PUBLIC TRANSPORT CONNECTIVITY TO ST ATHAN

The Council's own Replacement Local Development Plan identifies St Athan as a key location for employment growth, alongside the continued development of Bro Tathan and the proposed Aberthaw Green Energy Park. It also records that a feasibility study for a new railway station at St Athan has been completed and that the Council is working with stakeholders to secure a commitment for the station.

The Council now has an indicative **£3.63 million Local Growth Fund allocation for 2026/27**, with strategic infrastructure and investment aligned with Regional Transport Plans identified as a principal priority.

I recognise that the Council may not have decided which individual projects will receive funding. **But that cannot be the end of the answer.**

What specific work is the Council undertaking now to ensure that improved public transport connectivity to St Athan — including the proposed railway station — is developed into a fundable project and put forward for consideration?
