Executive Summary:

- The Council organises and supports an annual and diverse programme of events across the Vale of Glamorgan. These events are important in boosting the local economy and increasing the tourism offer within the Vale of Glamorgan.
- 2018 was a very successful year for Council led events in the Vale of Glamorgan with attendance and recognition of these events increasing year on year. Last year, the Council supported a number of new and established events, delivered by external groups in the Vale, with funding, advice and/or the loan of event equipment.
- The report assesses some key ideas that are being considered for 2019, which includes delivering more sustainable external and Council events through income generation and sponsorship plus new events being brought to the Vale and other potential opportunities that may exist but which are not yet confirmed.
- In addition to the main report, the appendix details the proposed programme of events and sources of funding for the financial year 2019 – 2020 by season.

Recommendations

1. That Cabinet considers and approves the proposed events and associated costs for the financial year 2019 - 2020
2. That the Head of Regeneration and Planning be granted delegated powers in consultation with the Cabinet Member for Regeneration and Planning, to award uncommitted funding from the Events Grant Budget, to appropriate new, innovative events which support the local economy.

Reasons for Recommendations

1. In order to approve expenditure for the events programme
2. To support innovative events and economic development within the Vale of Glamorgan.

1. Background

- 1.1 Each year the Council organises and supports a diverse programme of events across the Vale of Glamorgan. These events are important in boosting the local economy and increasing the tourism offer within the Vale of Glamorgan, while also improving the quality of life for residents. The events extend the season, boost the night time economy and provide links between the town centres and local attractions such as Barry Island and Penarth Esplanade.
- 1.2 2018 was a very successful year for Council led events in the Vale of Glamorgan. Attendance and recognition of these events has increased year on year and many are becoming a key part of the South Wales annual event Calendar. The Isle of

Fire and Beats, Eats & Treats in particular had their highest ever attendance figures.

- 1.3** Council events also attracted sponsorship support for the first time last year, both the Barry Transport Festival and the Barry Island Weekenders received funding. In 2019 the Council will look to increase sponsorship and income generation at events.
- 1.4** Last year the Council supported a number of events, delivered by external groups in the Vale, with funding, advice and/or the loan of event equipment. These included the Barry Island Transport Festival, GlastonBarry, Gwyl Fach Y Fro, The Vale of Glamorgan Agricultural Show, The Distinguished Gentleman's Ride, Pumpkins in the Park, the Rotary Barry Island Firework Fiesta and the Cowbridge Reindeer Parade.

2. Key Issues for Consideration

- 2.1** A proposed events programme and sources of funding for 2019 - 2020 is attached in Appendix A. Events are set out by season.
- 2.2** In addition to the Appendix, this report draws attention to some key events / ideas that are currently being considered for 2019 and other potential opportunities that may exist but which are not yet confirmed.
- 2.3** During the coming year the emphasis for both Council led and external events will be to deliver more sustainable events via income generation from on-site concessions and from sponsorship opportunities. This should help to reduce the demand on the Council's events budget and encourage individual event sustainability.
- 2.4** The Council will engage with external event organisers and stakeholders to deliver more long term events via sponsorship, income generation and offer partnership arrangements where appropriate.
- 2.5** The popular Barry Island Weekenders Summer Programme returned for a sixth year in 2018. The programme ran for six weekends during the school summer holidays and included 2 evening events, the Isle of Fire and the Cinema by the Sea. The Weekender programme is significantly growing in attendance year on year and last year the programme attracted over 55,000 visitors to the Island, both extending the night time economy and encouraging visitors to stay longer.
- 2.6** The Tourism and Events Team carried out online event customer satisfaction surveys following each event. Survey participation was high and the results showed that over 45% of visitors to the events came from outside the Vale (Cardiff, the Valleys, Bristol, Staffordshire and Hampshire) and 83% of visitors

said that attending the Weekender Event was their main reason for visiting Barry Island.

- 2.7** For 2019 it is suggested that the Barry Island Weekenders extend its season (from the usual 6 weeks of school holidays) to run from the beginning of June to the end of August. The proposed new programme would look to remove the low impact events from the schedule and focus on the main large scale Barry Island events such as the Barry Transport Festival, Beats Eats and Treats, Gwyl Fach Y Fro, Isle of Fire, Barry Island 10km and Cinema by the Sea. The name of Beats East and Treats is currently under review to ensure it better reflects its role as to a food based event to aid with marketing.
- 2.8** It is considered that this should increase the Weekender event season and by concentrating on the large scale events the programme would be more attractive to potential concessions and sponsors. Officers are looking at rental of pitches for suitable organisations / concessions events such as Beats, Eats and Treats, the Isle of Fire and the Cinema by the Sea. This will provide income and sustainability for the events.
- 2.9** In addition, grouping all the leading events within the successful Barry Island Weekender Brand would provide value for money in terms of promotion and marketing of the summer programme.
- 2.10** Barry Island is also developing as an event venue. In 2018 the Island hosted 2 new events (run by external providers) - the Barry Island Triathlon and The Barry Island 10km. Both events were very successful with a high number of participants and both will return in 2019, with the view of becoming annual events.
- 2.11** In 2018, the Council was successful in securing sponsorship for the Barry Transport Festival and the Barry Island Weekender programme. Officers will continue to look at sponsorship for events across the Vale in 2019.
- 2.12** In April 2016, the Council introduced an annual membership fee of £50 to join the Vale Events Network (from which events organisers across the Vale can loan equipment such as gazebos, tables, radios, PA for free) This fee was previously agreed by Cabinet following a report in 2013. So far the take up of membership has been good and will help to sustain the Network and repair / replace damaged equipment.
- 2.13** For Christmas 2018, the Council trialled a new Christmas Weekender in Barry Town Centre featuring the successful Christmas Market (organised by the Holton Rd Traders), street entertainment, live music and an open air cinema in Central Park, Barry. Feedback on the event was positive and it is suggested that this weekender style event continue for Christmas 2019.

- 2.14** In 2017 a new and more strategic process for event funding was introduced and both new and existing events now apply for funding, through a single funding round so events can be compared competitively for quality and value for money. The Council has moved away from supporting "more of the same" events and encourage existing events which have received funding for a number of years to become more sustainable and explore other income and sponsorship opportunities. This has also allowed the Council to support new events.
- 2.15** In support of this more strategic process of event funding, it is suggested that for 2019 that the Council move away from financially supporting certain events that have received funding for many years such as Cadstock (this event has received funding since 2015) and the Penarth Pier Summer music programme. Monies could then be used to support new or developing events in the Vale and concentrate on the higher impact events.
- 2.16** For the financial year 2018 - 2019, the Council received 6 applications for the New events funding grants and from these applications, 3 new events were supported - SouthernSUNdown Festival in Southerndown, Pumpkins in the Park at Central Park, Barry and the Llantwit Major Chamber Music Festival.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** The Council's Corporate Plan 2016 - 2020, identifies 4 Well-being Outcomes:
1. An Inclusive and Safe Vale
 2. An Environmentally Responsible and Prosperous Vale
 3. An Aspirational and Culturally Vibrant Vale
 4. An Active and Healthy Vale

Events are mentioned within Well-being Outcome 2 of the Plan - An Environmentally Responsible and Prosperous Vale,
Objective 3: Promoting regeneration, economic growth and employment:
" to support local businesses and increase the number of visitors to the Vale through the implementation of the Tourist Destination Management Plan and an annual programme of events and festivals"

- 3.2** The proposals in this report will enable the Council to continue to work towards this Well-being objective plus activities will also contribute to Well-being objectives such as Valuing Culture and diversity and Encouraging and promoting active and healthy lifestyles.
- 3.3** Events in the Vale of Glamorgan consider the Five Ways of Working in both the planning / design and delivery stages:

Long Term

The Council has supported a number of Vale events through, direct funding / advice and support / use of equipment, enabling events to grow into successful annual fixtures.

Ideas suggested in the report such as bringing in concessions / sponsorship to successful well attended Council and external events would provide income and sustainability for these events. Helping events to become more self-sufficient and improving their long term success.

Officers are working towards developing the Vale as an attractive event destination. Barry Island especially is becoming a popular event venue and has attracted new events such as the Barry Island 10km which is an annual event with a long term commitment to the Vale.

Plus the provision of the Council's new event grant funding helps to support external event organisers to develop new events in the Vale, with the aim of longevity and sustainability.

Prevention

The Council works closely with event organisers and the Council's Event Safety Advisory Group (ESAG) to provide advice and guidance on event legislation and planning, with a view to supporting safe and successful events and preventing badly organised events with a negative impact on the Vale. Council events also adhere to all relevant event legislation and Officers work closely with the Council's ESAG and the South Wales Police to prevent and reduce crime and disorder incidents. Well run events prevent and reduce the potential for anti-social behaviour and assist in creating stronger communities.

Integration

Well organised events by their nature cross a number of Council departments such as Highways, Licensing, Health and Safety and Environmental Health and Officers regularly work with other service areas within the Council to deliver and implement the Well-being objectives.

In addition the events often support or join up with projects within other Council departments. Gwyl Fach Y Fro - the annual Welsh Language event at Barry Island which is now its fifth year, also supports the Council's commitment to the Welsh Language and sporting events such as the Barry Island Triathlon and 10km promote the objective of an Active and Healthy Vale.

Collaboration

Collaboration is key to delivering the objectives and officers work routinely with a number of both internal and external partners. These partners include internal Council Departments (as mentioned above), External event organisers, Emergency services, Medical First Aid providers, Stewarding / Security, Resident / Community Representatives, Traders groups, Town Councils and Welsh Government. This way of working together promotes a consistent and co-ordinated approach to successful event planning and delivery in the Vale.

Involvement

Officers regularly engage with local stakeholders such as Traders Groups, Cabinet members, Town Councils to develop and deliver these proposals. Public opinion on the proposals is also sort via online event customer satisfaction surveys which are carried out by the Council, following each event. Survey participation is high and the results are used to develop or adjust proposals or ideas.

4. Resources and Legal Considerations

Financial

- 4.1** Currently the Council has two budgets from which to fund events:
The Corporate Events Fund
This fund is the main budget available to officers to fund Council run events and to support other non-Council events. From 2017 this budget was also used to fund the supply and fixing of the Christmas Lights and Christmas Tree at King Square and Town Hall, Barry.
- 4.2** The Events Grant Budget
This budget stands at £25,000 per annum and in 2018 this budget was used to fund and a support a number of new events in the Vale.

As agreed by Cabinet in February 2014 minute C2196, events supported by the Events Grant Budget are funded on a year on year basis, to allow a more flexible approach. It is asked that the Head of Regeneration and Planning be granted delegated powers in consultation with the Cabinet Member for Regeneration and Planning, to award uncommitted funding from this Grant Budget, to any additional events which support the local economy.

Employment

- 4.3** There are no employment issues associated with this report

Legal (Including Equalities)

- 4.4** As an event organiser the Council has a duty of care and must adhere to specific legislation for events. Officers provide Event Management Plans and risk assessments. Other considerations will include such matters as obtaining the appropriate traffic orders and confirming that the appropriate licences are in place.
- 4.5** In other instances, the Council requires risk assessments and proof of appropriate insurance from companies providing services at Council run events. Appropriate licences are also needed if event organisers are occupying Council land.

5. Background Papers
