

Meeting of:	<b>Shared Regulatory Services Joint Committee</b>
Date of Meeting:	<b>Tuesday, 23 March 2021</b>
Relevant Scrutiny Committee:	Homes and Safe Communities
Report Title:	Shared Regulatory Services Fees and Charges 2021-22
Purpose of Report:	To advise the Joint Committee of the proposed fees and charges for services delivered within the Shared Regulatory Service (SRS) for 2021-22
Report Owner:	Miles Punter - Director of Environment and Housing
Responsible Officer:	Dave Holland - Head of Shared Regulatory Services
Elected Member and Officer Consultation:	No Elected Members have been consulted. The following officers have been consulted ; Assistant Director, Cardiff Council, Head of Legal and Regulatory Services, Bridgend County Borough Council
Policy Framework:	This is matter delegated to the Joint Committee
<p>Executive Summary:</p> <ul style="list-style-type: none"> <li>• The report sets out the proposed fees to be charged in by SRS in the 2021-22 financial year, for a range of licensing and other services. The Joint Committee is asked to approve the recommendations made with respect to the setting of those fees for which it has responsibility.</li> <li>• For completeness, the report also sets out fees which SRS will be required to charge during the 2021-22 financial year but which are set by external bodies such as the Association of Port Health Authorities and the UK and Welsh Governments.</li> </ul>	

## **Recommendation**

1. The Joint Committee is asked to consider the SRS charging and fee proposals, as set out in this report, and agree to their implementation from 1st April 2021.

## **Reason for Recommendation**

1. The report reviews fees and charges for 2021-22. Part One of the Annex to this report itemises those fees within the remit of the Joint Committee. In broad terms, this includes all fees *apart* from Alcohol, Gambling, and Taxi licensing, Additional Licensing Scheme charges for Houses in Multiple Occupation and consents issued under the Local Government Act 1982.

In addition to the above charges which are set locally, others (as set out in Annex Part Two) are set through voluntary regional or national arrangements, or reflect the statutory regimes set by Welsh and UK Governments.

## **1. Background**

- 1.1 The fees and charges adopted by the Shared Regulatory Service in previous years have reflected a continual process of harmonisation in the licensing regimes operated across the three local authority areas.
- 1.2 Across all three partner authorities, 'income generation' has been identified as a core work stream in Corporate Planning processes and is recognised as a method of ensuring continuing provision of services in the face of increased budgetary pressures. The core business case for the SRS identifies the potential for increases in income to exploit new sources of revenue and increase the yield from existing sources.
- 1.3 This approach was endorsed by the Wales Audit Office in its 'Delivering with Less – Environmental Health Services' follow-up review reports for each of the three partner authorities. One of the auditors' proposals for improvement for delivery of services is that 'the Councils should investigate further possibilities for commercialisation and income generation....in order to provide financial capacity if funding reduces in the future'.
- 1.4 While these guiding principles remain in place for the longer term, the continuing impact of the COVID 19 pandemic on economic prosperity and the delivery of local authority services has to be taken into account when setting fees and charges in the 2021-22 financial year.
- 1.5 The fees and charges set out in this report aim to strike a balance between these considerations, whilst at the same time ensuring that they are transparent, proportionate and compliant with statutory legislation. It is proposed that the new fees take effect from 1st April 2021.

## **2. Key Issues for Consideration**

- 2.1** Where any fees charged result in a surplus, that surplus must be used to reduce the fees charged in the following year. It is possible to extend the reinvestment of the surplus over more than one year, but this will need careful consideration about whether contributors may leave the licensing system over that period and therefore lose out on the return.
- 2.2** Deficits can similarly be recovered, although where there is a significant deficit, councils may want to consider how recovery can be undertaken over more than one year so as not to financially harm otherwise viable businesses.
- 2.3** To ensure that fees remain reasonable and proportionate the SRS has established a regular review process and reports the findings to the Joint Committee in the form of this annual fees report. These annual reviews will allow for the fine tuning of fees and put in place steps to avoid either a surplus or deficit accumulating in future years.
- 2.4** As part of this annual fee setting process, reference is always made to the Consumer Prices Index (CPIH) for the previous August when setting the rate of increase, and this is consistent with a range of governmental fees and benefits. The CPIH for August 2020 was just 0.5% (compared with a rate of 1.7% in August 2019).
- 2.5** During the course of the coming year, SRS will continue to explore additional areas where charges may be levied for the provision of services. In the case of charges based on officer time, a rate of £65 an hour, to include overheads, will be used.

## **3. How do proposals evidence the Five Ways of Working and contribute to our Well-being Objectives?**

**3.1** The Well-being of Future Generations Act requires the SRS to underpin decision making by contributing to the seven well-being goals of the Act, following the five ways of working, and consequently undertaking actions that will have a positive impact on people living in the future as well as those living today. Consequently, SRS seeks to work in the following ways:

- Looking to the long term
- Taking an integrated approach;
- Involving a diversity of the population in the decisions affecting them;
- Working with others in a collaborative way to find shared sustainable solutions
- Acting to prevent problems from occurring or getting worse.

**3.2** The fundamental purpose of the SRS (here defined as trading standards, environmental health and licensing) is to protect residents, consumers, businesses and communities. The broad range of responsibilities can make it difficult to demonstrate succinctly their impact and value in terms of the wellbeing; the SRS Business Plans provide members with greater detail and articulate how those statutory responsibilities, and subsequent activities, contribute toward wellbeing across the region. This update report reflects some of the activities undertaken in recent months to promote the sustainable development principle.

## **4. Resources and Legal Considerations**

### **Financial**

**4.1** Having regard to the ongoing impact of the COVID 19 pandemic on the business community, and also the negligible benefit to the Service of imposing a 0.5% inflationary increase on the fees and charges currently in place, the proposed 2021-22 structure for those locally set fees and charges, would remain the same in as for 2020-21.

### **Employment**

**4.2** There are no immediate employment implications associated with this report.

### **Legal (Including Equalities)**

**4.3** There are no immediate legal implications associated with this report.

### Key

Subsistence charges can be paid in four equal quarterly instalments paid on 1<sup>st</sup> April, 1<sup>st</sup> July, 1<sup>st</sup> October and 1<sup>st</sup> January. Where paid quarterly the total amount payable to the local authority will be increased by **£37.00**. There is no extra fee payable to the NRW where quarterly payments are made.

A late payment fee of **£51.00** will apply when an invoice remains unpaid 8 weeks from the date the invoice was issued.

### **Newspaper advertisements**

Newspaper adverts may be required under EPR at the discretion of the LA as part of the consultation process when considering an application (see Chapter 9 of the General Guidance Manual). This will be undertaken and paid for by the LA and the charging scheme contains a provision for the LA to recoup its costs

### ***Note***

**During the course of the year, SRS will continue to explore additional areas where charges may be levied for the provision of services. In the case of charges based on officer time, a rate of £65 an hour, to include overheads, will be used.**
