

## Community Care and Health

### Vale Catering Services

#### What do we do?

We provide a catering service, which operates within the boundaries of the Vale of Glamorgan Council. There are three main elements of the service namely:

- The School Meals Service,
- The Residential Homes Catering Service,
- The Hospitality Catering Service.

#### Who is the service for?

The School Meals Service provides meals for all children within the Authority from the age of 4 - 18 years. We remain one of the few authorities to provide a 'prime cooked' meal. The menu offered meets the needs of the legislation requirements within the Schools Standard and Framework Act 1998 and provides 1/3rd of the daily nutritional requirements of children aged between 4 - 11 years. The service not only provides meals to children in schools, which have kitchens on site, but also offers a full transported meal to those that do not. Our service includes the management of the School Milk scheme for all participating pupils.

We also provide a full catering service within the Residential Homes and also Day Care Centres, Luncheon Clubs and the Meals on Wheels Service. Needs of the Client are of the utmost importance and all dietary requirements are met on an individual basis. This service also operates within the legislation relating to food production and nutrition for the aged.

Hospitality Catering is the element of service that is provided to the Corporate section within the Authority and is tailored to meet the requirements of each individual directorate requests.

#### How can you find out more?
