

THE VALE OF GLAMORGAN COUNCIL

CABINET: 4TH NOVEMBER, 2019

REFERENCE FROM COMMUNITY LIAISON COMMITTEE: 8TH OCTOBER, 2019

“ TOWN AND COMMUNITY COUNCILS CHARTER (MD) –

Approval was sought from the Committee for the revised Charter between the Vale of Glamorgan Council and Town and Community Councils (TCCs). The Council and TCCs had had a Charter in place since 2009 and it set out the way in which the organisations would work together to achieve shared purposes.

Following the establishment of a working group of Elected Members and staff from TCCs a revised Charter had been developed in conjunction with staff from the Vale of Glamorgan Council. The report sought approval for the revised Charter, recommending it be referred to the Council's Cabinet for endorsement before being disseminated to all TCCs for their endorsement.

It was anticipated that following endorsement of the Charter, the working group would reconvene to establish an action plan to accompany the Charter for the remainder of 2019/20 and 2020/21 in order to deliver against the joint commitments.

In presenting the report and its appendices the Head of Policy and Business Transformation advised that the context within which the organisations were now operating had changed significantly since the Charter was initially developed and had therefore subsequently been revised. The working group had met on three occasions to discuss the development of the revised draft which could be found at Appendix A to the report. Since the working group had met an engagement event with TCCs had also been held to develop an approach to progressing the Reshaping Services agenda. This had also informed the final version of the Charter which the Committee was recommended to endorse. The document had been rationalised in size from the number of principles from 14 to 8 as outlined below:

- Recognition
- Governance
- Involvement, Engagement and Consultation
- Information and Communication
- Joint Working and Engagement
- Land Use Planning
- Well-being of Future Generations Act and
- Local Elections.

It was further proposed that an action plan would consider the practical steps to progressing all Charter commitments, including service delivery in line with proposals regarding the Reshaping Services agenda.

During the discussion of the report, a Member sought a summary of the changes that had been made, with the Head of Policy and Business Transformation advising that in the main these had been around the reduction in the number of principles and stressed the need for involvement and engagement with TCCs. With regard to Principle 8, having regard to the wording in relation to “Will brief TCC Clerks on the nomination process ...” Committee was informed that the Vale of Glamorgan Council would provide information to the Clerks on the process so that if any Member of a TCC sought advice, the TCC Clerk in the first instance could assist any potential candidate who came forward for local elections.

A Member raised a query about the presentation and format of the Charter, proposing that this could be amended to make it more accessible. The Head of Policy and Business Transformation undertook to consider these points in finalising the presentation of the Charter document.

Councillor D. Reed from Llangan, a member of the working group, advised that during the group’s discussions on the Charter a suggestion that TCCs be given the opportunity to speak at site visits had been discussed, however this had not been agreed as site visits were arranged for Vale of Glamorgan Council Elected Members to view the sites with no discussion on applications taking place. However, the legislative background in relation to this process was requested with the officer advising that they would seek advice and report back.

A Community Council Member however commented that as planning matters could be contentious issues for TCCs they suggested the encouragement of more dialogue with the planning department and TCC’S was something that they would request be further considered with the development of the action plan .

Having fully considered the report, it was subsequently

1. Background

- 1.1 The Vale of Glamorgan Council and Town and Community Councils (TCCs) in the Vale of Glamorgan set out the way in which these organisations would work together in a Charter. Originally drafted in 2009 and revised in 2013, the Charter is based on a series of principles and commitments that describe how the organisations will work together in the interests of the communities we serve. The current Charter follows a model published by the Welsh Government.
- 1.2 At the Community Liaison Committee meeting of 3 July 2018, it was agreed that a working group would be established to review the current Charter and propose any updates, reflecting the changing environment and way in which the organisations are now working. The working group has met on three occasions to discuss the development of a revised draft which can be found in Appendix A.

- 1.3** Since the working group has met, an engagement event with TCCs has been held to develop an approach to progressing the Reshaping Services agenda. This has informed the final version of the Charter which Committee are recommended to endorse. The final version has also been informed by feedback from previous Committee meetings, and more widely, from TCCs across the Vale of Glamorgan.

2. Key Issues for Consideration

- 2.1** The context within which the organisations are now operating has changed significantly since the Charter was initially developed and subsequently revised.
- 2.2** The ongoing period of budget reductions has changed the way in which the Vale of Glamorgan Council provides services and the Committee is regularly updated on the progress of the Reshaping Services Programme. The Committee will note the ongoing budgetary pressures within each of the partner organisations.
- 2.3** The legislative environment has also changed markedly since 2013, notably with the introduction of the Well-being of Future Generations Act. The Act applies to the Vale of Glamorgan Council and three of the TCCs specifically, with other TCCs required to work within the spirit of the legislation. The Act places a duty to exercise the Sustainable Development Principle through five ways of working and these should guide decision making and the activities of public bodies.
- 2.4** The Welsh Government has also established an Independent Review Panel for Town and Community Councils. The Welsh Government is to consider these findings and recommendations in due course. The working group discussed keeping a 'watching brief' on this agenda and agreed to conclude the review of the Charter so as not to delay this process, with any further refinements being made at a later date.
- 2.5** Appendix A presents the revised Charter for consideration and endorsement by Committee, with a recommendation that the report, Charter and any views be referred to Cabinet to enable the Charter to be endorsed.
- 2.6** Following discussion at Committee the number of principles contained within the charter have been rationalised from 14 to 8 and are now as follows:
Recognition
Governance
Involvement, Engagement & Consultation
Information & Communication
Joint Working & Engagement
Land Use Planning
Well-being of Future Generations Act
Local Elections

- 2.7** Following consideration of the Committee and Cabinet, it is recommended that the Charter be disseminated to all TCCs in the Vale of Glamorgan, seeking confirmation as to whether they wish to endorse the Charter.
- 2.8** It is also recommended that following endorsement of the Committee, Cabinet and TCCs, the working group will reconvene to develop an action plan covering the remainder of 2019/20 - 2020/21 to progress the commitments contained in the Charter.
- 2.9** It is proposed that this action plan will consider the practical steps to progressing all charter commitments, including service delivery in line with proposals regarding the Reshaping Services agenda.
- 2.10** The action plan and Charter will then be regularly reported to Committee to monitor progress.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** The work of the Community Liaison Committee through the Charter between the Vale of Glamorgan Council and TCCs is consistent with the principles of the Well-being of Future Generations (Wales) Act (2015). The way the Councils work together is an important facet of the Council's Reshaping Services Programme and contributes to the overall delivery of the Corporate Plan. The Charter proposes a specific principle relating to the Well-being of Future Generations Act which seeks to ensure the duty and spirit of the Act are furthered as the Councils work together.

4. Resources and Legal Considerations

Financial

- 4.1** There are no direct resource implications associated with this report. The Charter sets out the context and processes involved in making decisions relating to service delivery and resources.

Employment

- 4.2** There are no direct resource implications associated with this report. The Charter sets out the context and processes involved in making decisions relating to service delivery and resources.

Legal (Including Equalities)

4.3 There are no specific legal implications associated with this report.

Charter between the Vale of Glamorgan Council and Community & Town Councils

2019

Town and Community Councils Charter

Introduction

The community and town councils of the Vale of Glamorgan and the Vale of Glamorgan Council have agreed to publish an updated version of the Charter which sets out how we aim to work together for the benefit of local communities whilst recognising our respective responsibilities as autonomous, democratically elected statutory bodies. The Charter is designed to build on the previous version and existing good relationships. The work of all partner organisations is built on the shared principles of openness, respect for each other's opinions, honesty and our common priority of putting citizens at the centre of what we deliver. The Charter is based on equality of partnership and aspires not to be a top-down arrangement. It is a set of guiding principles by which we will work together. It will not compromise the autonomy of any of the councils which are signed up to it.

Partners to the Charter

The undersigned community and town councils and Vale of Glamorgan Council are committed to the principles and statements with the Charter, for the benefit of local people:

To be added upon adoption

None of the principles in this Charter would prevent other meetings being held when appropriate on any matters of mutual interest.

Principle 3: Involvement, Engagement and Consultation

The Vale of Glamorgan Council	Town and Community Councils
<p>We will work together to involve our respective organisations and our communities in decision making at appropriate stages, through the processes of involvement, engagement and consultation. Principle 5: Joint working and engagement

The Charter defines ‘Partnership’ as working together towards a common set of goals, based on equality in terms of ownership, decision-making and recognition of each party’s distinctive contribution. An equal and effective partnership brings benefits and responsibilities to all those involved. Local government at both tiers must work together to promote the economic, cultural social and environmental well-being of our area. If doing things differently achieves a better and more sustainable service, we will seriously examine these methods. In order to be effective, Elected Members and officers must be well-trained and have the support they need to carry out their roles. We will encourage continuous development of officers and Members in both Vale of Glamorgan Council and TCCs, either in their individual groupings or together. Capacity building leads to professionalism and more effective joint working. Both the Vale of Glamorgan Council and TCCs recognise the need for clarity and transparency in financial arrangements. In developing and implementing financial arrangements, relevant national and local priorities will be taken into account.

The Vale of Glamorgan Council	Town and Community Councils

Will recognise that there are certain instances where it is not appropriate or desirable for the Vale of Glamorgan Council to delegate service delivery.

In our work we will reflect the Well-being of Future Generations Act by considering the way our work contributes to the national well-being goals and that we can demonstrate the sustainable development principle through the five ways of working. We recognise the strategic importance of the Vale of Glamorgan Well-being Plan as published by the Public Services Board as the overarching strategic vision and priorities for the local area.
