

Name of Committee:	Cabinet
Date of Meeting:	16/11/2023
Relevant Scrutiny Committee:	Corporate Performance and Resources
Report Title:	Q2 Sickness Absence Report 2023/2024
Purpose of Report:	To update Members of the Cabinet on the sickness absence statistics for 1st April, 2023 to 30th September, 2023
Report Owner:	Executive Leader and Cabinet Member for Performance and Resources
Responsible Officer:	Rob Thomas – Chief Executive
Elected Member and Officer Consultation:	The overall sickness absence figures are reported quarterly through the Corporate Performance Indicators
Policy Framework:	This is a matter for Executive decision by the Cabinet

Executive Summary:

- The report sets out the sickness absence figures for the period 1st April, 2023 to 30th September, 2023 as part of the agreed performance management arrangements.
- Absence figures have improved based on the same period as last year.
- The previous year (2022/2023) saw increased levels of absence, this was due to coming out of the pandemic and absence increasing across all organisation groups including the public sector.

# 1. Recommendations

- **1.1** That the report and the April 2023 to September 2023 sickness absence figures provided in Appendix A be noted.
- **1.2** That the report be referred to Corporate Performance and Resources Scrutiny Committee for consideration, with any comments referred back to Cabinet for further consideration.

# 2. Reasons for Recommendations

**2.1** To bring matters to the attention of Members of the Cabinet in line with corporate objectives.

**2.2** To enable the Scrutiny Committee to maintain a continued focus on the management of sickness absence throughout all services of the Council and to make recommendations to Cabinet, as appropriate.

## 3. Background

- **3.1** The levels of sickness absence within the Council are reported to Cabinet every six months.
- **3.2** This report sets out the sickness absence information for the period 1st April, 2023 to 30th September, 2023, including corporate and school employees. It also includes details of sickness absence figures for previous years for comparison.
- **3.3** This report acknowledges the work and commitment of all managers, employees and trade union colleagues in relation to the continual management of sickness absence.

## 4. Impact of Covid-19 Pandemic

- **4.1** Although Covid-19 restriction are now lifted, the overall absence rates compared to previous years had started to rise, and this was apparent in the outturn figures for 2022/23.
- **4.2** A number of initiatives have been introduced by the Council to manage the key drivers in tackling presenteeism, such as improving digital applications/access, lifestyle and wellbeing programmes and managing the use of annual leave. Line managers are always instrumental in looking after employee health and wellbeing.
- **4.3** The Council considers it very important that staff are given the support they require and we are working with colleagues within Health & Safety, Occupational Health and Organisational Development & Learning to support our staff who are working from home. Support is also provided to staff that have continued to work in the front line, especially in our Waste, Social Care and Schools teams.
- **4.4** The Human Resources Business Partnership team continues to work closely with Occupational Health and Managers on an individual case management basis and the prompt action of Managers is prioritised to keep absences within target. A new HRBP dashboard has been created to assist with the monitoring of absences within services.
- **4.5** Members will be aware that in all cases of stress or anxiety, employees are automatically referred to occupational health for advice, offered counselling support and managers are offered training and support in completing stress risk assessments. A revised Mental Health & Wellbeing Policy incorporates detailed advice and guidance as well as the responsibilities of managers, Occupational Health and staff in recognising and dealing with stress. The policy also provides clear expectations in responding to issues of stress and associated mental health issues.

**4.6** The Vale of Glamorgan Council have now ended their association with Care Firsts Employee Assistance Programme (EAP) in relation to providing a 24-hour advice line for staff. A new provider has been sourced in Westfield Health and arrangements for this new advice line to be put in place are being made and it is hopeful this will begin on 1st November, 2023. Whilst the transition to the service is carried out, staff can contact our Occupational Health Unit with any queries or concerns.

## 5. Positive Health Promotion

Work is continuing to develop positive health support as follows:-

- 5.1 Flu vaccinations are again being delivered, both corporately and in Schools/Residential Settings during October and November 2023. Take up has been very good across the organisation, and is likely that all vaccines will be used up.
- **5.2** A new Occupational Health booking system is currently being implemented with a view to roll out by 1st November, 2023, which will enable administration time of the nurses and doctors to be reduced, and will thereby provide a more efficient and streamlined process within the Occupational Health Unit.
- 5.3 The Occupational Health Department is intending to offer Wellbeing/Health Screening to all employees (subject to other work commitments). This includes height, weight, BMI, Blood Pressure, Cholesterol and Blood Sugar Tests. Appointments, when available, can be made via contacting Occupational Health (OH). Alternatively, employees can contact the OH Department directly to book an appointment. Wellbeing appointments are also available, these can be booked by contacting OH Admin.
- 5.4 An extended Wellbeing package was rolled out to all employees across the Council from November 2020 focusing on physical, mental and financial wellbeing. This includes online virtual fitness sessions, yoga and stretching in addition to sessions on mindfulness, resilience and coping at times of change. This has continued during the last 6 months with activities promoted to staff. It is important that these activities continue for the foreseeable future and become part of the general wellbeing support for employees across the Council.
- **5.5** The Health, Safety and Wellbeing (HSW) team promote, monitor and review workstation assessments for all staff whether they are working from home, a council building or elsewhere. The Display Screen Equipment and Eye test procedures has recently been updated to support this work.
- **5.6** The Council's Stress Management Procedures have been updated so that they can be more effectively monitored and managed, and staff can access the support that they need. To date this system is working well with some staff not requiring stress risk assessments as these are about work-related issues but

being sign posted to well-being action plans to support health and home related issues.

- **5.7** In addition the HSW Team and Occupational health team have commenced a joint piece of work to normalise menopause across the Council following attendance of a menopause conference provided by Senedd insight. Menopause drop-in sessions are also available via Occupational health
- **5.8** The Council now has nearly 40 trained (via Time to Change Wales) mental health champions whose primary role involves:
  - Promoting health campaigns e.g. World Mental Health Day.
  - Encouraging colleagues to participate in the Council's wellbeing initiatives / challenges.
  - Involvement in events and collaborative working with other Champions across the Council and other organisations.
  - Role modelling and promoting a healthy culture within the workplace.
  - Organising activities which will now take place online, such as online Yoga classes.
  - Signposting colleagues to relevant services
  - **5.9** A full report containing the breakdown of sickness absence levels per FTE across all Directorates and services continues to be reviewed by the Council's Strategic Leadership Team each quarter and any required action is taken. The main performance management elements of the management of sickness absence is set out below:-
    - All Directorates continue to review absence levels within Directorate management Teams on a monthly basis and in accordance with a service-based action plan.
    - The focus on absence has been based on the scrutiny of priority absence reports within each directorate and service area. This has been helpful in focusing attention and support on particular absence cases.
    - Long-term absence cases continue to be dealt with on an individual case management basis. Human Resource Business Partners work closely with managers to maintain communication with employees, along with Occupational Health, to support employees' wellbeing and their return to work.
    - The management of sickness absence continues to be a high priority for the Council and an important 'Corporate Health' indicator.
    - Absence information is now input directly into fusion, and therefore, real time data is available to HR and Managers, including schools.

# 6. Appendices for Consideration

6.1 Appendix A – Breakdown of Absence by Service Area

6.2 Appendix B – Overall Sickness Rates

The total days/shifts lost per FTE for the period April 2023 to September 2023 indicate a decrease in absence levels compared to same period in 2022 and 2021.

All directorates are above their target figures except for Learning and Skills and Place in relation to days lost per FTE.

Stress (non-work related) continues to be the most common reason for sickness absence at 24%. This is followed by Musculoskeletal (16%) and Viral Infections (14%). Viral infection is the highest reason for short term absence (25%). Stress (non-work related) continues to be the most common long term reason for sickness absence (29%).

6.3 Appendix C – Sickness Breakdown by Directorate

Data showing the top 5 reasons for sickness absence for each Directorate, including the breakdown of reason for stress related absence.

6.4 Appendix D – Sickness by Age

# 7. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

7.1 Long Term

Sickness reporting is reportable as part of the Public Accountability Measures (PAM's) which has been developed by the WLGA led task and finish group. It demonstrates how authorities are contributing to the well-being goals. Sickness has been identified as contributing to a Prosperous Wales and Healthier Wales. Reporting accurate data will help the Council account for future trends and the need to undertake regular reviews of the policies that impact on sickness rates

7.2 Prevention

The management of sickness absence together with wellbeing initiatives will help support service delivery including the meeting of corporate / service objectives

7.3 Integration

The management of absence identifies a range of issues that affect all areas of the Council's workforce. The objectives aim to identify what can be achieved when absence is managed effectively.

## 7.4 Collaboration

A key factor in managing sickness absence is the support from Corporate Management Team, Managers, HR, Occupational Health and Trade Unions.

#### 7.5 Involvement

Regular reporting and management of absence ensures that we are open and

transparent in relation to our approach to sickness absence. Any changes to the Attendance and Wellbeing Policy will be subject to the usual consultation process with Cabinet, Scrutiny, Managers and Trade Unions.

# 8. Climate Change and Nature Implications

- 8.1 Human activity is cited as the main cause of climate change, but organisations also contribute significantly, with businesses contributing 17% of the greenhouse gas emissions in the UK in 2019. Organisations emit greenhouse gases through their energy and resource use, transport and travel, waste management and supply chain.
- **8.2** HR practitioners are in a unique position due to their connections across their organisations, through their roles and the requirement to engage with all levels, disciplines and sectors. Every employee will have contact with aspects of HR throughout their employment through to the point at which they leave.
- **8.3** HR practitioners have the potential to play a significant leadership role in implementing all aspects of environmental sustainability through policies and procedures relating to.
  - recruitment and selection
  - performance management
  - learning and development
  - leadership and engagement.
- **8.4** The values of the Council include environmental sustainability, the culture of the organisation is formed when these values are put into action. For HR practitioners, this means the integration of environmental sustainability throughout all of our policies, procedures and practices, and then clearly articulating this to all stakeholders.

# 9. Resources and Legal Considerations

## **Financial**

**9.1** The need to continue to maintain reasonable levels of absence will be important as the Council responds to ongoing financial pressures.

## **Employment**

**9.2** The incidence of high levels of absence has significant resource implications and places constraints on the continued delivery of high-quality service provision.

# Legal (Including Equalities)

**9.3** All legal implications including the Equality Act, Human Rights Act and General Data Protection Regulations have been considered within the implementation of policy provisions.

#### Appendix A - Sickness Absence Breakdown by Service Area (2023/24)

Period 01-APR	IL-2023 to 30-SEP-2023						Q2 COM	PARISON

Rates

# **Overall Sickness Rates**

The overall sickness absence rates [i.e. working time lost per Full Time Equivalent (FTE)] for 1st April 2023 to 30<sup>th</sup> September 2023 are set out in the table below with comparative data for the same period in 2021/2022 and 2022/2023.

Total days / shifts lost per FTE (total days lost)	April to March	April to March							
	2021/2022	2022/2023	2023/2024	2023 Q2					
Environment & Housing	6.05 (4041)	7.11 (4790)	6.38 (4383)	5.29					
Learning and Skills	4.05 (818)	3.81 (791)	2.57 (565)	4.05					
Corporate Resources	4.66 (1947)	5.31 (1735)	2.88 (952)	2.23					
Place	0.53 (91)	0.86 (74)	1.49 (143)	2.23					
Social Services	8.47 (5074)	9.71 (6131)	6.36 (4249)	6.76					
Corporate Total - excluding Schools	6.30 (11879)	7.02 (13522)	5.14 (10291)	4.83					
Schools	3.48 (6059)	4.65 (8491)	3.75 (7830)	3.37					
Total Absence	4.95 (17939)	5.87 (22013)	4.43 (18121)	4.15					

A more detailed breakdown of absence in each Service area is included within Appendix A.

### Rates

The following table shows a breakdown of each month in Quarter 2 for 2021 / 2022 / 2023. The figures show lower days lost in 2023 compared to 2022 and 2021, which is encouraging.

Number of					
	Days	Number of	Days	Number of	Days
Absences	Lost	Absences	Lost	Absences	Lost
432	2983	504	3317	372	2959
470	3241	555	3635	457	3369
465	3146	495	3631	418	3409
388	3006	709	4389	460	3031
233	2703	303	3254	252	2636

	432 470 465 388 233	432 2983   470 3241   465 3146   388 3006   233 2703   390 2860	432 2983 504   470 3241 555   465 3146 495   388 3006 709   233 2703 303   390 2860 480	432   2983   504   3317     470   3241   555   3635     465   3146   495   3631     388   3006   709   4389     233   2703   303   3254     390   2860   480   3792	432298350433173724703241555363545746531464953631418388300670943894602332703303325425239028604803792554

\* Reported at Q2

Number of Absences = Number of Absent Employees in each individual month (i.e. an absence 15th April to 2nd June will be reported in April / May / June respectively)

Days Lost = this is the total days lost in each individual month

Rates

The reasons for sickness absence across the authority (including in Schools) over the period April 2023 to September 2023 are listed in the below table compared to 2021 and 2022. The figures include both the total FTE days lost and percentages.

In reference to the length of absence, members will note from the below table that 76% of all absence are categorised as long term (i.e. over 4 weeks in duration), compared with 24% short term absence.

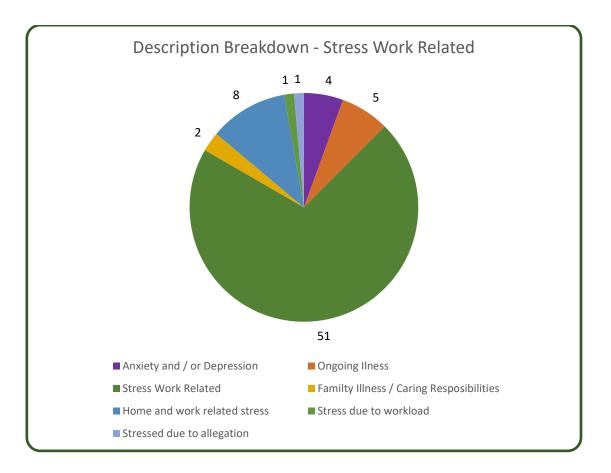

Note that the percentages are added up separately for the short-term, long term and total absences. Due to the fact that short-term absence is 24% of absence, the total of short-term and long term won't add up to the total percentage figure. This is also the case for the Directorate tables on the following pages.

Days Lost (%)	Short T	erm		Long Te	erm		Total Absence		
Absence Reason	2021	2022	2023	2021	2022	2023	2021	2022	2023

In a recent CIPD report which was published in September 2023, it states that there is a UK wide increase in absence rates are the highest in a decade, with an increase of an additional 2 days per FTE than that in 2019.

This correlates with the overall absence for the Council, as in 2019/20 it was 10.51 FTE days lost, and in 2022/23 it increased to 12.8 FTE days lost.

#### Sickness Breakdowns by Directorate

#### Environment and Housing - Top 5 Reasons - April 2023 to September 2023

The Top 5 reasons for Environment and Housing show that Stress - Non Work Related has become the highest reported reason for absence in Q2 for 2023/24 (24.3%). It can be noted that this is based on an increase in long term sickness related to this absence type.

Days Lost (%)	Short T	erm		Long Te	Long Term			Total Absence
