

Meeting of:	Cabinet
Date of Meeting:	Thursday, 29 September 2022
Relevant Scrutiny Committee:	Corporate Performance and Resources
Report Title:	Strategic Collaborative Working Initiatives Update
Purpose of Report:	To provide an update for Cabinet on the Council's strategic collaborative working initiatives
Report Owner:	Executive Leader and Cabinet Member for Performance and Resources
Responsible Officer:	Tom Bowring, Director of Corporate Resources
Elected Member and Officer Consultation:	Due to the corporate nature of this report, no ward Member consultation has been undertaken. The development of individual initiatives is subject to appropriate consultation activity.
Policy Framework:	This is a matter for executive decision by Cabinet.
<p>Executive Summary:</p> <ul style="list-style-type: none"> • Collaborative working activity has increased at pace in response to the challenging financial climate and in recognition of the value that working in partnership to share skills, expertise and experience can have in tackling complex issues. This has been particularly accelerated in the recent past in response to the Coronavirus pandemic. • The Compendium of Strategic Working Initiatives (Appendix A) provides an oversight of the strategic level collaborative working activity in which the Council is involved and captures the detail of the various initiatives underway. • This report provides Cabinet with the six-monthly update on strategic collaborative working initiatives and captures relevant progress against initiatives. 	

Recommendations

1. That Cabinet considers the strategic collaborative working initiatives that are in place to support the delivery and development of Council services and the Council's well-being outcomes and objectives.
2. That this report be circulated by e-mail to all Vale of Glamorgan Council elected Members and members of the Public Services Board for their information.

Reasons for Recommendations

1. To provide Cabinet with an update of strategic collaborative working initiatives.
2. To provide elected Members and strategic partners with an overview of strategic collaborative working initiatives.

1. Background

- 1.1 The Council has long recognised the value that collaborative working has in providing efficient and effective services to residents.
- 1.2 In recent years, collaborative working activity has increased at pace in response to the challenging financial climate and also in recognition of the value that working in partnership to share skills, expertise and experience can have in tackling increasingly complex issues. These activities also contribute to the Council's well-being outcomes and objectives.
- 1.3 To capture the collaborative work in which the Council is involved the Compendium of Strategic Collaborative Working Initiatives was developed and has been reported quarterly to Cabinet since April 2017. As these collaborative activities have progressed, many have transitioned from 'project' based partnership work to core Council business. Reflecting these changes, on the 27th September 2021 Cabinet agreed to remove a number of initiatives which are now part of core Council business and to move to six-monthly reports rather than quarterly updates.
- 1.4 This report provides an update on those collaborative working initiatives that have been subject to significant changes since the presentation of the last update to Cabinet in September 2021.

2. Key Issues for Consideration

- 2.1 In April 2022 the Vale of Glamorgan Public Services Board published its second Well-being Assessment. A number of key themes were identified through the assessment, including: Climate Change and nature, Deprivation and inequalities, Access to services for rural communities and making the Vale a good place to grow old for our aging population. These findings are now informing the development of the new Well-being Plan which will be published in 2023. A report on the Well-being Plan will be presented to Cabinet in due course.

Updates

- 2.2** The Test, Trace, Protect (TTP) Joint Board and Incident Management Team (IMT) was established across Cardiff and the Vale of Glamorgan under the Coronavirus Control Plan. The TTP and IMT maintained a regular review of coronavirus transmission across the Cardiff and Vale of Glamorgan region and made recommendations and approaches to Welsh Government. Following the roll-back of all restrictions across Wales, both the TTP and IMT have now been stood down and in their place the Amplifying Prevention Delivery Board has been established. The focus of Amplifying Prevention is on combatting identified health inequities that are evident across Cardiff and the Vale of Glamorgan and which grown as a result of the pandemic. The chosen inequities for initial focus of the Board are: childhood immunisations, bowel screening, and the delivery of the Move More, Eat Well programme. The work of the Board responds to the issues raised through the Vale PSB's Well-being Assessment and the Cardiff and Vale Regional Partnership Board's (RPB) Population Needs Assessment. Work taken forward by the Board will align with the priorities set out in the Vale of Glamorgan PSB's Well-being Plan and the Cardiff and Vale RPB's Area Plan. Progress on delivering Amplifying Prevention will be reported through both the PSB and RPB as appropriate. As a result of the establishment of the Amplifying Prevention Delivery Board in place of the TTP and IMT; the Amplifying Prevention Board has replaced TTP and IMT on the Compendium.
- 2.3** The 2021 Local Government and Elections Act was passed on 20th January, 2021 and provides for the establishment of a new and reformed legislative framework for local government elections, democracy, governance and performance. Work is underway as part of this Act to introduce Corporate Joint Committees. A report to Council of 24th January, 2022 set out how the Welsh Government's South East Wales Corporate Joint Committee Regulations 2021 establish a Corporate Joint Committee (CJC) for the ten Councils that constitute the Cardiff Capital Region together with the Brecon Beacons National Park Authority. The recommendations approved by Council made provision for the adoption of an interim governance and delivery model for implementation of the South East Wales Corporate Joint Committee and the 'twin track' arrangements proposed across operation of Cardiff Capital Region City Deal, alongside initial enactment of a 'bare minimum' CJC. The inaugural meeting of the SE Wales CJC was held on the 31st January, 2022. As part of the introduction of the Act, the Council continues to respond to consultations relating to the legislation and statutory guidance accompanying it.

3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1** In working to deliver the strategic collaborative working initiatives set out in the Compendium, the Council will be working through the Five Ways of Working to ensure delivery in line with Sustainable Development Principle.

3.2 The Compendium of Strategic Collaborative Working Initiatives illustrates how each element of collaborative working aligns with the Council's Well-being Objectives as set in its Corporate Plan. The collaborative working represented in these initiatives is identified as one of the key ways of working to support the Council's work in delivering the Well-being of Future Generations (Wales) Act 2015. One of the identified initiatives in the Compendium is the Vale of Glamorgan Public Services Board (PSB) which was established through the Act and of which the Council is a statutory member. Through its Well-being Plan, the PSB is working to improve the social, cultural, economic and environmental well-being of the Vale of Glamorgan. Similarly, the Integrated Care Fund, The Regional Collaborative Group and the Welsh Community Care Information Service initiatives are assisting in meeting the requirements of the Social Services and Well-being (Wales) Act 2014.

4. Climate Change and Nature Implications

4.1 Many of the initiatives included in the Compendium of Collaboration are aiding the authority's high-level response to the climate and nature emergencies. Through strategic collaborations such as the Cardiff Capital City Region and the Public Services Board a number of key projects are being delivered which will help towards the delivery of a carbon neutral public sector by 2030 and protect and enhance biodiversity in the county.

5. Resources and Legal Considerations

Financial

5.1 There are no financial implications arising as a direct result of this report

Employment

5.2 There are no employment implications arising as a direct result of this report.

Legal (Including Equalities)

5.3 There are no direct legal implications arising from this report.
