VALE of GLAMORGAN COUNCIL SERVICE PLAN

2018-2022

Service Area	Regeneration and Planning
Head of Service	Marcus Goldsworthy
Director	Rob Thomas
Cabinet Member	Cllr. Jonathan Bird Cabinet Member for Regeneration and Planning
Scrutiny Committee	Environment and Regeneration Homes and Safe Communities Learning and Culture

1. Introduction

The Regeneration and Planning Service forms part of the Resources Directorate. The Directorate also provides a range of support services including Human Resources, Legal Services and Finance.

1.1 About our Service – Regeneration and Planning

The Regeneration and Planning Service seeks to manage new developments, secure investment and regeneration activity and promote the Vale of Glamorgan as a visitor destination. We aim to promote sustainable and appropriate new development and to make a real difference through regeneration activity by providing people with access to employment, facilities and the opportunity to improve their quality of life.

Our broad functions are:

- **Building Control** administers and enforces Building Regulations to safeguard the health and safety of people in and around buildings and to ensure sustainable energy efficient development.
- **Development Management, including the Planning Policy and Conservation and Design teams** prepare and maintain the Councils statutory Development Plan and manage the development and use of land and buildings in the public interest to ensure that development takes place in accordance with the Plan. The team also provides advice and information to developers and members of the public on a range of national and local planning matters; deal with planning appeals and the enforcement of planning and heritage legislation.
- Through **Urban and Rural Regeneration** activity we strive to make a real difference to residents of the Vale of Glamorgan. This includes providing opportunities for economic growth, job creation and community well-being. We strive to build capacity in communities to regenerate themselves and provide sustainably for their own needs and provide incentives for increasing and improving the housing stock. We continue to work towards implementing the LEADER strand of the Wales Rural Development Plan 2014-2020, the management of renewal areas, disabled facilities grants and administering Welsh Government funded programmes aimed at improving the prosperity, health and learning of residents who live in specific areas including Barry Communities First. Going forward the service will see two new programmes replacing Communities First; Communities for Work Plus and Legacy. A replacement for the Vibrant Viable Places programme known as Targeted Regeneration Investment (TRI) will also be delivered by the Council through Welsh Government funding and will begin in 2018/19.
- The **Project Management Unit** provides an overall managed service for the delivery of major projects across multiple service areas.
- **The Countryside Service** acts to enhance and effectively manage the countryside and coastal areas in the Vale of Glamorgan by looking after our unique natural assets which include two county parks and the Glamorgan Heritage Coast Project. We also seek to promote the public enjoyment and understanding of the countryside and work with others to improve our physical environment. This team includes Public Rights of Way, Ecology/Biodiversity and landscape design.
- **Tourism and Marketing** seeks to support the local tourism industry and promote tourism, which is recognised as an important source of new jobs, enabling economic diversification, protecting the local heritage and environment, and providing benefits to the local community. The Team

seeks to create an attractive tourism destination with a positive image for the Vale of Glamorgan, capitalising on the Heritage Coast and the proximity to Cardiff, encouraging sustainable development and quality facilities to enrich the experience for visitors and residents and promote the Vale of Glamorgan as a major stay and day visitor destination for tourists in the area.

1.2 The Purpose of Our Service Plan

This plan identifies how we will contribute towards achieving the Council’s vision – ‘**Strong Communities with a bright future**’.

Our service plan outlines our key priorities for the next four years and how we will manage our resources to deliver these. The plan gives an overview of our service, what we aim to achieve, why this is important, how we will achieve it, how we will monitor progress and what success will look like.

It is important that as a Council we have shared values and our service is committed to delivering its priorities within the context of the Council’s core values:

- **Ambitious:** Forward thinking, embracing new styles of working and investing in our future.
- **Open:** Open to different ideas and being accountable for the decisions we take.
- **Together:** Working together as a team that engages with our customers and partners, respects diversity and is committed to quality services.
- **Proud:** Proud of the Vale of Glamorgan: proud to service our communities and to be part of the Vale of Glamorgan Council.

Our Council’s priorities are contained in the Corporate Plan 2016-20 and are expressed as well-being outcomes and objectives. These have been decided upon following consultation with key stakeholders including citizens of the Vale of Glamorgan. Our well-being outcomes and objectives are:

Well-Being Outcome	An Inclusive and Safe Vale	An Environmentally Responsible and Prosperous Vale	An Aspirational and Culturally Vibrant Vale	An Active and Healthy Vale
Well-Being Objective	Reducing poverty and social exclusion	Promoting regeneration, economic growth and employment.	Raising overall standards of achievement.	Encouraging and promoting active and healthy lifestyles.
Well-Being Objective	Providing decent homes and safe communities	Promoting sustainable development and protecting our environment.	Valuing culture and diversity	Safeguarding those who are vulnerable and promoting independent living.

The well-being objectives illustrate the contribution Council services will make to achieving the Well-being Goals for Wales. The Well-being Goals have been established to ensure all relevant bodies in Wales are working towards the same vision as part of the Well-Being of Future Generations (Wales) Act 2015. The Act is about improving the social, economic, environmental and cultural well-being of Wales. The Act is intended to make public bodies think more about the long-term, work better with people and communities and each other, look to prevent problems and take a more joined-up approach. The contribution our service will make to the well-being goals is highlighted throughout our service plan.

Developing Our Plan

Our planned actions are set for one financial year and are informed by and reflects the environment within which our service operates. As well as contributing to the well-being outcomes and objectives from our Corporate Plan, our service has taken the following into consideration when drafting our plan:

- The Directorate's Annual Self-Assessment 2017/19 which provides an overall position statement for the year based on specific issues relating to performance, customer experience, and the use of resources (workforce, financial, ICT and assets);
- Our revenue budget including planned service savings and efficiencies and the implementation of the Council's Reshaping Services Change Programme;
- The availability of internal Capital budget as well as external funding sources;
- The Development Management Annual Performance Review required to be submitted by Welsh Government along with quarterly surveys is also used to assess performances of the Department having regard to other Welsh Councils.

1.3 How We Work - Sustainable Development

The Well-being of Future Generations (Wales) Act puts in place a 'sustainable development principle' which tells organisations how to go about meeting their duty under the Act:

"You must act in a manner which seeks to ensure that the needs of the present are met without compromising the ability of future generations to meet their own needs, by taking account of the sustainable development principle".

The sustainable development principle means considering how actions are taken to support continuous improvement by:

- Looking to the **long term** – for us this means planning for the future and taking a strategic approach to ensure services are sustainable and that we understand the future need and demand for services.
- Taking an **integrated** approach – for us this means thinking about the needs of our customers and working with our partners.
- **Involving** the population in decisions – for us this means engaging with our residents and customers, including the business community and ensuring that we are listening to a wide range of views to inform our thinking.
- Working in a **collaborative** way – for us this means recognising we can achieve more and deliver better services by working as part of a team, for example by working with the Third Sector, Town and Community Councils and neighbouring authorities.
- Understanding the root causes of issues and **preventing** them – for us this means being proactive in our thinking and understanding the need to tackle problems at source for example by undertaking needs assessments to inform our priorities.

In response our Corporate Plan 2016-20 has reflected on the ways of working ensuring that it is consistent with our approach to planning for the future. These considerations are also reflected in the actions we will take as a service to deliver the Council's priorities.

2.2. Integrated Planning Priorities

Our service is committed to maximising the use of resources so that we can deliver sustainable and cost effective services that best meet people's needs. In order to achieve this, we have identified a series of priorities 'enabling actions' that will support us in delivering the key outcomes identified in our Corporate Plan. The key areas of focus for our service over the next four years will be:

Ref	Action
CP1	Deliver the Council's transformational change programme, Reshaping Services, to enable it to meet the future needs of citizens of the Vale of Glamorgan within the context of unprecedented financial challenges (2019/20).
CP2	Align the workforce plan to the Reshaping Services strategy ensuring staff have the necessary skills and training to adapt to the changes in how services are planned and delivered (2017/18).

Deliver our key workforce development priorities for the coming year as outlined in Appendix B.

Appendix A contains the detailed plan which outlines the actions we will undertake in the coming year to deliver our Year 3 (2018/19) priorities for the Corporate Plan.

Appendix B outlines the 'enabling' actions we will undertake to maximise the use of our resources to enable us to deliver our priorities for the same year.

3.2. Managing Our Resources to Deliver Our Priorities

The following sets out how we will manage our resources to achieve the actions in our Service Plan and support our service.

Integrated Planning

We are committed to maximising the use of our resources so that we can deliver sustainable and cost effective services that best meet people’s needs. For 2018-19, we have identified a series of ‘enabling actions’ that will support us to deliver our priorities for Year 3 of the Corporate Plan and contribute towards the Corporate Plan Well-being Outcomes.

This section provides a summary of these actions, outlining how we will use our resources (including our workforce, ICT, finance, assets and customer insight) and manage identified risks in order to deliver planned improvement.

Workforce Development

Key Service Statistics 2016/17						
Average headcount 2016/17	FTE 2016/17	Average days sick		Average days sickness per FTE	Turnover (no of leavers)	#itsaboutme completion rate (%)
		Long term	Short term			
110.5	99.87	3.75	1.77	5.52	16 (14.48%)	95%

During 2016/17 95% of #itsaboutme appraisals were completed by the Regeneration and Planning Service.

The key workforce issues impacting on the service are as follows:

- Managing sickness absence rates will be an area of development within the service area. Based on current data at Q2, 2017, 9.92 days per FTE have been lost to sickness absence which is an increase on the same period last year (3.54 FTE). This figure is higher than the directorate target of 5.8 FTE and above the corporate target of 8.9 FTE. Unfortunately the Department has had a number of incidences of long term sickness due in the main to chronic illness which is very difficult to control.
- The Regeneration & Planning workforce has remained fairly static, with fairly low levels of turnover. As at September 2017, the service had an establishment of 109 FTEs compared to 107 FTEs at the same time period in 2016. Through continuing to focus our efforts on succession planning and encouraging the cross-skilling across teams we can continue to ensure there is resilience within the workforce.
- As at September 2017 the age profile of the service was as follows: [3% (65+); 19% (55-64); 30% (45-54); 23% (35-44); 19% (25-34) and 6% (16-24)] and therefore a good mix of age ranges across the service. To ensure succession planning for the future, we have recognised the need to recruit more 16-24 year olds and we are investigating apprenticeship opportunities.
- There continues to be a need to focus on developing skillsets within the division that enables us to effectively support the change management process of the Reshaping Services agenda.

It is important for that we continue to maintain and develop the workforce to meet future service needs, both in terms of the numbers employed and the skills and competencies required of those employees. It remains a priority for the Regeneration and Planning Service to continue to support staff development and succession planning despite the pressures of budget and staffing reductions.

Our key workforce development priorities for the coming year are:

- Develop capacity within specialist areas in order to increase service resilience.
- Implement succession planning initiatives to address hard to recruit service areas within the service with an emphasis on developing career pathways.
- Ensure staff are supported to develop the broad skillset required to support new ways of working in a variety of contexts and settings.
- Develop managers' skills to increase resilience and flexibility and to lead teams through future changes that will be required.
- Continue to focus on reducing long term sickness absence rates across the service through effective application of the Corporate Absence Management Policy. Identify the critical posts to the business as well as areas where recruitment difficulties exist in order to explore options to target recruitment more effectively and recruit to vacant positions.
- Consider the opportunities for regional working to improve resilience and skill sets.
- Investigate apprenticeship opportunities.

ICT

In line with corporate direction we continue to use ICT to work smarter and more flexibly through exploring new ways of working digitally and investing in new technologies. Our ICT priorities for 2018/19 outlined below reflect our continuing commitment to working smarter and more flexibly in line with the Council's Digital Strategy.

- We will continue to develop opportunities for innovative ICT based technical mobile working practices including remote and out of office working.
- Implement the alternative option for FLARE.
- Working towards a paperless office.

Finance

The estimated base budget for our service area for 2018/19 is £3,525,000 and the planned improvement activities for 2018/19 focus on delivering the in-year savings identified for the service. The service also faces cost pressures in 2018/19 totalling £88,000 in relation to enhancing the commercial opportunities in our Country Parks. Over the following two years, we are also required to deliver further savings which are outlined below.

Scheme	2018/19 (£000)	2019/20 (£000)	Total (£000)
Efficient and effective procurement of goods and services	57	0	57
Total	57	0	57

In addition, the Regeneration & Planning Service will also be contributing to the delivery of general policy and council-wide savings. For 2018/19 these are:

- Review of the Procurement (Reshaping Tranche 3)- £1m
- Income and Commercial Opportunities (Reshaping Tranche 3)- £550k
- Digital Strategy (Reshaping Tranche 3) – £250k
- Establishment Review (Reshaping Tranche 3) – £250k
- Minimum Revenue Provision – £1.5m

Assets

In line with the Corporate Strategy, we are focussing on ensuring the suitability and sufficiency of our assets to meet service and corporate objectives by targeting any underperforming assets; reducing the amount of accommodation used to deliver services; and identifying opportunities to provide multiple service delivery from an asset (co-location). Our key areas of focus for 2018/19 are:

- Development of opportunities for income generation at key sites such as country parks.
- The letting of BSC2.
- To progress the disposal of Southern development site at Barry Waterfront and the former Goods shed site at the Waterfront.
- Moving forward discussions with partners such as Health and private land owners on the Barry Town centre Gateway project.
- Progress with the identification of land opportunities at Cardiff Airport.

Successfully utilise the Provider Performance Protocol to enable us to address areas of poor performance with providers and taking corrective action where required.	
Reputation: Reputational damage due to poor management/lapse of contact arrangement.	1	4	Service performance requirements included in contract documentation.	
Service Level Risks				
Loss and reduction of external grants. The cyclical and short term nature of funding streams impacts negatively on forward planning for a significant number of service areas including countryside management operations, renewal area, cultural, recreation and community schemes across the Vale. Also impacts negatively on sustainability of local businesses and jobs.	4	3	Alternative ways of service delivery being considered as appropriate including collaborative working with communities and third sector voluntary organisations to make services more sustainable in the long term. Option of service cessation considered where necessary. New income options to be considered and fees/charges subject to regular review to reflect real cost recovery.	
Competition for scarce resources within the Council means that non statutory services have a higher risk of losing resources.	3	3	Alternative means of funding being considered and whether certain services can be delivered in partnership or by others with Council support. Option of service cessation being considered where necessary.

	Likelihood	Impact		
Failure to manage the service's collaboration agenda effectively.	2	2	Ensure continued good working relationships with partners whilst proactively seeking viable collaborative solutions at a time of budget pressures. For example, progressing the City Deal.	
Policy trigger points set out in the Local Development Plan monitoring framework are breached as part of the annual monitoring review.	1	3	Preparation and development of Supplementary Planning Guidance. Determination of planning applications in accordance with the LDP. Using the LDP to robustly defend decisions regarding any appeal to PINS. Regular member training to ensure the decisions of Planning Committee are made in accordance with the LDP.	
Inability to maximise S106 contributions whilst having regard to the Community Infrastructure Levy (CIL) regulations and possible further changes to the legislation.	2	3	In mitigation, the Council is carefully wording s106 legal agreements to ensure compliance with CIL Regulations to prevent pooling restriction impeding delivery of community infrastructure in advance of adopting CIL. Supplementary Planning Guidance using district valuer to assess development viability on planning opportunities.	
Failure to secure sustainable development practice to mitigate the impact of climate change with respect to land planning and use.	1	3	Continue to scrutinise new developments, ensuring that development that is not sustainable is resisted.

Impact of regulatory and bureaucratic perception of the planning system and implications of Brexit, negatively impacting on investment and development.	2	2	Promote and raise the profile of the work of the Regeneration and Planning Service through presentations to key groups. Working with the South East Wales Planning Officer Society of Wales to promote a positive planning agenda. Work jointly with the Welsh Government and the CCR to overcome any potential barriers to investment and development.	
Downturn in the economy impacts on employment opportunities.	2	3	Continue working in partnership with businesses and other key stakeholders. Ensure planning decisions are made quickly. Use a proactive approach to regeneration through partnership working and supporting land owners and developers. Maximise benefits and opportunities for regeneration and employment via the CCR.	
Failure to identify and maximise potential income generation opportunities.	2	3	Regular engagement with stakeholders in the process and briefings with members on potential income opportunities and issues. Undertake public consultation of proposed income generation opportunities.	
Resource and reputational impact from decisions made on planning applications contrary to recommendation and subsequent appeal.	2	2	Training delivered for members and regular briefings.

Scoring risks	
Likelihood score	Refers to how likely it is that the risk will occur, that is, the probability of the risk happening. The scoring ranges between 1 and 4, with 1 being very unlikely, 2 - possible, 3 - probable and 4 being almost certain to happen or has already happened.
Impact score	Refers to what the impact would be if the risk occurred. Again the scoring ranges between 1 and 4, with 1 being low, 2 - medium, 3 - high and 4 being catastrophic. Impact would include things such as financial costs, public wellbeing, environmental/ social impact, damage to reputation, health and safety etc.
Inherent Risk	This is the risk score in a pre-control environment
Residual Risk	Remaining risk score after controls have been applied. Shows impact of controls.
Current controls	This is a control score that provides an indication of the effectiveness of the controls at managing the risk.
Forecast Direction of Travel	Anticipates the future direction of travel of the risk by taking into account factors that are likely to impact on it. Risk increasing  Risk is decreasing  Risk remaining static
