

Meeting of:	<b>Cabinet</b>
Date of Meeting:	<b>Monday, 18 November 2019</b>
Relevant Scrutiny Committee:	Corporate Performance and Resources
Report Title:	Initial Revenue Budget Proposals 2020/21 and Revised Budget 2019/20
Purpose of Report:	To gain Cabinet's approval for the amended revenue budget for 2019/20 and to commence consultation on the initial revenue budget proposals for 2020/21.
Report Owner:	Report of the Leader
Responsible Officer:	Carys Lord, Head of Finance / Section 151 Officer
Elected Member and Officer Consultation:	Corporate Management Team
Policy Framework:	This report is following the procedure laid down in the Constitution for the making of the budget and so does not need to be referred to Council at the proposal stage. However, the final 2020/21 budget will require the approval of full Council.
<p>Executive Summary:</p> <ul style="list-style-type: none"> <li>• The 2019/20 budget has been amended for internal transfers and technical adjustments. The overall total budget for the authority has not changed from £226.098m.</li> <li>• The Council is required under statute to fix the level of council tax for 2020/21 by 11th March 2020 and in order to do so, will have to agree a balanced revenue budget by that date.</li> <li>• The Council's provisional settlement has not yet been announced by Welsh Government and is expected this year in mid-November with the final settlement being received in February 2020. Even though this crucial information has not been received, the budget setting and consultation process has to commence in order to meet statutory deadlines.</li> </ul>	

## **Recommendations**

It is recommended that:

1. The amended revenue budget for 2019/20 as set out in Appendix 1 be approved.
2. The initial revenue budget proposals for 2020/21 be approved for consultation with the relevant Scrutiny Committees and other consultees.
3. The recommendations of Scrutiny Committees are passed to Corporate Performance and Resources Scrutiny Committee as the lead Scrutiny Committee in order for their views to be forwarded to Cabinet.
4. A sum of £4m be set aside in the Council Fund, with its use being considered as part of the final budget proposals for 2020/21.
5. A sum of £0.5m be set aside in the Education Pressures reserve to be utilised to offset adverse variances in this area following consultation with the Head of Finance/Section 151 Officer and Cabinet Member for Performance and Resources.
6. A sum of £2m be set aside in the Neighbourhood Services reserve to be utilised to offset adverse variances in this area following consultation with the Head of Finance/Section 151 Officer and Cabinet Member for Performance and Resources.

## **Reasons for Recommendations**

1. To incorporate changes to the 2019/20 budget
2. In order to gain the views of Scrutiny Committees and other consultees.
3. In order that Cabinet be informed of the recommendations of Scrutiny Committees before making a final proposal on the budget.
4. To gain approval to set aside funding in 2019/20.
5. To gain approval to set aside funding to mitigate additional costs associated with Education pressures in 2019/20.
6. To gain approval to set aside funding to mitigate additional costs associated with Neighbourhood and Transport Services in 2019/20.

### **1. Background**

- 1.1 The Council's budget is determined largely by the Revenue Support Grant (RSG) settlement set by the Welsh Government (WG). The provisional RSG settlement is expected to be received from WG in November 2019, with the final settlement due to be received in February 2020.

- 1.2** The Council is required under statute to fix the level of council tax for 2020/21 by 11th March 2020 and in order to do so, will have to agree a balanced revenue budget by the same date. To be in a position to meet the statutory deadlines and the requirements for consultation set out in the Council's Constitution, much of the work on quantifying the resource requirements of individual services needs to be carried out before the RSG settlement is notified to the Council.

## **2. Key Issues for Consideration**

### **Revised Budget 2019/20**

- 2.1** Appendix 1 to this report sets out the amended budget for 2019/20, together with the necessary adjustments to be made to the original budget.
- 2.2** Asset Rents, International Accounting Standard (IAS) 19, Transfers and Recharges - These adjustments have no overall effect on the net budget of the Council. These are accounting adjustments largely outside the control of services. They reflect charges for the use of capital assets, changes to inter-service recharges and transfers and pensions adjustments to comply with accounting standards.
- 2.3** The following table compares the amended budget with the projected outturn for 2019/20. Services are anticipating drawing down from reserves this year with the main areas outlined in the following table.

	2019/20	2019/20	2019/20	Variance
	Original	Amended	Projected	(+)Favourable
Directorate/Service	Budget	Budget	Outturn	(-) Adverse
	£'000	£'000	£'000	£'000

## Learning and Skills

- 2.4** The forecast for Learning and Skills is an overspend of £563k after a planned use of reserves of £136k. The Learning and Skills Directorate is being requested to look at ways of mitigating the projected overspend this year. Currently, there is a proposed unplanned transfer of £500k from reserves to cover the potential shortfall, as detailed later in this report, with a further £63k of savings to be identified.
- 2.5** Schools - The delegated budget relating to schools is expected to balance as any under/over spend is carried forward by schools.
- 2.6** Strategy, Culture, Community Learning & Resources - There is an adverse variance of £74k anticipated for this area after a planned transfer from reserves of £136k. The Schools Non Delegated budget is projected to overspend by £147k. £136k of this variance is due to the need to fund on going safeguarding and salary protection costs in relation to the transformation of secondary schools in Barry, however, it had been planned to transfer £136k from the Schools Rationalisation reserve for this purpose. There are other small adverse variances of £11k. There is a projected overspend of £177k relating to School Transport. Local Education Authorities have a statutory duty to provide free school transport for pupils of statutory school age who reside beyond walking distance to the nearest appropriate school in addition to a statutory duty to provide transport for pupils with Additional Learning Needs (ALN) who require access to specialist provision. The Council also provides discretionary support towards pupils in further education above the age of 16. Currently there are projected overspends against ALN (£153k), Secondary (£52k) and further education (£7k) and a projected underspend against primary of £35k. Additional work needs to be carried out in relation to the ALN contracts and it is envisaged that further information will be available in October 2019. This is offset by the £114k net favourable variance projected by the Strategy and Resources section. The largest variance being due to the delay in the new finance system for secondary schools being implemented which has resulted in savings this year of £77k.
- 2.7** Directors Office - It is anticipated that this area will outturn on target.
- 2.8** Additional Learning Needs & Wellbeing - A net adverse variance of £579k is currently projected for this service. The Non Delegated Resource Units are projecting an overspend of £234k. The key emerging challenge for schools is the increasing number of children and young people who are displaying very complex social, emotional and mental health difficulties. In order to meet this need two specialist resource bases have been developed at Gladstone Primary School in partnership with Ysgol Y Deri. These resource bases are developing a trauma informed approach which recognises the impact of Adverse Childhood Experiences (ACEs) on the development of young people. The Children's Placements and educational needs of Looked After Children's budgets are

currently projecting an overspend of £319k. It is difficult to predict the outturn on this budget as there could be changes in placements between now and the year end and costs for individual cases can be expensive. There is currently an adverse variance of £54k on the recoupment income budget and there are other small favourable variances of £28k projected.

- 2.9** Standards and Provision - A net favourable variance of £90k is projected for this service. There is a £66k favourable variance mainly relating to staffing in the Youth Engagement and Progression service. The EOTAS and Alternative Curriculum service is projected an adverse variance of £93k due to a significant increase in the number of pupils accessing education provision other than at school. This has been partially offset by additional income of £38k from the Youth Support Homelessness grant and £10k from Cardiff Council CLA. Behaviour and Attendance has a projected favourable variance of £33k mainly against staffing budgets. There is also a favourable variance of £36k under School Improvements also relating to the staffing budgets.

## **Social Services**

- 2.10** The forecast for Social Services is shown as a balanced budget however this is after a potential unplanned transfer from reserves of £1.7m.
- 2.11** Children and Young People Services - The major concern for this service is the continuing pressure on the children's placements budget given the complexities of the children currently being supported and the high cost placements some of these children require to meet their needs. Work continues to ensure that children are placed in the most appropriate and cost effective placements, however in the context of the complexity of need and the national challenges in identifying placements this is challenging, however, some progress has been made and it is now projected that this budget could overspend by around £1.0m this year. It should be noted that due to the potential high cost of each placement, the outturn position could fluctuate with a change in the number of children looked after and/or the complexity of need. It should be noted that this position includes the utilisation of £500k grant funding from Welsh Government which has currently been provided on a one off basis in 2019/20, however, this cannot be guaranteed and relied upon for future years and it is anticipated that further information will be provided as part of the 2020/21 settlement. The service holds a reserve that could be accessed at year end to fund high cost placements if required.
- 2.12** Adult Services - The pressure on the Community Care Packages budget has been reassessed and it may have a net overspend at year end of around £700k. The outturn position is difficult to predict as the budget is extremely volatile. The service also continues to be affected by the pressures of continued demographic growth, an increase in the cost of service provision and the Community Care Packages budget will have to achieve further savings this year. The service will strive to manage growing demand and will develop savings initiatives which may be funded via regional grants. Welsh Government has continued to provide

Intermediate Care Fund (ICF) grant to Cardiff and Vale University Health Board to allow collaborative working between Health and Cardiff and the Vale Councils however the level of grant funding is not guaranteed on an ongoing basis. The service holds a reserve that could be accessed at year end to fund any eventual overspend if required.

## **Environment and Housing**

- 2.13** Neighbourhood Services & Transport - This service is currently projected to have an adverse variance of £1.520m against the 2019/20 budget. The savings target for 2019/20 is £932k. Plans for saving this amount are underway and being continually monitored however several of the proposed savings have a long lead in time therefore it is currently projected that £470k of the savings target will not be achieved in 2019/20. This savings shortfall is included within the £1.520m adverse variance. Currently, there is a proposed unplanned transfer of £1.520m from reserves to cover this potential shortfall. As detailed later in this report, with efforts continuing to identify further savings.
- 2.14** Within the Waste Collection Service it is anticipated that there will be an adverse variance of around £650k. There is still pressure on employee and transport budgets due to downtime involved in travelling to Cardiff to dispose of waste. Cowbridge is currently being used as a temporary transfer station for elements of recycling material with the aim of reducing this downtime however additional resource is still being utilised. There is also pressure on the budget due to the high price currently being paid to treat our co-mingled recycling. The price has increased steadily over the last couple of years since China banned elements of recycling such as plastic into the country. This has been compounded by a high % of dry recycling collected since May 2019 being rejected by the new contractor. The rejected material has had to be sent for more expensive treatment or landfill which has cost an additional £150k from May to August 2019. Changes have been made to the collection process with the aim of ensuring the correct containers are placed on the kerbside for dry recycling therefore it is anticipated that considerably less recycling will be rejected going forward. The current service changes to enable a source separated recycling collection service are likely to require further resource in the initial period of service change however it is anticipated that this will reduce the costs currently being spent on treating recycling in the long term due to the reduced cost of treating the recycling. The rollout is being phased across the Vale from Autumn 2019 therefore the full benefit will not be achieved in 2019/20.
- 2.15** There is also currently a pressure of around £100k on the staffing budget at Barry Island. Due to the popularity of the resort additional resources have been utilised to maintain the expected cleanliness standards of the beach and promenade.
- 2.16** In addition there is a projected adverse variance against the street lighting energy budget. Although efforts have been made over previous years to turn a high % of street lighting to LED there have been significant increases to the cost of energy. The cost has increased by 13% in 2018/19 and now a further 9.5% in

2019/20. There is therefore a projected adverse variance of £150k against this budget.

- 2.17** The Directorate is being requested to look at ways of mitigating a projected overspend.
- 2.18** Regulatory Services - The allocation represents the Vale of Glamorgan's budget for its share of the Shared Regulatory Service (SRS). A separate set of accounts is maintained for the SRS and periodically reported to the Shared Regulatory Service Joint Committee. It is anticipated that the SRS will outturn on target.
- 2.19** Council Fund Housing - A savings target of £75k for CCTV will not be achieved this year. If underspends do not materialise elsewhere within the service by year end, funding will be drawn down from reserves to cover the shortfall.
- 2.20** Public Sector Housing (HRA) - The HRA is expected to outturn on target and any underspends in year will be offset by additional contributions to Capital Expenditure thus reducing the reliance on Unsupported Borrowing.

#### **Managing Director and Resources**

- 2.21** It is projected that Managing Director and Resources will outturn on target at year end.
- 2.22** Resources - It is currently anticipated that services under this heading will outturn within budget at year end.
- 2.23** Regeneration - This budget covers the Countryside, Economic Development and Tourism & Events functions. Although the forecast is again shown as a balanced budget at year-end, there remains concern over the long-established income targets for car parking charges and commercial opportunities within the Countryside Division, as these historic savings targets will be difficult to achieve this year if charges are not implemented. Efforts will once again be made to achieve a balanced budget at year-end, but the situation will be closely monitored.
- 2.24** Development Management - Fee income remains on track to achieve its target as a number of major applications have been received to date. Staff changes and short term vacancies whilst the recruitment process takes place has resulted in an under spend on staff costs. In addition, the Division is also continuing to pursue the use of Planning Performance Agreements and some consultancy work along with other streams of income generation such as pre-planning application advice to help support the regulatory process, in line with 2019/20 savings targets.
- 2.25** Private Housing - The slippage on capital spend for Disabled Facility Grants (DFG's) has a knock-on effect to the agency fee income so it is anticipated that this may be below target at year-end. This is anticipated to be covered by staff

vacancy savings within the team so it is still expected that the Division will achieve a balanced budget at year-end.

## **General Policy**

- 2.26** The projected outturn for Policy is a favourable variance of £6.5m when compared to the amended budget. £3m of this is the result of one off issues that have materialised in 2019/20 and the details of which are outlined below at paragraphs 2.30 and 2.31.
- 2.27** It is projected that there will be a favourable variance of £2.1m relating to capital charges.
- 2.28** Current estimates project that the Council Tax budget will outturn with a surplus on collection of £1.5m due to collection of Council Tax being above the rate budgeted for and also due to an increase in the number of properties in year within the Vale.
- 2.29** There is a projected overspend on the Council Tax Reduction Scheme due to an increase in the level of Council Tax and the number of properties of £100k.
- 2.30** This year the Council will benefit from a one off surplus from the changes to the Empty Homes policy for Council Tax which is projected to be in the region of £1m. From 2020/21, this additional revenue will be reflected in the Council Tax base and therefore is in the Council Tax base budget.
- 2.31** A further one off surplus of £2m has been created in 2019/20 as a result of grant funding received from WG in respect of Teachers Pensions and Pay which was notified after the 2019/20 budget was approved. The Council had however already increased and provided funding in full to the Learning and Skills base budget for these cost increases.
- 2.32** In response to the projected adverse variance reported by Neighbourhood and Environment Services, it is proposed that £2m of the projected positive variance in the General Policy budget is transferred to the Neighbourhood Services Reserve to fund any potential adverse variances. The use of this reserve should be agreed following consultation with the Head of Finance/Section 151 Officer and Cabinet Member for Performance and Resources.
- 2.33** It is also proposed that in the context of the projected overspends in Learning and Skills in 2019/20 and anticipated pressures in 2020/21, £0.5m is set aside into an Education Pressures reserve to be utilised to offset any adverse variances in this area on a case by case basis. The use of this reserve should be agreed following consultation with the Head of Finance/Section 151 Officer and Cabinet Member for Performance and Resources.

- 2.34** Due to the uncertainty around the level of the settlement and the savings required in 2020/21 onwards, it is proposed that the remaining sum of £4m is transferred into the Council Fund and its use will be considered by the Budget Working Group when it is taking into account all factors in formulating a balanced revenue and capital budget for the final proposals which will be presented to Cabinet and Council in February 2020.

### **Savings 2019/20**

- 2.35** As part of the Final Revenue Budget Proposals for 2019/20, a savings target of £3.020m was set for the Authority. Attached at Appendix 2 is a statement detailing the projected progress against savings targets for 2019/20. It is currently projected that there will be a shortfall against the savings target of £586k.
- 2.36** Each savings target has been given a RAG status. Green indicates that it is anticipated that the target will be achieved in full within the year, amber indicates that it is considered that the saving in the year will be within 20% of the target and red indicates that the saving to be achieved in year will be less than 80% of the target.
- 2.37** Social Services - Older Persons Day Services. The achievement of this savings target is contingent on the outcome of the consultation on proposed future provision of day services for older people which was agreed by Cabinet on 29th July 2019. Given the timescales, it is unlikely that the full saving will now be achieved in 2019/20. If this saving is not achieved in year the service's reserves will be utilised at year end to fund any overspend if required.
- 2.38** Neighbourhood and Transport Services - There is a savings target this year of £932k however, it is currently anticipated that £462k will be achieved leaving a shortfall of £470k to be identified. Work is continuing to identify schemes to close this gap. Any shortfall in 2019/20 will be offset by an amount set aside in the Neighbourhood Services reserve.
- 2.39** General Fund Housing - It is projected that the CCTV savings will not be achieved in 2019/20 which equates to a shortfall of £76k in 2019/20. There are ongoing discussions with South Wales Police and officers from the Police & Crime Commissioners office to address future CCTV provision in the Vale. The Council has committed a capital budget of £350k to support a new CCTV strategy with ongoing revenue commitment falling to partner agencies if agreement can be reached on a spend to save basis.
- 2.40** Further updates on progress against the savings targets will be provided to Members during the year.

## **Budget Strategy 2020/21**

**2.41** Cabinet approved the Budget Strategy for 2020/21 on the 15th July 2019, min no.C37.

**2.42** The Budget Strategy for 2020/21 outlines that in order to establish a baseline, services should prepare initial revenue budgets based on the cost of providing the current level of service and approved policy decisions and including the existing savings target.

**2.43** Increases to budgets approved during the course of a financial year can restrict the freedom the Council has to allocate its resources to priorities during the following budget cycle when it is aware of all the competing demands.  
Consequently:

- Supplementary estimates will only increase the base budget if Council has given specific approval to this effect. Increases met by virement within a year will not be treated as committed growth.
- Directors should find the cost of increments and staff changes from their base budget unless the relevant specific approval has been given for additional funding.
- The effect of replacing grant from outside bodies that has discontinued will not be treated as committed growth. In addition, before any project or initiative that is to be met either wholly or partly by way of grant may proceed, the exit strategy must be approved.
- Certain items of unavoidable committed growth will continue and these include the effect of interest changes and the financing cost of the capital programme, increases in taxes, increases in levies and precepts charged by outside bodies and changes to housing benefits net expenditure.
- Services will be expected to achieve savings already approved by Cabinet as part of the 2019/20 final budget proposals and Directors are asked to continue work on achieving their Reshaping Services savings targets.
- It is envisaged that the costs of service development will need to be met from within the respective directorates.

**2.44** Having regard to the above, it is therefore proposed in respect of the 2020/21 Budget Process that Directors be instructed to prepare initial revenue budgets in accordance with a timetable agreed by the Head of Finance. Preparation should be on the following basis:

- Capital charges, central accommodation costs and central support costs to be estimated centrally.
- Services to prepare baseline budgets on current service levels as set out in the 2019/20 Final Revenue Budget report.

- Budgets to be broken down subjectively and objectively in as much detail as deemed appropriate by the Head of Finance.
- Budget reports to include revised estimates for 2019/20.
- Full account to be taken of the revenue costs, other than debt charges, of new capital schemes coming into use.
- Minimum savings targets to be met initially as detailed in the 2019/20 Final Revenue Budget report. Any savings made directly by services over and above individual service targets to count towards future saving targets or to meet unavoidable service cost pressures.
- Directors will continue to draw up Service Plans that set out the aims and objectives for the service and any possible future developments and efficiencies.
- As stated previously, it is expected that the revenue costs of service development will need to be met from within the respective services (in particular, from the savings made). As such, no revenue bids are initially to be made. However, services may still be asked to identify and prioritise any burgeoning revenue cost pressures for consideration.

### **Medium Term Financial Plan**

- 2.45** The Medium Term Financial Plan (MTFP) 2019/20 to 2022/23 was presented to Cabinet on 7th October 2019 min no.C103. It considered the impact of different WG settlement scenarios and different increases in Council Tax.
- 2.46** The latest Plan factored in a managed level of cost pressures and pay awards at the same level as in 2019/20.
- 2.47** It modelled a council tax increase of 4.9%, being the increase agreed for 2019/20 and the possibility of increasing the level to the Welsh average which would be a possible increase of 10.4% in 2020/21, followed by a 6.2% increase in the next two consecutive years.
- 2.48** It also considered a scenario where the settlement from WG was a 1% reduction for the years 2020/21, 2021/22 and 2022/23 and also a cash neutral settlement.
- 2.49** The outcome of these scenarios was that if there is a cash neutral or 1% reduction in the settlement from Welsh Government and if there is a 4.9% increase in council tax for each year of this Plan, there remains between £10.470m and £14.986m of savings to be identified for the 3 years of the Plan. If the council tax was to be increased to and maintained at the Welsh average, with a cash neutral or 1% reduction in the settlement from Welsh Government, there remains between £3.747m and £8.263m of savings to be identified for the 3 years of the Plan. This is after already planning for £748k of savings (excluding schools) for the same period.

## **Budget Consultation with Stakeholders**

- 2.50** To ensure that the budget set for 2020/21 continues to address the priorities of Vale residents and the Council's service users, the budget setting process will take into account the results of a consultation exercise. The Council's annual budget consultation exercise began on Monday 30th September and will close on Monday 11th November 2019. For the first time the Council has invited residents to have their say on the level at which Council tax is set for the next financial year. A video has been published explaining the Council's current financial position including where our money comes from, how it is currently spent across service areas, the savings we have achieved to date and the savings we need to achieve in the next three years. The video also provides a context as to how Council tax in the Vale compares to other local authority areas in Wales. This video sits on the dedicated budget consultation page on the Council's website. It has also been shared on the Council's social media channels. Subscribers to the Council's consultation email distribution list, of which there are over 4,000, have been invited to respond to the consultation. Council officers have been attending local events to engage face to face with residents and have run a series of roadshow drop-in events at Libraries throughout the Vale of Glamorgan.

## **Provisional Settlement 2020/21**

- 2.51** The Council's provisional settlement has not yet been announced by WG. In previous years, the provisional RSG settlement was received from WG during October with the final settlement being received in December. The provisional settlement is expected this year in mid-November with the final settlement being received in February 2020.
- 2.52** Given the timescales set out in the budget strategy this means a significant amount of the preparation for the budget will need to be completed prior to receiving the final settlement.
- 2.53** The late timescale for the settlement also delays the notifications that the Council receives regarding continuation of grant funding. In line with the budget strategy the withdrawal or reduction in grant funding should not give rise to committed growth within the budget. The service area should give consideration to the exit strategy that has been put in place in respect of the funding stream.

## **2020/21 Initial Budget Proposals**

- 2.54** As part of these initial proposals, it has been necessary to revisit the cost pressures facing services in order to build up a complete and up to date picture of the financial position of the Council. An updated list is shown in Appendix 3. These are not shown in any order of priority. Since the production of the MTFP the impact of additional pressures has been reviewed and are now included in the appendix. This has resulted in an increased level of cost pressures which will need to be assessed by the Budget Working Group as part of the final proposals.

- 2.55** There is still uncertainty regarding some of the assumptions made regarding pay costs. Pay awards for 2020/21 have not been agreed and have been included in these projections as a 2% increase. On 22nd October 2019, the Minister for Education announced £12.8m of funding for the 2019/20 Teachers pay award which was to be backdated to 1st September 2019, however, the statement advised that the future impact of this pay award would be part of the government's consideration of the Local Government Settlement and therefore an assessment of the funding to be received in 2020/21 is currently not known. Any of this additional one off grant funding received in 2019/2020 relation to teachers pay award will be allocated to Learning and Skills
- 2.56** The Council's employer pension contributions are reviewed every 3 years and are currently being reassessed to commence from 1st April 2020. The final budget proposals will be amended accordingly when further clarification is received from the actuaries.
- 2.57** From 1st September 2019 there was an increase in the employers contribution into the Teacher's Pension scheme which increased from 16.48% to 23.6%. It was projected that this would cost an additional £3.1m with part of the additional costs falling in 2019/20 and the full year affect being included in 2020/21. The Council fully funded this pressure in 2019/20 with an increase in the Education based budget. One off funding has been received from WG in 2019/20 however confirmation that the full costs over the 2 year period will be funded on a recurring basis has not been received. The South Wales Fire and Rescue Service also have an increase in the level of employer's contribution into their pension fund and are currently anticipating a cost pressure in 2020/21.
- 2.58** Details of the proposed areas for savings for 2020/21 to 2021/22 are attached at Appendix 4. The savings do not include the cost of any potential redundancies. Further work is ongoing to identify future projects that will realise savings for the Council via the Reshaping Service process.
- 2.59** A summary of the overall base budget for 2020/21 is attached at Appendix 5. This has been derived by adjusting the 2019/20 budget for items such as pay inflation and unavoidable growth, but does not include identified cost pressures or savings. These are shown as a note to the table and are further detailed in Appendix 3 and 4 respectively. Adjustments shown include the following :
- Asset Rents, International Accounting Standard (IAS) 19 - Relates to accounting items outside the control of services. They reflect charges to services for the use of capital assets and adjustments in respect of pensions to comply with accounting standards.
  - Recharges/Transfers - Relates to changes in inter-service and inter Directorate recharges
  - Pay Inflation - This figure relates to pay awards for 2020/21.
  - Committed Growth - This relates to the reduced use of the Council Fund Reserve.

- 2.60** Once the base budget for 2020/21 has been established, it must then be compared to the funding available to identify the extent of any shortfall.
- 2.61** Although the Council has not received its provisional settlement it has considered a number of scenarios as part of its MTFP which will now be updated in the context of the revised cost pressures submitted by service departments.
- 2.62** In scenario 1 with a cash neutral or flat settlement, which would provide the same funding to the Council as in 2019/20 and a projected AEF of £152.07m and Council Tax reflecting a 4.9% increase and standing at £77.655m, total available funding would be £229.725m. When compared to a base budget of £230.148m, this would result in a funding shortfall for 2020/21 of £0.423m.
- 2.63** If all identified cost pressures were funded, this would increase the shortfall to £10.481m. If all proposed savings were achieved, the shortfall would be reduced to £8.968m.
- 2.64** If the Council tax assumptions are further revised to take the Band D Council tax in line with the Welsh Average, which reflects a 10.4% increase, the shortfall would be £4.896m.

<b>Scenario 1 Projected Budget Shortfall Cash Neutral Settlement from WG</b>	<b>2020/21</b>
Funding Available	<b>£000</b>
Provisional AEF	152,070
Council Tax (incl 4.9% Increase)	77,655
Projected Funding Available	229,725
Base Budget	231,148
Use of Reserves	(1,000)
Total Base Budget	230,148
<b>Projected Shortfall Against Base Budget</b>	<b>(423)</b>
Assume all Cost Pressures Funded	(10,058)
<b>Projected Shortfall with Cost Pressures Funded</b>	<b>(10,481)</b>
Assume all Savings Achieved (including Schools)	1,513
<b>Projected Shortfall</b>	<b>(8,968)</b>
Increase Council Tax to Welsh Average (increase to 10.4%)	4,072
<b>Projected Shortfall</b>	<b>(4,896)</b>

- 2.65** In scenario 2 with a 1 % reduction in WG funding settlement and a projected AEF of £150.549m and Council Tax reflecting a 4.9% increase and standing at £77.655m, total available funding would be £228.204m. When compared to a base budget of £230.148m, this would result in a funding shortfall for 2020/21 of £1.944m.
- 2.66** If all identified cost pressures were funded, this would increase the shortfall to £12.002m. If all proposed savings were achieved, the shortfall would be reduced to £10.489m.
- 2.67** If the Council tax assumptions are further revised to take the Band D Council tax in line with the Welsh Average which reflects a 10.4% increase, the shortfall would be £6.417m.

<b>Scenario 2</b>	<b>2020/21</b>
<b>Projected Budget Shortfall</b>	
<b>1% Reduction in WG Settlement</b>	
	<b>£000</b>
Funding Available	
Provisional AEF	150,549
Council Tax (4.9% Increase)	77,655
Projected Funding Available	228,204
Base Budget	231,148
Use of Reserves	(1,000)
Total Base Budget	230,148
<b>Projected Shortfall Against Base Budget</b>	<b>(1,944)</b>
Assume all Cost Pressures Funded	(10,058)
<b>Projected Shortfall with Cost Pressures Funded</b>	<b>(12,002)</b>
Assume all Savings Achieved (including Schools)	1,513
<b>Projected Shortfall</b>	<b>(10,489)</b>
Increase Council Tax to Welsh Average (increase to 10.4%)	4,072
<b>Projected Shortfall</b>	<b>(6,417)</b>

- 2.68** A 1% increase in Council Tax at the 2019/20 Council Tax base equates to £740k. The level of increase in Council Tax will need to be carefully considered in parallel with the other options available to the Council in order to reduce the funding gap and to consider the impact on the residents of the Vale. As the population in the

Vale of Glamorgan has increased from the previous year there may also be additional funding from the change in the Council Tax base.

- 2.69** The shortfall above is also based on the assumption that the savings target of £1.513m set for 2020/21 will be achieved in full. While all services are working towards achieving their 2020/21 targets, not all savings will be achieved in full for 2019/20. The potential for re-profiling savings will need to be assessed when setting the budget for 2020/21.
- 2.70** Further work will be undertaken by the Budget Working Group (BWG) in order to achieve a balanced budget for the final budget proposals for 2020/21. This will include a review of the use of reserves, a review around an increase in council tax, a review of all cost pressures, possible changes to the approved saving targets, a review of the inflation assumptions and the current financial strategies. In order to provide options for balancing the 2020/21 budget, a sum of £4m from the projected underspend in 2019/20 will be transferred into the Council Fund, the use of which will be considered as part of the final budget proposals but may in part be used to balance the 2020/21 budget.
- 2.71** The BWG will consider the results of the budget engagement process in determining priorities for future savings and service delivery and the possible increase in Council Tax.

### **Next Steps**

- 2.72** The next stage is for the estimates to be submitted to Scrutiny Committees for consultation. Committees are asked to review the level of cost pressures with a view to suggesting ways in which these could be managed downwards and/or mitigated and to consider proposals for savings. Corporate Performance and Resources Scrutiny Committee is the lead Scrutiny Committee and will consider both the Initial Revenue Budget Proposals and any recommendations that other Scrutiny Committees have made. The responses of Scrutiny Committee must be made no later than the 19th December 2020.
- 2.73** The BWG will hold a series of meetings in November and December 2019 with the relevant Cabinet Members and officers to consider the budget proposals and they will submit their recommendations so that the Cabinet may make its final budget proposal. Before making its recommendation, the BWG will consider the comments made by Scrutiny, together with the results of consultation. The final proposals to Cabinet will include a review of the financial strategies required to achieve a balanced budget, which is sustainable in future years. Currently, the approved timetable requires Cabinet to approve the final budget proposals by no later than 3rd February 2020 and that Cabinet's final budget proposals will be considered by Council at a meeting to be held 24th February 2020 to enable the Council Tax to be set by 11th March 2020.

### **3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?**

- 3.1** The BWG will ensure that budget proposals consider the requirements of the Well-being of Future Generations Act and the Council's 4 well-being outcomes as detailed in the Corporate Plan.
- 3.2** The Budget Working Group will also ensure that the budget proposals reflect the 5 ways of working which are;
- o Looking to the long term - The budget proposals are a means of planning for the future and take a strategic approach to ensure services are sustainable and that future need and demand for services is understood.
  - o Taking an integrated approach - The budget proposals highlight and encourages ways of working with partners.
  - o Involving the population in decisions – As part of the budget proposal process there has been engagement with residents, customers and partners.
  - o Working in a collaborative way – The budget proposals recognises that more can be achieved and better services can be provided by collaboration and it encourages this as a way of working in the future.
  - o Understanding the root cause of issues and preventing them – The budget process is proactive and allows an understanding of the financial position so that issues can be tackled at the source.

### **4. Resources and Legal Considerations**

#### **Financial**

- 4.1** Based on the assumption that all cost pressures will be funded in full, the estimated funding shortfall for 2020/21 will be £8.968m assuming a cash neutral settlement from WG and a 4.9% increase in Council Tax. If Council Tax is further increased in line with the Welsh average to shortfall for 2020/21 will be £4.896m.
- 4.2** If the settlement from WG reflects a 1% reduction in AEF, with all cost pressures being funded in full and the Council proceed with a 4.9% increase in Council Tax the estimated funding shortfall will be £10.489m. If Council Tax is further increased in line with the Welsh average to shortfall for 2020/21 will be £6.417m

- 4.3** WG has not issued details regarding the level of funding post 2020/21, however, it is anticipated that there will be further reductions in funding for Local Government going forward. It is therefore important that Directors achieve approved savings and look to mitigate further cost pressures through alternative means of service delivery and collaborative ventures.
- 4.4** Reserves are a way of setting aside funds from budgets in order to provide security against future levels of expenditure and to manage the burden across financial years. Funds no longer required may be transferred to the Council Fund and then set aside for other purposes or used to reduce council tax.
- 4.5** The Council has always taken a prudent approach with regard to specific reserves and uses them to mitigate known risks (financial and service) and contingent items, e.g. Insurance Fund. Other reserves have been established to fund Council priorities, e.g. Neighbourhood Services and in particular the Capital Programme, e.g. School Investment Strategy Reserve, Project Fund. This is important as the Council has limited capacity to realise sufficient sums from the sale of assets for capital investment. Sums have also been set aside to assist in budget management, e.g. Early Retirement Fund. The Housing Revenue Account Reserve is ring-fenced to Housing and will be used to fund improvements to the Council's housing stock.
- 4.6** The Council Fund Reserve as at 31st March 2020 is projected to stand at £15.636m, after the £4m transfer in and following a £2m contribution to the 2019/20 budget. There is also a £1m approved use of this reserve in 2020/21. This contribution will be further considered by the BWG when setting the 2020/21 budget, however, use of this reserve to balance the revenue budget will result in a higher level of savings being required in future years. The Section 151 Officer currently believes that the minimum balance on the Council Fund Reserve should be no less than £7m. This is considered sufficient to cover unforeseen expenditure whilst, in the short term, maintaining a working balance. Unforeseen expenditure can be substantial and several instances can occur in a year. Whilst there is no set requirement for the minimum level for the Council Fund Reserve, some commentators use 5% of the net budget as a guide. For the Vale this is around £11m. However, in view of the prudent approach the Council takes with regard to specific reserves, £7m is considered a reasonable minimum.
- 4.7** The Council presently benefits from a reasonable level of reserves, however, they are not inexhaustible and have taken years of careful financial management to develop to their current level. As part of the usual Budget process, an examination of the level of reserves is undertaken to ascertain their adequacy and strategy for use. A view to their level (i.e. whether the amount held in the fund is sufficient to requirements) and purpose (i.e. whether the need to hold the fund is still relevant) has been taken. The requirement for each specific reserve has also been considered in light of the Council's priorities and at this stage of the budget process no transfers between reserves are proposed.

- 4.8** Appendix 6 sets out the Authority's actual reserves as at 31st March 2019 and shows the estimated reserves balance for each year up to 31st March 2023. The Council is forecasting the use of general and specific reserves, excluding HRA and schools, totalling around £31m from 1st April 2019 onwards, which represents approximately 40% of the balance as at 31st March 2019. These levels of reserves are still deemed to be adequate as known risks are largely covered and the Council Fund Reserve does not fall below £7m.
- 4.9** The Council is planning to use a considerable amount of its specific reserves over the coming years, however, as reserves are a non-recurring means of funding, they can only be used as part of a specific financial strategy. The use of all reserves will be reviewed further, by the BWG, as part of the final budget setting process.

### **Employment**

- 4.10** Not all the savings required to meet the shortfall in funding will result in a reduction in staffing. Although the impact on individuals is likely to be mitigated as a result of natural wastage and the deletion of vacant posts, it is, nevertheless, expected that there will be a number of redundancies. The trade unions will be consulted on the details of any possible redundancies once known. Staffing implications relating to budget pressures within schools will need to be considered by individual governing bodies.

### **Legal (Including Equalities)**

- 4.11** The Council is required under statute to fix its council tax by 11th March 2020 and in order to do so will have to agree a balanced revenue budget by the same date.
- 4.12** These initial budget proposals have due regard to the requirements of the Council's Strategic Equality Plan including the Equalities Act 2010 and Public Sector Equality Duty for Wales. The subsequent development of individual strategies for achieving savings will require the completion of Equality Impact Assessments. This involves systematically assessing the likely (or actual) effects of policies on individuals who have a range of protected characteristics under the Act.

## **5. Background Papers**

- 5.1** Medium Term Financial Plan 2019/20 to 2022/23
- 5.2** Budget Strategy 2020/21

No.	Service	2020/21 £'000	2021/22 £'000	2022/23 £'000
<b>Directorate: Learning and Skills</b>				
<b>Schools</b>				
L1	<b>Demographic increase in mainstream schools</b>	1,001	1,000	1,000
L2	<b>Demographic increase in special school Ysgol Y Deri</b> - There is a demographic increase in the number of Vale pupils requiring specialist school placements each year over those leaving the provision at school leaving age.	810	567	405
L3	<b>Teachers Superannuation increase 16.48% to 23.68%</b> - The increase came into force in September 2019 with an annual cost of £3.1m. This is the full year affect of the increase.	1,124	0	0
	<b>Total Schools</b>	<b>2,935</b>	<b>1,567</b>	<b>1,405</b>
<b>Non Schools</b>				
L4	<b>Complex Needs and Provision for Pupils with severe social and emotional behavioural needs</b> - The service is experiencing pressures associated with the provision for pupils with complex needs and social and emotional behavioural needs.	594	140	160
L5	<b>Looked After Children Pooled Budget Residential</b> - There is increased demand on the LAC residential budget which is a shared budget with Social Services directorate.	100	0	0
L6	<b>Non School Staff Teachers Superannuation increase 16.48% to 23.68%</b> - As shown in L3 above.	88	0	0
L7	<b>Education Transport</b> - There has been pressure on this provision of service due to an increase in cost and number of pupils.	135	0	0
	<b>Total Non Schools</b>	<b>917</b>	<b>140</b>	<b>160</b>

<b>TOTAL LEARNING AND SKILLS</b>		<b>3,852</b>	<b>1,707</b>	<b>1,565</b>
----------------------------------	--	--------------	--------------	--------------

<b>Directorate: Social Services</b>				
<b>Children &amp; Young People</b>				
S1	<b>External Placements:</b> This remains the area of greatest pressure where both complexity, increasing demands and unpredictability impact. This also includes a small amount of social work capacity to manage this increase in growth. The Division is continuing its programme of work to reduce the number of children looked after and the use of high cost placements, but this will not be able to bring the spend within budget within the short or medium term.	1,305	0	0
S2	<b>Recruitment and Retention of Foster Carers</b> - The Council needs to recruit and retain more foster carers to support its ability to place children looked after in house in local placements and reduce its reliance on costly external placements. The Council is out of step with other parts of Wales in not having increased its payments to carers for over 10 years.	308	90	90
	<b>Total for Children &amp; Young People</b>	<b>1,613</b>	<b>90</b>	<b>90</b>
<b>Adults Services</b>				
S3	<b>Provider Fees and Quality Assurance</b> - There is continuing challenge by providers to increase fees to meet their costs. Additional capacity is required to manage contract monitoring arrangements as a result of a number of significant quality assurance issues with providers. Numerous historical pressures continue to impact the committed spend for commissioned services, including National Living Wage, Sleep - Ins, HMRC regulations re travel time, auto enrolment of pensions and now the increased burden of registration costs for domiciliary care workers under Regulation and Inspection of Social Care (RISC) (Wales) Act 2016.	1,446	1,446	1,446
S4	<b>Demographic changes and increased demand</b> - Our aging population continues to grow across the Vale of Glamorgan, with an ongoing planned increase in the over 85s. The waiting list is increasing although all cases are risk assessed and prioritised. Changes in legislation have also seen a direct correlation in significant increased activity within Safeguarding and also Mental Health services and therefore the workforce needs to be increased.	825	825	825
S5	<b>Increase to the Capital Limit</b> - This relates to the effects of the increasing the capital limit to £40k for residential services. In previous years WG funding of £260k has mitigated some of this pressure but there remains a deficit of £53k.	53	0	0

No.	Service	2020/21 £'000	2021/22 £'000	2022/23 £'000
S6	<b>Supported Living Contract</b> - Additional investment to sustain supported living accommodation contract and costs following procurement of the service in 2020/21.	158	0	0
S7	<b>Joint Equipment Store</b> - A review has been completed by the Joint Project Board so that partner contributions are based on activity instead of historic allocations. The Council's contribution will increase by £48k.	48	0	0
	<b>Total for Adults Services</b>	<b>2,530</b>	<b>2,271</b>	<b>2,271</b>
	<b>Resource Management &amp; Safeguarding</b>			
S8	<b>Independent Reviewing Officers (IRO)</b> - With the introduction of the 2014 Act there are specific duties of the IRO that requires them to monitor the care plan between reviews through active engagement with the child. Recent practice guides have detailed IRO visiting between reviews should take place and also highlighting the role's duty to engage in QA functions. Further capacity is required to enable the team to fulfil all its duties and requirements.	60	0	0

<b>Directorate: Environment and Housing</b>				
	<b>Neighbourhood and Transport Services</b>			
N1	<b>Waste - Cost of refuse collection for new housing developments</b> - The continual increase in new housing developments within the Vale of Glamorgan has led to increased waste collection and disposal cost.	400	0	0
N2	<b>Highways - Maintain Highway and footway Network</b> - Due to the reduction in the level of resurfacing anticipated on the carriageway and footway for 2020/21 onwards it is anticipated that the amount of patching required will increase.	350	0	0
N3	<b>Street Lighting Energy Costs</b> - Even though energy usage has decreased due to installation of LED lanterns overall costs are going up as a result of the increase in energy costs.	200	0	0
N4	<b>Increase in software maintenance fees due to new asset management software</b> - The current asset management software is due to be upgraded to increase the number of services for which data is held. This will in turn increase the number of users and therefore the annual software licence fee. Services such as tree inspections, playground inspections and drainage/gully inspections will be added to the database to ensure that the authority has improved asset management information.	60	0	0
N5	<b>Highways Structures - Periodic Inspections</b> - There is currently a backlog of inspections.	100	0	0
N6	<b>Waste - Maintenance of new facilities located on the Eastern Shelter, Barry Island</b> - Maintenance of toilets and water feature at the Eastern Shelter, Barry Island.	50	0	0
