| Relevant Scrutiny<br>Committee:             | All Scrutiny Committees and Cabinet   |
| Report Title:                               | Annual Delivery Plan Monitoring Report: Quarter 4 Performance 2022/23.  |
| Purpose of Report:                          | To present quarter 4 performance results for the period 1st April 2022 to 31st March 2023 in delivering our 2022/23 Annual Delivery Plan commitments as aligned to our Corporate Plan Well-being Objectives.  |
| Report Owner:                               | Miles Punter, Director of Environment and Housing   |
| Responsible Officer:                        | Miles Punter, Director of Environment and Housing   |
| Elected Member and<br>Officer Consultation: | The performance report applies to the whole authority.  End of year performance information contained within the report is based on quarterly returns provided by service directorates to the Corporate Performance Team which is reviewed by DMTs and relevant Directors.  Consultation has also been undertaken with the Strategic Leadership Team.  Quarterly performance reports covering the Corporate Plan Well-being Objectives have been considered by all Scrutiny Committees and Cabinet throughout the year. |
| Policy Framework:                           | This is a matter for Executive decision by Cabinet.   |

#### Executive Summary:

- The performance report presents our progress at quarter 4 (1st April 2022 to 31st March 2023) towards achieving our Annual Delivery Plan (2022/23) commitments as aligned to our Corporate Plan Well-being Objectives.
- The appended presentation is intended to provide members with an overview of end of year performance earlier in the calendar year. This is ahead of the more detailed Self-Assessment 2022/23. This will be reported to Cabinet in and Full Council prior to publication in November 2023.
- All 4 Corporate Plan Well-being Objectives were attributed a Green performance status at Q4 to reflect the good progress made to date in meeting our Annual Delivery Plan commitments for 2022/23.

Agenda Item: 6

- 90% (343 out of 380) of planned activities outlined in our Annual Delivery Plan have been attributed a Green performance rating reflecting the positive progress made during the quarter, and 10% (37) of planned activities were attributed a Red status.
- Of the 128 performance measures aligned to our Corporate Plan Well-being Objectives, data was reported for 56 measures where a performance status was applicable. 70% (39) measures were attributed a Green performance Status, 7% (4), Amber status and 23% (13), Red status. A performance status was not applicable for 72 measures with 50 of these relating to measures establishing baseline performance for 2022/23, and for 22 measures no update no data was available.
- In relation to the planned activities within the remit of the Homes and Safe Communities Scrutiny Committee, 95% (52 out of 55) were attributed a Green performance status and the final 5% (3) were attributed a Red status. Of the 17 measures reported, 71% (12) were attributed a Green performance status, 6% (1) an Amber status and 23% (4) were attributed Red status.
- For ease of reference, performance exceptions aligned to the Scrutiny Committee's remit
  highlight the current status of Red performing actions identified in previous quarters to show
  direction of travel at end of year. This will enable members to quickly gauge whether proposed
  remedial actions have been undertaken in year to progress these actions. This approach of
  reporting exceptions reflects the changes requested by elected members on performance
  monitoring of the Annual Delivery Plan.
- The report seeks elected members' consideration of Q4 performance results and the proposed remedial actions to address areas of identified underperformance. Upon consideration, the Scrutiny Committee is recommended to refer their views and any recommendations to Cabinet for their consideration.

#### Recommendations

- 1. That Members consider Q4 performance results and progress towards achieving the Annual Delivery Plan 2022/23 commitments as aligned to our Corporate Plan Wellbeing Objectives within the remit of the Committee.
- 2. That Members consider the remedial actions to be taken to address areas of underperformance and to tackle the key challenges identified within the remit of the Committee, with their views and recommendations referred thereafter to Cabinet for their consideration and approval.

#### **Reasons for Recommendations**

- 1. To ensure the Council clearly demonstrates the progress being made towards achieving its commitments in the Annual Delivery Plan 2022/23 aimed at making a positive difference to the lives of Vale of Glamorgan citizens.
- To ensure the Council is effectively assessing its performance in line with the
  requirement to meet our performance requirements as outlined in the Local
  Government & Elections (Wales) Act 2021 and reflecting the requirement of the Wellbeing of Future Generations (Wales) Act 2015 that it maximises its contribution to
  achieving the well-being goals for Wales.

### 1. Background

- 1.1 The Council's Performance Management Framework is the mechanism through which our key priorities and targets are monitored and realised in order to secure continuous improvement and meet our performance requirements.
- 1.2 As part of the review of its Performance Management Framework, the Council has adopted a Corporate Plan (2020-25) which reflects the requirements of the Well-being of Future Generations (Wales) Act 2015 and identifies 4 Well-being Objectives for the Council. We have also refined our performance reporting and monitoring approach to enable us to meet our new duties under the Local Government & Elections (Wales) Act which came into effect from 1st April 2021.
- 1.3 Our performance framework is aligned to our Corporate Plan to enable us to track our progress on well-being objectives (keep our performance under review) and demonstrate how the steps we intend to take will contribute to achieving multiple well-being objectives and in turn the national goals.
- 1.4 In line with these performance arrangements, Cabinet and Scrutiny Members will consider a high-level overview of performance in a presentation report format. The report is aligned to the remit of the Committee and reports progress against all four Well-being Objectives enabling members to look at the achievement of the Corporate Plan holistically. The report also highlights areas of improvement that may require greater scrutiny by members and enables Cabinet and Scrutiny Committees to flex their work programme to reflect any emerging performance issues that may require more intensive consideration.

- Work will continue to further develop and enhance our performance monitoring and reporting arrangements in line with our duties as outlined in the WBFG (Wales) Act and the LG&E (Wales) Act with reference to the wider local government agenda. These discussions will continue to consider the best way to present information to elected members to facilitate scrutiny and identify and explore areas of interest.
- 1.6 The presentation at Appendix A outlines our performance for the period 1st April to 31st March 2023 against our Annual Delivery Plan commitments for 2022/23 as aligned to the remit of the Homes and Safe Communities Scrutiny Committee.
- **1.7** The presentation structure provides members with:
- An overall performance summary of the Annual Delivery Plan 2022/23;
- An overview of achievements specific to each scrutiny committee's remit across all 4 Well-being Objectives.
- A performance snapshot specific to each scrutiny committee's remit, including
  the overall status of actions and performance measures. Hyperlinks to detailed
  performance commentary for all actions and measures including performance
  exceptions are embedded within the presentation. These are the areas we need
  to improve in relation to our Annual Delivery Plan activities as aligned to the
  Corporate Plan Well-being Objective.
- An overview of areas for improvement specific to each scrutiny committee's remit across all 4 well-being objectives.
- 1.8 The presentation report uses the traffic light system, that is, a Red, Amber or Green (RAG) status and a Direction of Travel (DOT) to aid performance analysis. Progress is reported for all key performance indicators and actions by allocating a RAG performance status.
- 1.9 For ease of scrutiny, performance exceptions (that is, all actions or PIs within the remit of the Committee that have been attributed a Red status) are presented at <a href="Appendix B">Appendix B</a> including a direction of travel and commentary on the performance. The Performance exceptions highlight the current status of red performing actions identified in previous quarters to show direction of travel at end of year, that is whether proposed remedial actions have been undertaken to progress these actions.
- **1.10** Detailed performance commentary for all actions and measures are provided at Appendix C which provides contextual information for members' information should they wish to examine this level of detail.

#### 2. Key Issues for Consideration

- 2.1 We have assessed progress in relation to our planned activities as outlined in our Annual Delivery Plan for 2022/23 using local performance and trend data where possible.
- 2.2 There is currently limited national benchmarking data available due the removal of our national data obligations by the Welsh Local Government Association (WLGA) and Welsh Government (WG). A Self-Assessment dataset has been recently published by Data Cymru and work will continue with local authority colleagues across Wales to further develop these datasets. The information will be used to benchmark service performance where possible, and this will be reflected within the Council's Draft Annual Self-Assessment that will presented to members of this Scrutiny Committee in September 2023. We will also continue to use our local performance data to support performance reporting where possible.
- 2.3 All 4 Corporate Plan Well-being Objectives were attributed a Green performance status at Q4 to reflect the good progress made to date in meeting our Annual Delivery Plan commitments for 2022/23.
- 90% (343 out of 380) of planned activities outlined in our Annual Delivery Plan have been attributed a Green performance rating reflecting the positive progress made during the quarter, and 10% (37) of planned activities were attributed a Red status.
- Of the 128 performance measures aligned to our Corporate Plan Well-being Objectives, data was reported for 56 measures where a performance status was applicable. 70% (39) measures were attributed a Green performance Status, 7% (4), Amber status and 23% (13), Red status. A performance status was not applicable for 72 measures with 50 of these relating to measures establishing baseline performance for 2022/23, and for 22 measures no update no data was available.
- 2.6 Appendix A outlines our performance for the period 1st April 2022 to 31st March 2023 against our Annual Delivery Plan commitments for 2022/23 as aligned to the remit of the Homes and Safe Communities Scrutiny Committee.
- 2.7 For ease of scrutiny, performance exceptions (that is, all actions or PIs within the remit of the Committee that have been attributed a Red status) are presented at Appendix B including a direction of travel and commentary on the performance. For ease of reference, performance exceptions aligned to the Scrutiny Committee's remit highlight the current status of Red performing actions identified in previous quarters to show direction of travel at end of year. This will enable members to quickly gauge whether proposed remedial actions have been undertaken in year to progress these actions. This approach of reporting exceptions reflects the changes requested by elected members on performance monitoring of the Annual Delivery Plan.
- 2.8 Detailed performance commentary for all actions and measures are provided at <a href="Appendix C">Appendix C</a> which provides contextual information for members' information should they wish to examine this level of detail.
- 2.9 In relation to the planned activities within the remit of the Homes and Safe Communities Scrutiny Committee, 95% (52 out of 55) were attributed a Green performance status and the final 5% (3) were attributed a Red status. Of the 17

- measures reported, 71% (12) were attributed a Green performance status, 6% (1) an Amber status and 23% (4) were attributed Red status.
- 2.10 Elected Members are being asked to consider the Q4 performance results and the proposed remedial actions to address areas of identified underperformance. Upon consideration, the Scrutiny Committee is recommended to refer their views and any recommendations to Cabinet for their consideration.

# 3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?

- 3.1 Performance Management is an intrinsic part of corporate governance and integrated business planning which underpins the delivery of the Council's Corporate Plan and its Well-being Objectives and associated annual commitments in its Annual Delivery Plan 2022/23. Our Corporate Plan has been structured around the Well-being of Future Generations (Wales) Act 2015, through the development of four Well-being Objectives. By aligning our Well-being Outcomes in the Corporate Plan with the Well-being Goals of the Act, this will enable us to better evidence our contribution to the Goals.
- 3.2 Performance reporting is an important vehicle for showing our progress, not only in terms of impacts across the national well-being goals through achievement of our well-being objectives but also in terms of the changes and improvements made in our approach to integrated planning.
- 3.3 The five ways of working are a key consideration in our corporate Performance Management Framework ensuring that we continue to focus on working differently and in an inclusive way to challenge why, what and how we respond to our key performance challenges.

#### 4. Climate Change and Nature implications

- 4.1 There are no direct climate change and nature related implications associated with this report. The Corporate Plan and Annual Delivery Plan incorporate our key commitments which aim to have a positive impact on climate change and nature overall. However, failure to deliver on these commitments could impact negatively on achievement of our Well-being Objectives and in turn our contribution to the national goals and on any external regulatory assessments of the Council.
- 4.2 The climate change and nature implications related to the Council's activities are outlined in Project Zero (our Climate Change/carbon reduction and nature programme) and identifies the mitigating actions we intend to take to minimise the adverse consequences of our activities. It also includes key measures and targets that are monitored and regularly reported to all stakeholders to enable us to demonstrate and track progress towards achieving our key climate change and nature related commitments enroute to achieving net zero carbon status by 2030.

#### 5. Resources and Legal Considerations

#### **Financial**

5.1 There are no additional budgetary implications arising from this report, although underperformance in some areas may have a negative impact on external assessments of the Council and could put certain funding opportunities at risk.

#### **Employment**

There are no direct workforce related implications associated with this report. However, there are a number of issues contained within the performance report that if not effectively managed have the potential to impact on our staff establishment and performance overall. This may in turn impact adversely on achievement of key outcomes associated with the Corporate Plan.

#### **Legal (Including Equalities)**

- 5.3 The Local Government & Elections (Wales) Act 2021 requires that the Council keep its performance under review and consult and report on its performance in order to secure continuous improvement and meet its performance requirements.
- 5.4 The Well-being of Future Generations (Wales) Act 2015 requires the Council to set and publish annual Well-being Objectives that maximise its contribution to achieving the Well-being goals for Wales and report its progress in meeting these.

### WHAT HAVE WE ACHIEVED?

### Objective 1: Work with and for our communities:

- Additional grant funding has been secured to continue to support the delivery of the Food Pod in line with our priorities to support residents in the cost of living crisis.
- Our newly developed Transition SMART houses at Castle
   Avenue and Carys Close are now completed, our next scheme
   Merthyr Dyfan Road is currently being developed. The scheme
   aims to support independent living and enhance well-being.
- A Vale Resettlement Coordinator is now in post to support Syrian and Afghan families living in the Vale. An additional 11 homes have been secured on a leasing agreement with the MOD.

# Objective 3: Support People at home and in their community:

- SRS colleagues have attended a number of hairdressing businesses across Penarth and Cowbridge to provide information packs for their vulnerable clients in terms of cam awareness. 2 underage operations were conducted in relation to the sale of disposable e-cigarettes, 35 premises were given written warnings and advice.
- 100% of domestic abuse victims reported feeling safer as a result of security improvements to victim's homes delivered by the Safer Vale Partnership.
- The Community Safety Team has continued to have an active presence online, during the quarter 488 messages were sent out through different platforms, including safety advice for Mental Health, Knowing where your Children are during Half Terms, Anti-Social Behaviour, Domestic Abuse & Fly tipping.

# Objective 2: Support learning, employment and sustainable economic growth:

- The Council house building programme continues to offer opportunities for work experience and apprenticeships, matched to local people, future support will be delivered via the Communities for Work programme and targeted at those individuals participating in employability initiatives.
- Our One Stop shop continues to provide assistance to residents regarding a wide range of issues, including health, debt, rehousing, benefits and employment. The short, focussed interventions are having positive outcomes and assisting large numbers of vulnerable people.
- 239 tenancies maintained six months after receiving Money Advice, against an annual target of 200, a third money advisor is now in post to provide additional capacity to assist tenants.

# Objective 4: Respect, enhance and enjoy our environment:

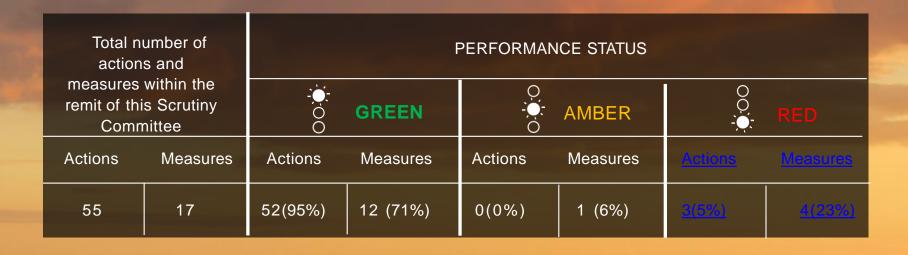

- Building Services continues to invest in the existing Housing stock by installing external wall insulation through programmed works. This links with the current approach to invest in fabric first whilst trailing new environmentally technologies and monitoring the market for new renewable technologies. During Q4 the team was successful in winning an award for the largest thermal insulation project in Wales.
- Local air quality monitoring continues to be undertaken across the Vale of Glamorgan by the joint Shared Regulatory Service.
- Penarth Food Pod continues to grow in popularity and the team of volunteers is growing.
- Preparatory work is progressing to inform development of an investment programme to achieve EPC band A properties by 2033.

### PERFORMANCE SNAPSHOT:

### HOMES & SAFE COMMUNITIES SCRUTINY COMMITTEE

### AREAS FOR FUTURE FOCUS AND IMPROVEMENT

### Objective 1: Work with and for our communities:

- Minor slippage in our progression of Bus Stop Improvement for 2022-23 which are expected to be completed by the end of May 2023.
- The construction industry is still adjusting to the cost pressures arising from increased costs resulting from Brexit, the Ukraine conflict and a change in fuel duty to plant and machinery. This has seen costs rise by as much as 30% for individual projects and some contractors have been reluctant to commit to long term projects or to hold costs for long periods. Budgets and individual programmes are being reviewed as data emerges for each project but this will continue to present challenges.

# Objective 3: Support people at home and in their community:

- Continue to work with partners to identify and deliver effective interventions for young people at risk of homelessness.
- Continue to improve the number of households successfully prevented from becoming homeless against a back drop of spiralling rental costs and the cost-of-living crisis.
- Improve the number of working days to let an empty property, during Q4 it took 22.2 days against our target of 20 days.

# Objective 2: Support learning, employment and sustainable economic growth:

- The Wales Illegal Money Lending Unit continues to deal with a large volume of cases arising from the financial difficulties some found themselves in as a result of the pandemic and associated lockdowns. Work continues to both investigate the illegal lenders and to support victims.
- Continue to work closely with tenants to ensure there are no barriers to accessing Employment advice and support.

# Objective 4: Respect, enhance and enjoy our environment:

- Continue to identify and deliver projects that contribute to near zero carbon, or at a minimum A rated new Council homes and utilise Optimised Retrofit Programmes that include Modern Methods of Construction and off-site manufacturing to meet carbon reduction targets.
- Continue to invest in our housing stock and improve thermal efficiency by maximising the performance of the existing components and materials of our homes and looking at alternative fuel supplies to support carbon reduction and reduce fuel poverty.

| CPM/092: Average number of working days to let an empty property (standard condition). (Housemark) | 19.7 days     | 22.2 days     | 20 days              | <b>V</b>               | "This year to date we have let 88 standard voids compared with 134 at the end of the last year (2021-22). The reduction in the number of standard lettings can mainly be put down to people's inability or unwillingness to move as part of the legacy of lockdown, but more recently due to finances as the cost-of-living crisis has hit.   |
|  |               |               |                      |                        | In practice, this meant that housing lost valuable time after works were completed in the first half of the year (almost double the accepted 5 days) with people taking longer to make up their minds or not being able to move immediately.  |
|  |               |               |                      |                        | The year started with the average time in repairs: 12.9 days and an average of 9.8 days with housing after works. That has changed through the year but not enough to sufficiently recover and hit the target. Ending the year on: time in repair 14.9 days and time with Housing after repairs complete 6.3 days.  |
|  |               |               |                      |                        | Whilst acknowledging the drop in performance levels, it can be noted that the sector in general is also finding it challenging. Based on Housemark data the Vale remains comfortably in the top quartile on time taken to relet standard voids when measured against a sample of 231 similar organisations that provided data across the UK. We sit in second place within our peer group. This is a smaller group of similar sized organisations with rural and urban characteristics  |
|  |               |               |                      |                        | In 2022-23 the number of properties being abandoned, needing specialist clearances needed prior to any works commencing has also increased. The increased loss highlights the need to preterm as many properties as possible BEFORE people move, and for people not to be allowed to move to another property where the current one has been neglected or is in disrepair. This year those properties have incurred significantly greater costs (£89,666.90) and have been classified as 'major works' and are shown in table 4 below." |

| PAM/036: Number of additional affordable housing units delivered during the year per 10,000 households. | 32.6  | 6.2    | 20  | <b>\</b> | Continued delays in building works as a result of the pandemic, are also now being adversely affected by the current economic environment and cost of living crisis e.g. a large builder of Affordable Housing in Wales for many years has recently gone into administration. This is an all-Wales problem, one being experienced by all 22 RSLs. |
|---|-------|--------|-----|----------|---|
| CPM/137: Number of new accessible/adapted homes delivered   | 13    | 0      | 9   | <b>\</b> | Delays with building cause by the collapse of Jehu have affected the ability to complete schemes on time this financial year.   |
| PAM/012: Percentage of households successfully prevented from becoming homeless.                        | 44.9% | 51.47% | 70% | <b>↑</b> | Prevention success percentage is improving despite the pressures on the services and increase in number of households presenting as being at risk of homelessness. The challenges with accessing the private rented sector remain the same although it continues to be considered.  |

### **APPENDIX 1: Service Plan Actions contributing to this Well-being Objective**

Well-being Objective 1: To work with and for our communities

CP Commitment: 1.1 Improve how we involve, engage and communicate with others about our work and decisions

Several community engagement events have been held through the final quarter which have helped develop a draft Age Friendly Vale PSB Charter, that will highlight the PSB's commitments in this area. Engagement has also taken place with Town and Community Councils through a PSB Exchange meeting in March. The application to receive the World Health Organisation's Age Friendly Status is in its final stages and continues to be developed to reflect feedback from stakeholders including older people, PSB partners and the Older Peoples Commissioner's Office. The application is expected to be submitted in the summer 2023. | PB/A030: Undertake a review of our first year of applying the Local Government Act in producing a Self-Assessment in order to apply lessons learnt and strengthen our approach for future years.     | 31/03/2023                    | 100%       | assessment performance judgements to help inform our final conclusions. This information was then used to draft our Annual Self-Assessment report in line with the Act's requirements. A final draft of the Annual Self-Assessment was produced and considered by Scrutiny and approved by Cabinet and Full Council in October.  Following completion of the Directorate Self-Assessment, Performance Partners have requested feedback regarding the approach and what had worked well/not so well. This feedback alongside those informed by the learning and any identified best practice from colleagues across Wales will be used to inform next year's approach. Alongside the above, we are also working collaboratively with elected members to further strengthen how they work together to support effective challenge and continuous improvement through a series of member workshops aligned to the Annual Performance Calendar. A member workshop on the Annual Self-Assessment Approach has been recently undertaken and the feedback is being reviewed. This will inform how the self-assessment | Green                                |                             | Corporate<br>Performance<br>and Resources |

Additional staffing provided to support families of children with additional to access the event. Resources such as accessible toilet and changing tent provided to support inclusion.  A hugely successful free Christmas Event attended by more than 100 families. "Honestly amazing. So many activities, staff were lovely and gave a Christmas Day out we couldn't afford this year so thank you!" Training and Recruitment:  Vale Play Team has worked in partnership with Play Wales' Play Ambassador Project to deliver Playwork training opportunities to over 50 learners this year, growing the play workforce and upskilling members of the community.  Local secondary school pupils were trained via the Play Ambassador Project, and have since been recruited as casual playworkers, working on our open access play programme.  Playworks funded courses have been organised by Vale Play Team and delivered to the play workforce and local community partners providing play opportunities across the Vale, |                                      |                             |                                   |

The Vale has the highest uptake of all Welsh Local Authorities. Pupils are enjoying a mix of hot and cold food provision. This provision moving into 2023-24 will save our parents £475 per child. Welsh Government officials will visit a couple of Vale schools after the Easter break to see the project in action. Years 3 - 6 will commence on 24 April, allowing all parents of primary aged children to take a free meal if required. Team representatives attended the MMEW Showcase and planning event held, actively contributing to the planning process for future plans. The work of the team was included in the MMEW series of videos to demonstrate how the work is impacting on MMEW actions. The funding provided through the Prevention Funding stream continues to positively impact on the NERS and Active Adults projects, although these have been affected by the NERS Development Officer post being vacant and the sad passing away of the officer who developed the Active Adults projects. Both posts have recently been advertised and new Officers will be commencing post April 2023. In addition to delivering a successful programme through the Corporate Events budget, the Tourism & Events team worked with many external stakeholders in expanding the events calendar and raising the profile of the VOG as an events destination. Given the economic climate, the partnerships formed will enable us to deliver future events more cost effectively, with a shift towards more sustainable, privately funded events for the future. SPF Funding to support the 4 towns with the primary aim to increase footfall, has been secured for 2023-25 therefore we have started conversations with partners in how this will be delivered for 2023/4 and 2024/5. | Green                                |                             | Environment<br>and<br>Regeneration  |

| PB/A037: Maximise opportunities to signpost citizens to cultural and arts activities designed to enhance their mental health and wellbeing. | 31/03/2023                    | 100%       | are thrilled to have the whole library to themselves! As Quarter 4 draws to a close, plans are already in place for Easter holiday activities, some of the Warm Spaces initiatives will continue and work has started on this year's Summer Reading Scheme. Countywide marketing and promotion of arts, cultural events and exhibition is now better coordinated with most events being fully booked. The reduction in the number of standard lettings can mainly be put down to people's inability or unwillingness to move as part of the legacy of lockdown, but more recently due to finances as the cost-of-living crisis has hit.  In practice, this meant that housing lost valuable time after works were completed in the first half of the year (almost double the accepted 5 days) with people taking longer to make up their minds or not being able to move immediately. | Homes & Safe<br>Communities       |

The increased loss highlights the need to preterm as many properties as possible BEFORE people move, and for people not to be allowed to move to another property where the current one has been neglected or is in disrepair. This year those properties have incurred significantly greater costs (£89,666.90) and have been classified as 'major works' and are shown in table 4 below." |  |
