**SALE AND USE OF FIREWORKS**

RSPCA Cymru has called for restrictions regarding the sale and use of fireworks because of the impact of loud noises upon animals.

These include:

- to require all public firework displays within the local authority boundaries to be advertised in advance of the event, allowing residents to take precautions for their animals and vulnerable people;
- to actively promote a public awareness campaign about the impact of fireworks on animal welfare and vulnerable people – including the precautions that can be taken to mitigate risks;
- to write to the UK Government urging them to introduce legislation to limit the maximum noise level of fireworks to 90dB for those sold to the public for private displays;
- to encourage local suppliers of fireworks to stock ‘quieter’ fireworks for public display.

Will the Council agree to take action and adopt these measures?

**SUPPLEMENTARY PLANNING GUIDANCE**

Could the Cabinet Member provide clarity over the use of Supplementary Planning Guidance (SPG) by planning officers in conservation areas?

Officers have previously said that the SPG for the Garden Suburb, Barry was in place for development control / management purposes. When asked why the SPG was not being used to control changes to buildings in the conservation area, officers stated that "permitted rights" allows for changes to buildings without a planning application being made and that the SPG is not a relevant consideration.

Why is the planning department refusing to use their own Supplementary Planning Guidance?
