

Meeting of:	Cabinet
Date of Meeting:	Thursday, 09 June 2022
Relevant Scrutiny Committee:	Environment and Regeneration
Report Title:	Award of Contracts for Supported Local Bus Services
Purpose of Report:	To advise Cabinet of the supported local bus tender exercise.
Report Owner:	Cabinet Member for Sustainable Places
Responsible Officer:	Miles Punter - Director of Housing and Environment
Elected Member and Officer Consultation:	Accountant Environment and Housing Services Legal Services (Committee Reports) Procurement Officer
Policy Framework:	The report is a matter for Executive decision by Cabinet
<p>Executive Summary:</p> <ul style="list-style-type: none"> • This report advises Cabinet of a tender exercise that has been undertaken in order to award new term specified contracts to supply Supported Local Bus Services B3, 88, 89A/89B, 100, 303, 304, 320 and 321 to successful suppliers (local bus operators). • The contract requires Cabinet endorsement so that the contracts can be executed with the chosen suppliers. • Further details relating to the tender costs are contained in a Part II report which is on this agenda. 	

Recommendation

1. That Cabinet notes the contents of the report for consideration in conjunction with the Part II Report on this Agenda.

Reason for Recommendation

1. To advise Cabinet of the tender exercise undertaken prior to a request later on this agenda to agree legally binding contracts with the chosen providers.

1. Background

- 1.1** Existing term specified contracts for Supported Local Bus Services B3, 88, 89A/B, 94/96 (Mon-Sun eve), 100, 303/304, 320/321 and X2 (Mon-Sat eve) reached their full term on Sunday, 3rd April, 2022.
- 1.2** Provision for new term specified contracts for Supported Local Bus Services B3, 88, 89A/89B, 100, 303, 304, 320 and 321 were openly tendered via the Sell2Wales procurement portal. Details for these services can be found in Appendix A to this Report.
- 1.3** The specified term for Council financed provision was for 5 years and commenced on Monday, 4th April, 2022 with the Council's option to further extend by up to 10 years maximum.
- 1.4** Three operators submitted tenders, these being Adventure Travel, Cardiff Bus and Easyway.
- 1.5** Provision for new term specified contract for Supported Local Bus Services 905 (Cardiff Airport Rail Link) was also openly tendered via the Sell2Wales procurement portal on behalf of Welsh Government. The specified term for this service was for 1 year and commenced on Monday, 4th April 2022 with the option to further extend by up to 5 years maximum depending on Welsh Government/Transport for Wales's requirement. Details of this service can be found in Appendix A to this Report.
- 1.6** Only one operator submitted a tender for Service 905, New Adventure Travel Ltd trading as Adventure Travel that was subsequently identified as the preferred bid.
- 1.7** Officers representing Welsh Government have been notified of the outcome and have requested that the Council enter into a Contract Agreement for this service on their behalf.
- 1.8** Welsh Government will fully finance this service via a specific TrawsCymru service grant. The reason for the shorter-term contract is because the Welsh Government are currently considering its options to tender for a replacement

Cardiff Airport Express Service T9 between Cardiff City Centre and the Airport, which may be extended as one service through to Rhoose (Cardiff Airport) Rail Station. Therefore, the need for a separate service will no longer be required. The Council's assistance in procuring this service on behalf of the Welsh Government has again been requested and is being considered by Officers.

2. Key Issues for Consideration

- 2.1** The bus service provision outlined in this report is not commercially viable for operators to run without financial support from the Council.
- 2.2** Historically the Council has funded these services using both its own budget and the Bus Services Support Grant (BSSG) that the Council receives from Welsh Government.
- 2.3** Failure to award new term specified contracts to supply Supported Local Bus Services B3, 88, 89A/89B, 100, 303, 304, 320 and 321 to successful suppliers (local bus operators) will mean that these services will no longer be operated, dramatically reducing bus service availability for Vale of Glamorgan residents.
- 2.4** It should also be noted that due to the current economic climate and operational issues being faced (i.e., lack of drivers) there was little interest from operators in submitting bids. For that reason, the deadline date for submissions was extended.
- 2.5** The Cardiff Airport Rail Line Service 905 is an essential service for the airport and will assist in increasing passenger numbers following on from COVID-19. Officers have a very good working relationship Welsh Government Transport officials and agreed to undertake this tender on their behalf. The specified term for this service was 1 year commencing Monday, 4th April 2022 with the option to further extend by up to 5 years maximum depending on Welsh Government's requirement. The service will be fully funded via a specific TrawsCymru service grant.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** Long-term: The supply of good quality public transport using supported local bus services to help plug gaps in the local commercial network will assist the Council's plans to locally address the Climate Change Emergency and realise a net-zero carbon future.
- 3.2** Integration: The provision of supported local bus services integrates with the commercial network to help plug gaps in the local public transport network, enabling it to be more holistic for the wider community and its passenger

transport requirements for access to services, employment, education, health facilities, shops and social events etc.

- 3.3** Involvement: The provision of supported local bus services are required by many within the local community and visitors to the area. The timetables and routes of supported service provision is often the outcome of continued consideration of service requests and requirements proposed by users/potential users.
- 3.4** Collaboration: The provision of supported local bus services is often as a result of collaboration between the Council, Welsh Government and service operators/suppliers, especially when it comes to plugging gaps within commercial networks.
- 3.5** Understanding Root Causes of Issues and Prevention: Commercial service provision often leave gaps in service provision depending on area, day and or time of day, as the most profitable/viable areas/times are served leaving the non-profitable/non-viable areas/times void of service provision. The Council's ability to intervene and supply supported local bus services in such areas and/or on such days and times, but with regard to budget, prevents the exclusion of many from being connected to the wider community due to lack of service provision.

4. Resources and Legal Considerations

Financial

- 4.1** Procurement for the new term specific supported local bus service contracts was undertaken as an open tender via the Sell2Wales procurement portal.
- 4.2** Evaluation of tender submissions via the Sell2Wales procurement portal was undertaken by Officers in line with pre-determined guidance as indicated on the tender notice.
- 4.3** The Council's supported local bus services budget and the Bus Service Support Grant (BSSG) that the Council receives from Welsh Government are used to fund this bus service provision.
- 4.4** In 2021/22 the Council received £380,490 in BSSG and it assumed the grant will remain the same for the 2022/23 financial year.
- 4.5** In addition, the Council has an agreement with neighbouring local authorities that they will financially support most services that "cross borders". This is worked out on a mileage basis and is reflected in the table below for 2021-22. Each year this is recalculated to reflect any timetable changes and will be undertaken for the revised 2022-23 services.

- 4.6** The supported local bus services budget in 2021/22 was £380,621 and in 2022/23 it is £471,121 with another £12,086.62 required to ensure all services can be funded until March 2023.
- 4.7** With a total budget of £863,398 and cross boundary income from neighbouring authorities of £100,808.70, the full amount to spend on bus services is £964,206.70.
- 4.8** The current total cost of the supported bus services is £976,293.32. This leaves a deficit of £12,086.62 which will be funded from within other Transport Services Budgets.
- 4.9** The individual prices for each local bus service, and budgets that they are funded from, are detailed in the Part II report later on this agenda.

Employment

- 4.10** There are no internal employment implications to consider.
- 4.11** Access to good public transport information will assist access to employment using sustainable transport options.
- 4.12** Successful operators being awarded new contracts will have to consider any requests of staff affected by the change in contract supplier under TUPE employment regulations, but no such issues are expected.

Legal (Including Equalities)

- 4.13** Award of all new contracts for the Supported Local Bus Services will be appropriately progressed by the Council's Legal team.
- 4.14** Services procured are available for use by all members of society.
- 4.15** Vehicle specifications need to be in line with those prescribed by 'Disabled Persons Transport Advisory Committee' (DiPTAC) and required under the Disabilities Act.
- 4.16** It is a requirement of contract terms and conditions that service information produced by suppliers will be bilingual in both Welsh and English.
