Dear Sir/Madam

Re: Objection to late licence of the St Fagans Castle, Penarth

My wife and I have lived directly opposite the St Fagan for 2 years now. The music from the disco every Friday and Saturday night has never given us any issues. The music can be heard, but is no way disruptive.

As my wife and I are probably one of the St Fagans closest neighbours, I believe if there was any disruption caused we would be the first to notice.

Dear sir/madam,

Here is my reference to the discos in the st fagans castle on a Friday and Saturday, I live at Ludlow street, travellers chambers in penarth a 10 second walk away,

I am just writing to you to let you know that the level of volume coming from the building is only background noise weekends I start work at 6am so my sleep is important to me but I can still fall asleep with no worries and without disturbance.

Kind regards

Jake Simmons.

Dear sir/madam,

With reference to the discos in the st fagans castle on the weekends, I am a resident of Ludlow street, travellers chambers in penarth a few doors up from the business.

I'm just letting you know that I do not have a problem with the level of volume coming from the premises. it is only background noise that I can hardly hear. It does not affect my daily life, I can still sleep at night as it does not affect me.

Kind regards
Dean Hotchkiss.
