru and University staff.
- 1 to 1 mentoring support.

Outcomes include:

- Enhanced innovation knowledge & skills
- Circular Economy knowledge development
- Clean Growth Plan/net Zero plan
- Innovation Plan
- Innovation Network membership

You'll join people from a variety of organisations and participate in a programme of interactive, output focused workshops. You will learn innovation methods and tools that enhance can productivity, increase customers satisfaction and deliver Circular Economy benefits. You'll be supported to develop innovation plans that can be implemented and signposted to innovation funding. The programme is designed for people who can influence service and product development.

Space to Experiment
No classrooms, You learn by doing and experimenting with others in a safe environment

It's real
The focus is on real challenges you face; helping you to work on real solutions you can apply to work the next day.

Learn for life
You will create a community of leaders, so that even when the programme ends, the learning never stops.

Proven to work
We've done this before in other programmes, developing challenging and supporting leaders' knowledge and skills.
